Advisory and Education Sub-Committee

Cinema and Theatre (Projection)

A meeting of the I.T.G.W.U. (Cinema Branch) members of the Advisory Sub-Committee for Cinema Apprentices' classes and members of the staff of the Technical Schools was held at Kevin Street, at 4 p.m. on Tuesday, July 10th 1951.

Present:- Messrs. F. Robbins, T. Farrell (I.T.G.W.U. Cinema Branch) and H. Hodgins, J. Honan (Technical Schools)

Business:- Consideration of Sessional examination marks and attendance reports for Cinema Apprentices Years I, II, and III.

It was agreed that:-

- (1) Most students of Year I and II should pass on to the next year of the Course, and that all of Year III pass out.
- (2) A few students in Year I and II will have to take supplemental examinations in single subjects or to repeat the year of the Course already taken.
- (3) One student to discontinue owing to very bad attendance.
- (4) The date for supplemental examinations to be early in September.

Names of students and particulars as above to be set out on Reports with marks and attendances. Reports to be sent to Mr. Robbins as soon as possible.

Mr. Robbins asked that a strong letter regarding attendance and punctuality be sent to him by the Principal. Mr. Robbins advised that the members now representing the I.T.G.W.U. (Cinema Branch) are:-

Messrs. Frank Robbins, Thomas Farrell and Robert Crawford.

Signed:- _____

10th July 1951.

CITY of DUBLIN VOCATIONAL EDUCATION COMMITTEE

INSTITUTE of SCIENCE and TECHNOLOGY

KEVIN STREET

ADVISORY AND EDUCATION SUB-COMMITTEE

CINEMA AND THEATRE (PROJECTION)

Minutes of the Meeting held 17th September 1952

Present: Messrs. F. Robbins, G. Campbell and L. McDonagh (Irish Transport and General Workers' Union, Theatres' and Cinemas' Branch); Messrs. J. Brennan and J. Shercliffe (Theatre and Cinema Managers' Association (Ireland).); Mr. H. Hodgins (Head of Telecommunications Engineering Department) and Mr. M. J. Cranley, Principal (in the chair)

An apology for inability to attend was received from Mr. M. Baum.

A letter from Mrs. Gladys Morton, widow of the late Principal, was read, in which she thanked the Advisory Sub-Committee for their message of sympathy on her bereavement.

Mr. Cranley welcomed the new members of the Committee, Messrs. G. Campbell and L. McDonagh.

The results of the Sessional and Supplemental Examinations for the 1951-52 Session were considered and approved. The details are appended to these Minutes.

Of the 20 boys in First Year, 8 passed, 6 had left the Trade, 4 are required to repeat the years course, 1 is required to take a supplemental examination and 1 was ill for a considerable time. Of the 7 second year students 5 passed and 2 had left the Trade. 10 students sat for the Final Third Year Examination and it was agreed that certificates be issued to the following 7 students:-

<u>Name</u>	<u>Employer</u>
Barrett, Michael	Rialto Cinema
Dunne, Desmond	Grafton Cinema
Heller, Francis	Metropole Cinema
Murphy, Thomas	Classic Cinema
McDonnell, Anthony	Astoria, S'ford
Gahan, Henry	Leinster Cinema
Irwin, Patrick	Mary St. Cinema

Two student had left the Trade and one will be obliged to repeat the Final Year

Arising from the consideration of the examination results, it was agreed that the general education of Cinema Apprentices was, on the whole, not sufficiently good to enable them to derive full benefit from the course in the Institute. It was noted that the majority seemed to experience difficulty in expressing themselves in writing. It was decided that this matter should be discussed further between the Theatre and Cinema Association and the Irish Transport and General Workers' Union, to see if additional instruction in, say, English and/or Mathematics would be given during the First Year course.

Mr. Robbins suggested that the courses would be improved if a projector and ancillary sound equipment were available to the Institute in Kevin Street. It was decided that a meeting of representatives of the Union and of the Theatre and Cinema Association should be held in the near future, with Mr. Brennan as convener, to discuss what steps could be taken to acquire such equipment.

The possible impact of Television on the Cinema Trade was discussed, but it was felt that it was too soon to come to any firm decision as to how training for Television might be made available to Cinema Operators or Apprentices.

Mr. Robbins raised the matter of the recent increase in fees for Cinema Apprentices from 10/- to 30/-. Mr. Cranley pointed out that in certain Trades classes a fee of 10/- had been charged, although the usual fee for such classes was £1. The general apprentice fee was increased to £1 to bring them all up to the same level; in addition, all fees had now been increased by approximately 50%. Mr. Robbins accepted this as a satisfactory explanation of what appeared to be a severe increase.

The meeting then terminated.

H. Hodgens

CITY of DUBLIN VOCATIONAL EDUCATION COMMITTEE

INSTITUTE of SCIENCE and TECHNOLOGY

KEVIN STREET

Minutes of Advisory Sub-Committee: Cinema and Theatre (Projection) held
in the above Institute

at 3.30 p.m. on 23rd July 1953.

Present:

Mr. M. J. Cranley (Principal) presiding. For the Irish Transport and General Workers' Union - Mr. F. Robbins, Mr. L. McDonagh and Mr. G. Campbell. For the Theatre and Cinema Manager's Association - Mr. J. Brennan. Mr. H. Hodgens, Head of Department and Acting Secretary.

Mr. Cranley announced that an apology for inability to attend had been received from Mr. M. Baum.

The minutes of the previous meeting having been circulated were taken as read and signed.

After detailed consideration of examination results for the Session 1952-53 the following decisions were made:- Daniel Donohue, Frederick Matthews, Liam Lynch and James Barrett to be called before the sub-committee for interview because of unsatisfactory attendance at classes.

Joseph Dillon to repeat Year I. Bernard Cooney, Desmond Jennings, Liam Mooney, Patrick Roantree, Henry Colgan and Joseph Larkin to take supplemental examinations in the subjects in which they did not obtain pass marks. All other candidates passed.

