The library as a place of learning has seen progressive change. DIT Library Services is listening and responding to the student need for a library service that supports all their learning requirements and learning styles. A service designed to reach them at their point of need.

**Digital Literacy is essential for today’s students and graduates**

Library staff share their expert knowledge to help students learn how to find, evaluate and use information in all formats.

**Students want:**

- A physical space to study, collaborate and engage with Library staff face-to-face
- A virtual library accessible 24/7

**Digital Skills & Research Hub** and research support for all students in development

“The only thing that you absolutely have to know, is the location of the library.”

-Albert Einstein

Now the Library is wherever the student is.

**DIT Library Services**