It was decided that the next meeting of the Advisory Sub-Committee be called for 11 a.m. on Saturday 12th September 1953 and that the students be called for interview at 11.30 a.m. on that day. It was decided that arrangements be made to hold the supplemental examinations at Kevin Street early in the week commencing 7th September 1953 so that the results shall be available to the Sub-Committee on the 12th instant.

The Sub-Committee unanimously agreed that additional instruction in Mathematics and English was necessary for First Year students, since their lack of facility in these subjects was a handicap to them in subsequent years of the course. Mr. Brennan said that he did not foresee any difficulty in further release of the boys to attend the course while Mr. McDonagh suggested that any additional instruction should be provided in the afternoon. Mr. Cranley thought it would be possible to provide additional instruction for two hours on one afternoon per week. Mr. Robbins suggested that Mr. Cranley should write to the Irish Transport and General Workers' Union and to the Theatre and Cinema Managers' Association informing them of this recommendation of the Advisory Sub-Committee and requesting their co-operation.

Mr. J. Brennan gave a report of a meeting and correspondence with Mr. Callan of Messrs. Allied Cinema Supplies Ltd., regarding the possibility of obtaining Projector and Sound equipment for the Institute. A letter concerning a front shutter Simplex Projector mechanism and a R.C.A. Sound Head at a probable total outlay of £25 was put before the meeting by Mr. Brennan. Mr. Robbins undertook to contact Mr. Baum in this matter with a view to securing a reduction in the cost of the equipment.

Mr. Brennan reported that members of the Technical staff of Western Electric, R.C.A., and Cinema and General Equipment Ltd., would be available to lecture to students of the course in the operating box in theatres and that Messrs. Allied Cinema Supplies Ltd., would provide similar facilities in their showroom. In considering this offer Mr. Cranley suggested that/

that the students should attend in two groups, one group consisting of Year I and the other group Years II and III. Mr. Hodgens suggested that such lectures should be additional to the ordinary curriculum of the Institute.

Mr. Brennan described some of the new developments in the cinema trade, e.g., Cinerama, Cinemascope etc., and mentioned that Mr. Kirkham of Messrs. Cinema and General Equipment Ltd. would be in Dublin next week. It was decided that Mr. Robbins would contact Mr. Kirkham with a view to his giving a lecture on these new developments for the benefit of Operators, Managers and the staff of the Institute. It was agreed that the proposed lecture would be under the auspices of the Advisory Sub-Committee and that Mr. Robbins would communicate with Mr. Hodgens when arrangements had been made with Mr. Kirkham so that the organisation of the lecture meeting could then be undertaken.

Regarding the incorporation of instruction in these new developments in the cinema apprentice course, it was agreed that the third year students should be given a general outline of recent developments, but that more formal teaching should be deferred until the situation in the trade became more stabilised.

Mr. Cranley thanked Messrs. Brennan and Robbins for the assistance they had given.

The meeting then concluded.

Chairman

30th July 1953.

DUBLIN.

JC/PF.

22nd July, 1953.

J. Brennan, Esq.,
Stephen's Green Cinema,
DUBLIN

Dear Mr. Brennan,

Further reference to our recent telephone conversations in connection with proposed outfit for the Apprenticeship Screen. I regret that the equipment offered in correspondences sometime ago has now been disposed of, but I am at all times willing to assist you in gathering something together which may be of benefit to your committee, and in this instance I would suggest the following:-

1. Front shutter Simplex Projector mechanism, which of course is secondhand, and together with a top and bottom spool box.
2. R.C.A. Sound Head.

The latter, of course, would have to be purchased from an outside source, but I am of the opinion the total outlay on the equipment, as outlined here, would be in the region of £25 in so far as the material we have on hand here. We would be only too pleased to donate this to you but you will, no doubt, agree other goods which may have to be purchased from an outside source would naturally have to be chargeable.

After your good self and committee have gone into this matter perhaps you would get together and work out some suitable out-fit at a reasonable cost, which suit your requirements.

Assuring you of our co-operation at all times.

Yours faithfully,
for ALLIED CINEMA SUPPLIES LTD.

CITY of DUBLIN VOCATIONAL EDUCATION COMMITTEE

INSTITUTE of SCIENCE and TECHNOLOGY

KEVIN STREET

Minutes of the Advisory Sub-Committee for Cinema and Theatre (Projection Science)
Apprentices held at the above Institute at 11 a.m. on Saturday, September 12th 1953.

Present were:-

Mr. M. J. Cranley, in the chair: Messrs. F. Robbins, J. Brennan, R. Crawford and H. Hodgens.

The minutes of the previous meeting were read, passed and signed.

When the results of the supplemental examinations for the Session 1952-53 were presented by Mr. Cranley the following recommendations were made by the Committee:-

To pass on to the next year of the course having passed their supplemental examinations:-

B. Cooney and D. Jennings to pass from Year I to Year II.

H. Colgan having passed the supplemental examination in Electricity has now completed the course.

To repeat the year of course having failed in the supplemental examinations.

L. Mooney and P. Roantree to repeat Year I

L. Lynch to repeat Year II

T. Larkin to repeat Year III

Mr. Robbins had not heard anything further from Mr. Baum regarding equipment being available for practical instruction. Regarding additional time for the teaching of English and Mathematics for the Year I students Mr. Cranley read a letter from Mr. Robbins on behalf of the Irish Transport and General Workers' Union giving approval to the Sub-Committee's recommendation. Mr. J. Brennan said the Council of the Theatre and Cinema Association had not yet met. He would strongly press his Council for the additional time of release for the boys to have the extra class time which he considered very important.

Students called to explain an unsatisfactory attendance record during the Session were then interviewed.

D. Donohoe, who failed the Sessional examination in three subjects and who, therefore, was not called for supplemental examination, said he had intended leaving the trade in the Spring and then changed his mind. It was decided to allow him to repeat Year I but at the first sign of bad attendance he would have to leave.

F. Matthews, also failed the Sessional examination in three subjects and was not called for supplemental examination, gave the excuse of illness of his mother. On giving an undertaking that with other arrangements at home he would make a good attendance it was decided to allow him to repeat Year I.

L. Lynch, who failed only in Electricity and who had a good record and marks in the previous year promised to be punctual in future. It was decided to allow him to repeat Year II.

J. Barrett did not present himself and sent no word of apology. It was decided to with-hold the Certificate for completion of the three years of the Course to which this boy would be entitled pending a satisfactory explanation of his unpunctual attendance. It was further decided that a letter be sent to him and his employer regarding his discourtesy in not attending to explain his late attendances at class and asking him for an apology. In the event of a satisfactory explanation and apology the Committee would interview him at the next meeting and consider the issue of the Certificate.

INSTITUTE OF SCIENCE AND TECHNOLOGY

KEVIN STREET

RADIO SERVICE ADVISORY EDUCATION COMMITTEE.

Report of sub-committee appointed to consider the scope of, and procedure for, the restricted examinations to be held for existing Radio service men seeking the certificate of proficiency in Radio service work.

The sub-committee met at the Institute of Science and Technology, Kevin Street, on November 27th 1953 when the following members were present - Messrs. J. E. Keates, McAllister, J. V. Honan, N. E. Broadberry and H. Hodgens.

It was agreed that the examination should be conducted under the following headings:-

- (1) Interpretation of the information given on a typical modern service sheet and analysis of the circuit diagram of the receiver from the point of view of practical radio service work.
- (2) A good general knowledge of modern valves.
- (3) The applications of modern servicing equipment, such as - Valve Voltmeters, circuit Tracers, Cathode Ray Oscilloscopes etc.
- (4) Ability to draw circuits of a modern broadcast receiver using the service sheet supplied. The circuits to be asked for under this heading to include:- Feed-back circuits - positive and negative feed-back.
Push-pull output and phase-splitter drive. Band-pass input.
Automatic Volume Control.
- (5) Using the Service Sheet provided to trace the switching arrangements of the Receiver.

As regards (1) above a list of specimen questions prepared by Mr. Honan was accepted by the sub-committee as being satisfactory for testing the candidate practical knowledge. The question paper is attached to this report.

The questions would refer to the manufacturers circuit diagram of a typical modern broadcast receiver, and would aim at testing the candidates knowledge of the function of various components and the probable result on the performance of the receiver in the event of certain components becoming short-circuited or open-circuited.

It was considered that the candidate should be able to identify certain parts of a receiver without the aid of the service sheet diagram.

The sub-committee recommend that the pass marks should be 66 per cent. The duration of the examination to be at least 30 minutes with an extension of the time when considered necessary.

The sub-committee was strongly of opinion that the men applying for the restricted examination should be carefully scrutinised before being put forward for the examination. The applicants should have been receiving full journeyman's rate for a period to be decided by the Advisory Education Committee. Mr. Hodgens ruled that such considerations were outside the terms of reference of the sub-committee but that a note would be made of the points and brought before the Advisory Education Committee when it received the report on the examination.

H. Hodgens

(Chairman of Sub-Committee).

Specimen Examination Questions.

Identify the following components on the chassis (without the aid of the service sheet).

Signal load Diode Demodulator.
Output Stage bias resistor.
Oscillator grid leak.
First audio amplifier anode load.
AVC filter resistor.

What is the function of the following:-

C6, C13, C22, C26, R16 S3 or link.

In what way would the performance of the Receiver be affected by the following faults:-

C 11 open-circuited
C 14 Short-circuited
C 2.4 " "
C 30 Open-circuited
C 32 " "
R 15 " "

These questions refer to Pilot "Clipper" chassis. (Other receivers to be used in the examinations will be: Murphy A170, Bush AC 11 and Philips 310A)

CITY of DUBLIN VOCATIONAL EDUCATION COMMITTEE

INSTITUTE of SCIENCE and TECHNOLOGY

KEVIN STREET

Minutes of Meeting of the Radio Service Work Advisory Sub-Committee
held on Wednesday, 8th July, 1953.

Present: Mr. M. J. Cranley, Principal (presiding), Mr. J. E. Keates and Mr. J. J. McCann (Wireless Dealers' Association), Mr. G. Holland (Federated Union of Employers), Mr. W. McFarlane and Mr. F. O'Sullivan (Irish Transport and General Workers' Union), Mr. H. Hodgins, Head of Department of Telecommunications Engineering, Mr. J. V. Honan, Instructor in Radio Service Work, and Mr. C. G. Lynch, Secretary.

Apologies for inability to attend were received from Messrs. Brownlee, Dalton and McAllister.

Mr. Cranley stated that the Vocational Education Committee had agreed to the proposal that the Irish Transport and General Workers' Union should be allowed an additional representative on the Advisory Sub-Committee; he therefore welcomed Mr. O'Sullivan to its membership.

Minutes: The Minutes of the Meeting held on 27th May 1953 were read and approved.

Procedure for the Award of Certificates of Proficiency:

Pursuant to a decision taken at the previous meeting Mr. Lynch introduced drafts of two application forms to be completed by applicants for the award of a Certificate of Proficiency. The first of these - to be completed by those who have passed the Radio Service Work (Senior Stage) Examinations of the Department of Education (Technical Instruction Branch) - was approved subject to an amendment, suggested by Mr. McCann, requiring applicants to state whether their employment in Radio Service Work was whole-time or part-time. The second draft application form - to be completed by applicants for the award of a Certificate of Proficiency by way of a special practical examination in Radio Service Work - was also approved subject to an amendment requiring applicants to state the dates when their employment with a particular employer commenced and terminated.

It was agreed that the application forms, when completed, should be returned to the Secretary of the Advisory Sub-Committee at the Institute who would then bring them before the Advisory Sub-Committee for consideration.

Mr. Cranley mentioned the question of the fees of the examiner who would be responsible for conducting the special practical examination for existing radio servicemen. During the subsequent discussion it was suggested that the examiner's expenses should be met either jointly by the employers' and employees' organisations or by charging each applicant a nominal examination fee or by both of these means. Mr. McFarlane said he thought it ought to be possible for his Union to contribute towards the examiner's expenses but he would require the sanction of his Executive Committee for the specific amount of such contribution. It was agreed to defer a decision on this question until next meeting; in the meantime Mr. Cranley agreed to examine the matter and make a recommendation as to an appropriate examiner's fee.

Apprenticeship Scheme:

It was agreed, subject to the sanction of the Wireless Dealers' Association and the Irish Transport and General Workers' Union, that Paragraph C of the Apprenticeship Scheme for Radio Service Technicians should be amended so as to provide for two years post primary education (either in a secondary and/or a technical school) and a further two

years at a Full-time Course in Radio Service Work at a recognised technical school.

Wireless Dealers' Association Scholarship Scheme:

Mr. McCann indicated that his Association had approved of the amendment of its Scholarship Scheme as suggested at last meeting and this was accordingly agreed to.

Mr. Honan reported that Mr. Matthew J. Smyth had obtained highest place at the Institute's Sessional Examination, having obtained 366 marks out of a possible 500 marks, and that his attendance had been very satisfactory; he was accordingly recommended for the current award of the W.D.A. Scholarship.

Equipment and Apparatus:

Mr. Hodgson said that it would be of considerable assistance if the radio manufacturers could make a limited number of prototype or standard chassis available to the Institute each year; Mr. McCann who said he saw no difficulty in this regard agreed to examine the matter. Mr. Holland suggested that the Institute should be placed on manufacturers' mailing lists for the receipt of circuit diagrams of each particular radio set as it was marketed.

Vacation Work:

Mr. McFarlane said that his Union had no objection to the provision of vacation work for students of the Institute provided no attempt was made to exploit the position by employing students on holiday relief work.

Television Courses:

Points mentioned during a discussion on the provision of Television courses were:-

- (i) The value of showing instructional films as a means of stimulating interest in the subject.
- (ii) The comparative advantages and disadvantages of a short intensive summer course as compared with a course of instruction on one evening per week during the winter months.
- (iii) The minimum initial outlay on equipment for the conduct of television courses would be not less than £500.
- (iv) The desirability of training Irish technicians rather than bringing technicians from abroad in the event of the establishment of an Irish television station. In this connection Mr. McCann asked Mr. Cranley to investigate the possibility of providing an evening course for established radio servicemen.

Chairman.

CITY of DUBLIN VOCATIONAL EDUCATION COMMITTEE

INSTITUTE of SCIENCE and TECHNOLOGY

KEVIN STREET

Minutes of Meeting of the Radio Service Work Advisory Sub-Committee
held on Wednesday, 27th May, 1953.

Present: Mr. M. J. Cranley, Principal (presiding), Mr. F. W. Brownlee (Federated Union of Employers and Wireless Dealers' Association), Mr. J. M. O'Toole and Mr. J. J. McCann (Wireless Dealers' Association), Mr. G. Holland (Federated Union of Employers), Mr. W. McFarlane and Mr. W. L. McAllister (Irish Transport and General Workers' Union), Mr. H. Hodgson, Head of Department of Telecommunications Engineering, Mr. J. V. Honan, Instructor in Radio Service Work, and Mr. C. G. Lynch.

Mr. Cranley welcomed the members of the re-organised Sub-Committee and expressed his confidence that their assistance would be of great benefit to the Vocational Education Committee and to the staff of the Institute in organising the Radio Service courses.

Mr. Cranley said that Mr. Lynch would fill the position of Secretary to the Sub-Committee.

Certificate of Proficiency:

In introducing the Certificate of Proficiency, Mr. Cranley read a letter, dated 17th April 1953, from the Chief Executive Officer intimating that the Vocational Education Committee had approved of his signing the certificates in his capacity as Chairman of the Advisory Sub-Committee; Mr. McCann was elected Honorary Secretary of the Advisory Sub-Committee and it was agreed that in that capacity he also should sign the certificates.

The procedure to be adopted in regard to the issue of the certificates was discussed and it was agreed that applicants should complete a standard application form giving details of their employment(s) and of successes in the requisite examinations; on verification of these details the certificates could then be issued by the Sub-Committee.

Mr. McFarlane said he was in favour of the issue of a Certificate of Proficiency in Radio Service Work as such a step lent status to the employee but, he was concerned lest its introduction might discriminate against existing radio servicemen many of whom could not reasonably be expected to attain the educational standard now required. Mr. McCann said he was anxious that existing radio servicemen should be given every facility to qualify for the award of the certificate; he suggested a special practical examination which Mr. Honan agreed would be sufficient to enable the standard of examinees to be assessed. It was tentatively agreed that existing radio servicemen should be given an opportunity of qualifying for the award of the Certificate of Proficiency by way of a practical examination. On Mr. McFarlane's request a final decision was deferred until next meeting. The first of these practical examinations would be held in October next and further examinations would be held at intervals, as required, during the next three years, it being anticipated that by then all existing radio servicemen would have had ample opportunity of qualifying for the award of a certificate.

Wireless Dealers' Association Scholarship Scheme:

Mr. Cranley pointed out that the existing scheme had not achieved its object insofar as those who had won the scholarships in the past had not spent the requisite period in the service departments of radio firms and manufacturers. This was due to the fact that the scholarship holders had obtained permanent employment almost immediately they had completed their course at the Institute. As an alternative Mr. Cranley suggested the following scheme under which the £50 paid under the present scheme would be split up into a number of small prizes to be awarded to

the most successful students of both day and evening courses:-

DAY COURSE

Year of Course	1st Prize	2nd Prize	3rd Prize
1st Year	£5	£3	£2
2nd Year	£7	£5	£3

EVENING COURSE

Year of Course	1st Prize	2nd Prize	3rd Prize
2nd Year	£4	£2	£1
3rd Year	£5	£3	--
4th Year	£6	£4	--

Approved by
W.D.A. & E.T.U.

General approval was accorded to this suggestion and Mr. McCann undertook to seek the approval of the Council of the Wireless Dealers' Association for the revision of the Scholarship Scheme accordingly.

It was suggested by Mr. Holland and agreed that the prizes obtained by a student during his course should be endorsed on his Certificate of Proficiency.

Amendments to Time-Tables:

Mr. Hodgens said that it was intended to increase the duration of the evening classes in Radio Service Work from two to two and a half hours and that an additional three hours instruction per week would be provided in the second year of the Day Course; these proposed improvements were made possible by the contemplated appointment of an additional whole-time teacher.

Donation of Equipment and Apparatus:

Mr. Cranley mentioned that the radio industry had been particularly generous in its donation of equipment and apparatus for use in the classes; the only draw-back one could find was that such donations were sporadic. It would be of great assistance if these donations could be made at regular intervals. Mr. O'Toole and Mr. McCann said that the members of the radio industry would be glad to assist by the donation of equipment and apparatus if the Institute's precise requirements were made known to them. In this connection an electronic test meter was mentioned as a particular requirement and Mr. Brownlee said that he would be glad to donate this item of equipment. Mr. Cranley and Mr. McFarlane thanked Mr. Brownlee for his very generous offer.

X Television:

The possibility of conducting courses in television was discussed. It was agreed that two types of course providing instruction in television would eventually be required, viz.

- (a) An intensive course for existing radio servicemen.
- (b) Absorption of instruction in television into existing radio service courses.

It was agreed that further discussion of such courses should be adjourned to the next meeting.

Vacation Work:

The possibility of providing students of the Institute with vacation work was briefly discussed, it being agreed that such work could best be provided by way of holiday relief. It was decided that a list of students who would be available to undertake holiday relief work should be supplied to the Wireless Dealers' Association and to the Federated Union of Employers.

Apprenticeship Scheme:

Mr. Cranley pointed out that clauses C and D of the Apprenticeship Scheme did not appear to conform to existing conditions insofar as the qualifying educational conditions for admission to apprenticeship provide for attendance for two years at the Junior Technical Course and subsequent attendance for one year at a Full-time Course in Radio Service Work; this contrasted with the fact that (a) practically none of the students pursuing the Radio Service Work Day Course had previously attended at a technical school and (b) the existing Radio Service Course is of two years duration. Both Mr. McCann and Mr. McFarlane agreed that the clauses in question should be revised; it was decided to place the matter on the agenda for the next meeting.

Other business:

Mr. McFarlane's request that the Irish Transport and General Workers' Union should be allowed an additional representative on the Sub-Committee was agreed to and Mr. Cranley undertook to make the necessary recommendation to the Vocational Education Committee.

Chairman.

CITY of DUBLIN VOCATIONAL EDUCATION COMMITTEE

INSTITUTE of SCIENCE and TECHNOLOGY

KEVIN STREET

RADIO SERVICE ADVISORY EDUCATION COMMITTEE

Report of sub-committee appointed to consider the scope of, and procedure for, the restricted examinations to be held for existing Radio service men seeking the certificate of proficiency in Radio service work.

The Sub-committee met at the Institute of Science and Technology, Kevin Street, on November 27th 1953 when the following members were present - Messrs. J.E. Keates, McAllister, J.V. Honan, N.E. Broadberry and H. Hodgens.

It was agreed that the examination should be conducted under the following headings:-

- (1) Interpretation of the information given on a typical modern service sheet and analysis of the circuit diagram of the receiver from the point of view of practical radio service work.
- (2) A good general knowledge of modern valves.
- (3) The applications of modern servicing equipment, such as - Valve Voltmeters, circuit Tracers, Cathode Ray Oscilloscopes etc.
- (4) Ability to draw circuits of a modern broadcast receiver using the service sheet supplied. The circuits to be asked for under this heading to include:- Feed-back circuits - positive and negative feed-back. Push-pull output and phase-splitter drive. Band-pass input. Automatic Volume Control.
- (5) Using the Service Sheet provided to trace the switching arrangements of the Receiver.

As regards (1) above a list of specimen questions prepared by Mr. Honan was accepted by the sub-committee as being satisfactory for testing the candidate practical knowledge. The question paper is attached to this report.

The questions would refer to the manufacturers circuit diagram of a typical modern broadcast receiver, and would aim at testing the candidates knowledge of the function of various components and the probable result on the performance of the receiver in the event of certain components becoming short-circuited or open-circuited.

It was considered that the candidate should be able to identify certain parts of a receiver without the aid of the service sheet diagram.

The sub-committee recommend that the pass marks should be 66 per cent. The duration of the examination to be at least 30 minutes with an extension of the time when considered necessary.

The sub-committee was strongly of opinion that the men applying for the restricted examination should be carefully scrutinised before being put forward for the examination. The applicants should have been receiving full journeyman's rate for

a period to be decided by the Advisory Education Committee. Mr. Hodgens ruled that such considerations were outside the terms of reference of the sub-committee but that a note would be made of the points and brought before the Advisory Education Committee when it received the report on the examination.

H. Hodgens

(Chairman of Sub-Committee).

CITY OF DUBLIN VOCATIONAL EDUCATION COMMITTEE

INSTITUTE OF SCIENCE AND TECHNOLOGY

KEVIN STREET

MINUTES OF MEETING OF THE RADIO SERVICE WORK ADVISORY SUB-COMMITTEE
HELD ON WEDNESDAY, 28th OCTOBER 1953.

Present: Mr. M. J. Cranley, Principal (presiding); Mr. J. M. O'Toole and Mr. J. Reynolds (Wireless Dealers' Association); Mr. W. McFarlane, Mr. F. O'Sullivan and Mr. McAllister (Irish Transport and General Workers' Union); Mr. H. Hodgens, Head of Department of Telecommunications Engineering; Mr. J. V. Honan and Mr. N. E. Broadbery, Instructors in Radio Service Work, and Mr. C. G. Lynch, Secretary.

Apologies for inability to attend were received from Messrs. Keates and Dalton.

Mr. Cranley welcomed Mr. Reynolds, recently appointed Secretary of the Wireless Dealers' Association, and Mr. Broadbery, recently appointed Instructor in Radio Service Work, to membership of the Sub-Committee.

Minutes: The Minutes of the Meeting held on 8th July 1953 were read and approved.

Correspondence:

A letter dated 1st October 1953 from the Irish Transport and General Workers' Union intimating its approval of the amendment of the Apprenticeship Scheme as recommended at the last meeting was read and noted. Mr. Reynolds informed the meeting that this matter had not yet come before the Council of the W.D.A.

Equipment and Apparatus:

Mr. Reynolds thought that perhaps more could be done to assist the Institute in this regard through the W.D.A. rather than through individual members of the Association. Regarding the type of equipment required, Mr. Honan said that modern equipment was the most urgent requirement. Mr. Hodgens said that if items of modern equipment, e.g. a car radio, could be made available on short notice for demonstration purposes only - and not for actual class work - it would probably meet the Institute's purposes. Mr. Reynolds suggested that perhaps the best results would be obtained if a Sub-Committee of the W.D.A. discussed the whole question of the provision and availability of equipment and apparatus with the staff of the Institute.

Procedure for the Award of Certificates of Proficiency:

Mr. Cranley reviewed the position to date and said that some alteration in the text of the Certificate seemed to be necessary in order to avoid any possible ambiguity in regard to the competence of the Advisory Sub-Committee to issue such a certificate; in any event, it was obvious that it could not be issued in its present form to any radio serviceman who qualified for its award by way of the special practical examination since such a radio serviceman would not have passed the Radio Service Work (Senior Stage) Examinations of the Department of Education (Technical Instruction Branch). In addition, amendment of the present wording of the draft Certificate would be necessary in order to facilitate its national recognition. It was agreed to place the matter of the revision of the form and wording of the Certificate of Proficiency on the agenda for next meeting and to invite Mr. Hackott, Senior Inspector, Department of Education, to that meeting.

In the matter of the fees for the examiner who would conduct the special practical examination for existing radio servicemen, Mr. Cranley proposed a fee of 10/- per hour on the understanding that two candidates/

candidates would be examined in an hour and that the examiner would be assured of at least two hours' work at a time; thus the practical examination would only be held when there was at least four candidates for examination. Mr. McFarlane thought that this proposal could be complementary to another, viz. that each candidate should be charged an examination fee of 5/-; thus the candidates' examination fees would cover the payment of the examiner's fees. The two proposals were agreed to and, subject to the sanction of the Wireless Dealers' Association and the Irish Transport and General Workers' Union, it was decided to implement it under the following regulations:-

- (i) Completed application forms shall be returned to the Secretary of the Advisory Sub-Committee at the Institute who, on the direction of the Advisory Sub-Committee, shall notify each candidate of the time and place of his examination and shall request him to pay the appropriate examination fee in accordance with (ii) and (iii) below.
- (ii) Candidates who are members of the Irish Transport and General Workers' Union shall be required to pay the appropriate examination fee to that Union.
- (iii) All other candidates shall be required to pay the appropriate examination fee to the Wireless Dealers' Association.
- (iv) The Wireless Dealers' Association and the Irish Transport and General Workers' Union shall be responsible for the payment of the examiner's fees in respect of the examination of those candidates whose examination fees have been paid to them.

It was agreed that the days and times at which the special practical examinations would be held should be set out on the application form and that candidates should indicate the day and time at which they wished to be examined.

It was decided to set up a Technical Sub-Committee consisting of Messrs. Keates, McAllister, Hodgson, Heman and Broadbery to draw up an examination schedule and generally to advise and guide the examiner in the conduct of the practical examinations. The decisions and directions of the Technical Sub-Committee would be binding on the examiner.

It was decided that all existing radio servicemen who wished to do so should have qualified for the award of a Certificate of Proficiency within a period of three years, commencing on 1st January 1954.

Television Courses:

It was agreed that at present the most practicable method of providing instruction in television is by means of a short Summer course for existing radio servicemen; the question of incorporating such instruction into the existing Radio Service courses would be the subject of further consideration.

Chairman

A letter re slides from Mr. Jay, Ritz Cinema, Ballsbridge was read. It was decided that such work was not appropriate to the Course.

Mr. Cranley mentioned that in a few cases there had been delay in payment of the fee for first year students by the managers. Mr. Brennan undertook to bring this matter to the notice of the Theatre and Cinema Managers' Association.

Mr. Cranley suggested a scheme of prizes for the students which received the approval of the Sub-Committee. It was decided that Mr. Cranley should write to Messrs. Robbins and Casey suggesting the scheme and the value of the prizes to be awarded.

Mr. Robbins suggested that the presentation of the school certificates should be made at some function during the Autumn term. The question of suitable Cinema Sound and Projection equipment was again raised and it was decided to make further inquiries.

MINUTES OF THE ADVISORY COMMITTEE FOR RADIO SERVICE WORK
HELD IN THE INSTITUTE OF SCIENCE AND TECHNOLOGY AT 3 pm. ON
WEDNESDAY, FEBRUARY 16th, 1955.

WITH

THE PRINCIPAL, MR. M. J. CRANLEY IN THE CHAIR

Present were:- Messrs. M. O'Flanagan (Dept. of Education), F. Brownlee (Federated Union of Employers) J. Reynolds (Secretary, Wireless Dealers' Association), J. E. Keates (Wireless Dealers' Association), J. Power (Irish Transport and General Workers' Union), W. L. McAllister (Irish Transport and General Workers' Union), F. O'Sullivan (Irish Transport and General Workers' Union), J. Honan (Radio Service Teacher) and H. Hodgens who acted as Secretary to the Meeting.

Apologies for inability to be present were conveyed by Mr. Reynolds on behalf of Messrs. W. B. Dalton and J. M. O'Toole (Wireless Dealers' Association).

Minutes: The Minutes of the previous meeting having been circulated to members were accepted as a correct record and signed.

As Mr. O'Flanagan had to leave early Mr. Cranley asked that item 3 on the Agenda should be dealt with first.

Mr. O'Flanagan made an offer on behalf of the Department of Education that the Department would hold a supplemental examination in Radio Service Work for existing servicemen in which the practical examination would be of the same standard as that for the Senior Trades Certificate and that a modified oral theory examination would take the place of the normal written examination. Successful candidates would be granted the Senior Trades Certificate. This offer was accepted and Mr. Cranley expressed thanks on behalf of the Committee. On the Chairman's suggestion it was then decided that the sub-committee already in existence should continue with new terms of reference to consider the matter of the modified theory part of the special examination and make a report within a month for consideration at the next meeting of the Advisory Committee. It was agreed that the members of the sub-committee would be Messrs. McAllister, Honan, Hodgens and a representative of the Wireless Dealers' Association who would be nominated as a result of the Annual General Meeting of the Wireless Dealers' Association.

After discussion on the length of time a serviceman should be practising in the trade before being eligible for the special examinations a suggestion by Mr. Hodgens that applicants who were journeymen on or before January 1st, 1951 was accepted. It was agreed that in cases where there was doubt concerning journeyman status or in other special cases these should be brought to the Advisory Committee for decision. Further it was decided that the method of applying for the special examinations and the payment of

the fees would be the same as for the regular examinations in Radio Service Work, i.e. applications to be made through the Institute and a fee of 5/- for each part of the examination to be made. It was agreed that the special examinations would be held over a period of three years from September 1955, at suitable intervals during the first year, and thereafter at the times of the regular Department exams in May and June.

As it was considered necessary to make an announcement in the National Press about the provision of examinations for existing servicemen under the above conditions in order that possible candidates who would not be reached by the Wireless Dealers' Association or the Irish Transport and General Workers' Union would know of the facility, Mr. Brownlee's proposal that the cost of such announcement would be borne by the Wireless Dealers' Association was accepted.

Mr. Reynold's suggestion that the application forms from candidates should be examined and approved as regards eligibility before acceptance of the application for the special examination was agreed to as the procedure would be then to advise the applicant that he would have to take the full examination if he did not comply with the conditions necessary for the modified examinations. It was agreed that the Application Forms should be examined by the Wireless Dealers' Association, and the Irish Transport and General Workers' Union, to determine whether the applicant should take the full or the modified examinations.

It was agreed that the Wireless Dealers' Association would consider the form of wording for a suitable application form for candidates for the Special examinations for existing servicemen and report with a specimen to the next meeting of the Advisory Committee.

On the question of the form and wording of the Certificate of Proficiency it was finally agreed that the certificate should bear signatures on behalf of the Wireless Dealers' Association, the Union and the City of Dublin Vocational Education Committee on the inside and that reference to the Education Authority etc., should be deleted. The question arose of equivalent qualification such as a certificate of the City and Guilds of London Institute or the Radio Trades Examination Board, and it was agreed that the wording should be suitably altered. Mr. Power undertook to obtain the approval of the Union in this matter and Mr. Reynolds undertook to bring the matter before his council for approval subject to the approval of the Irish Transport and General Workers' Union.

These decisions consequently cancel paragraphs (1) to (IV) of Page 2 of the Minutes of the previous meeting, and in view of the new arrangements for the special examinations the report of the sub-committee, 3d of the Agenda, was not presented.

Approval of amendments to the Apprenticeship Scheme was deferred pending a decision by the council of the Wireless Dealers' Association at their meeting to be held next week.

The recommendations made by Mr. Cranley regarding the award of prizes for the Session 1953 - 54 were agreed to as follows:-
Full-time day course - Year, I

Mr. Tadg McConnon - 1st Place - 1st Prize - £5

Mr. David F. Buckley - 2nd Place - Consolation Prize
£2 - (Subject English not taken).
Mr. William O'Keefe - 3rd Place - Consolation Prize £2
(Pass - Radio Theory; Practical R.S.- 48%)
Mr. Reynolds thought that for third prize marks should not
be less than 50%.

Evening Course - Year II

Mr. Timothy Begley - 1st Place - 1st Prize - £4
Mr. Reynolds asked that the names and addresses of the prize
winners would be sent to him so that he could immediately
notify the successful candidates.

A long discussion on Television courses then ensued
in which Mr. Reynolds for the Wireless Dealers' Association,
pressed strongly for the formation of courses for the young
men taking the full-time day course and the four years
evening course. It was decided that Messrs. Reynolds and
Hodgens with Mr. Cranley would have a talk with the Chief
Executive Officer, Mr. Gleeson, at an early date regarding
Television courses.

Mr. Honan raised a point regarding the period with
which students of the day course were being credited for
apprenticeship in the Dublin area when becoming employed
for the first time after successfully completing the course.
Such boys entering the trade at about 18 years of age should
be credited with three years of apprenticeship and enter on
the fourth year rate of pay. The cases that he had in mind
were not members of the Union. Mr. Cranley asked Mr. Honan
to get full details when he and Mr. Reynolds would discuss
the matter. Mr. Reynolds said he would raise this point at
his council meeting when bringing forward the amendments to
the Apprenticeship Scheme.

Mr. Reynolds asked that the Institute would make out
a list of requirements of radio receivers and parts, and
other equipment for the practical classes in Radio Service
Work and pass it on to him.

Arising out of the need in the Radio Trade for service-
men to deal with adjustments of Record Players, Mr. Brownlee
offered to present to the Institute a Record Player fitted
with a mirror to demonstrate the operation of the Player and
the adjustment necessary for proper performance. Mr.
Cranley thanked Mr. Brownlee for his generous offer.

Martin J. Cranley

MINUTES OF RADIO SERVICE WORK ADVISORY COMMITTEE

MEETING HELD IN THE ABOVE INSTITUTE AT

5 p.m. ON 26th MARCH, 1956

Present: Mr. Martin J. Cranley, Principal (Presiding):
Messrs. M. O'Flanagan, J. Reynolds, J. E. Keates,
J. M. O'Toole, J. Power, W. McAllister, F. O'Sullivan,
F. Brownlee, H. de Lacy, J. V. Honan and H. Hodgens.

An apology for inability to be present was received from Mr. B. Dalton.

Mr. McAllister asked that the minutes of the previous meeting held on 16th February 1955 should record that he had raised a point regarding the qualification of Graduateship of the British Institution of Radio Engineers being unreasonably high in an advertisement for a Teacher of Radio Service Work. It was agreed that the minutes be amended to this effect.

Mr. Reynolds asked that an amendment should be made to the second paragraph on page 2 of the Minutes to read "Mr. Brownlee proposed that it should be -----".

This amendment was agreed to. The Minutes were then signed subject to the above amendments.

A general review of previous discussions and decisions regarding the National Certificate of Proficiency followed as a result of which the following proposals were made:-

Mr. Reynolds proposed that the National Certificate should be granted to.-

- (1) those who could prove five years practical experience as a Journeyman and who passed the modified examinations of the Department of Education and to
- (2) those who obtained an acceptable technical certificate and completed three subsequent years practical experience.

Mr. O'Flanagan asked that the modified examinations offered by the Department of Education should be referred to as Supplemental examinations.

Mr. Cranley proposed that the National Certificate should be granted in the following cases:-

- (1) Those who were Journeymen before 1951 and who pass the Supplemental Examinations,
- (2) Those who became Journeymen between the years 1951-1956 and who obtained the Senior Trade Certificate, and
- (3) Those who would become Journeymen in 1956, or in subsequent years who obtain the full trade certificate, and with three years practical experience.

After further discussion it was agreed to pass the matter to a sub-Committee consisting of Messrs. O'Flanagan, Reynolds, a member of the Union and Mr. Hodgens, to draw up a scheme and present it to the next meeting of the Advisory Committee.

Regarding the Apprenticeship Scheme Mr. Reynolds told the Committee that the council of the Wireless Dealers' Association had decided to invoke the termination of Agreement clause in the Apprenticeship Agreement between them and the Irish Transport and General Workers' Union as from 1st June 1956.

Mr. Reynolds then asked to be excused as he had to keep another engagement. Mr. Brownlee said that the Federated Union of Employers had an agreement with the Irish Transport and General Workers' Union.

Mr. Cranley read correspondence between the Chief Executive Officer and the Secretary of the Radio Section, Irish Transport and General Workers' Union on the provision of Television courses in the Institute, and a short report from his staff on this matter. Mr. Cranley emphasised the accommodation difficulties existing in the Institute.

TJ [On Mr. Cranley's suggestion it was agreed to set up a Sub-Committee consisting of Messrs: O'Toole, Keates, Honan, de Lacy, Hodgins, McAllister and another Union member to meet on Friday, April 13th to draw up syllabi and time-table for a theory course in Television of about 26 weeks (one night per week) and to start in October 1956. Some provision should be made in this course for V.H.F. FM broadcast reception.

It was agreed that the next meeting of the Advisory Committee should be early in May to consider the reports of the two sub-Committees.

Mr. Cranley thanked Mr. Brownlee for the presentation of a Record Player to the Institute for use in the Radio Service Course.

The Meeting then closed.

Signed: _____

Chairman

20th April, 1956

CITY OF DUBLIN VOCATIONAL EDUCATION COMMITTEE

INSTITUTE OF SCIENCE AND TECHNOLOGY

KEVIN STREET

MINUTES OF A SUB-COMMITTEE APPOINTED BY THE ADVISORY
COMMITTEE FOR RADIO SERVICE WORK TO DRAW UP A SYLLABUS
FOR TELEVISION AND FREQUENCY MODULATION THEORY FOR AN
EVENING COURSE OF ONE EVENING PER WEEK, TO BE HELD IN
THE INSTITUTE OF SCIENCE AND TECHNOLOGY, DURING THE
SESSION 1956-57.

The Sub-committee met at 7.30 p.m., on May 13th 1956
in the Institute of Science and Technology.

Present: Messrs. H. Hodgens (presiding), J. O'Toole, Dillon,
F. O'Sullivan, W. McAllister, J. Honan and H. de Lacy.

Mr. O'Toole explained that Mr. Dillon was acting in place
of Mr. W. B. Dalton who, unavoidably, was unable to attend
owing to a business engagement.

Mr. de Lacy read the headings of a syllabus drawn up by
members of the Department of Telecommunications of the Institute,
and after a lengthy discussion to which all members of the sub-
committee made a contribution, it was decided to adopt the
syllabus. It was recommended that in the event of the subject
matter of the syllabus proving to be too extensive for the
limited time available, that the section for FM should be
curtailed in order to give full coverage to the TV section.
It was considered that Television theory would meet the
immediate requirements of Dealers and Radio Service men.

Mr. O'Toole raised the question of the choice of students
for the proposed course, but the Chairman ruled that this was
outside the terms of reference of the sub-committee. It was,
however, an important point and should be brought to the
attention of the Advisory Committee. The proposed course in
TV theory would provide for 20 students, and the syllabus put
forward, and now adopted, was based on the assumption that the
students would have a general knowledge and experience of
Radio Service work such that they could follow and absorb the
teaching outlined in the syllabus.

The meeting then closed.

Signed: _____

Chairman

28th May, 1956.

SYLLABUS FOR TELEVISION THEORY PRESENTED BY THE
SUB-COMMITTEE FOR APPROVAL OF THE ADVISORY
COMMITTEE FOR RADIO SERVICE WORK.

1. Propagation of V H F waves. Aerials for TV and VHF reception. Band width. Siting.
2. Television fundamentals. Picture. Simple TV transmitter. Requirements of the receiver.
3. Block schematic diagrams of receiver. Band width for vision. Sound requirements.
4. Aerial and frequency changer stages. Band width.
5. Video I F and video detector.
6. Detectors (video) - time constants - D C level - content of detector output.
7. Sync separation and separators - Signal pulses/signal and line/frame separation.
8. Video amplifier. D C level.
9. Time base circuits. Blocking oscillator. Multivibrator. Gas tubes.
10. Synchronisation, including flywheel.
11. Cathode Ray tubes. Magnetic deflection and focus. Intensity modulation.
12. Receivers (except HT supplies). Time base amplifiers. HT requirements. EHT supplies. Line flyback. RFEHT. Voltage multipliers.
13. Refinements - Economy diode. Video AGC. Noise suppression.
14. Examination of typical modern receiver circuits and correlate.

SYLLABUS FOR FREQUENCY MODULATION BROADCAST
RECEPTION THEORY PRESENTED BY SUB-COMMITTEE
FOR APPROVAL OF THE ADVISORY COMMITTEE
FOR RADIO SERVICE WORK.

1. FM - principles - advantages in overcoming noise. Band width of standard transmission.
2. Block schematic diagram of receiver. Limiters. Detectors. Audio frequency amplifier band width. Noise.
3. Demodulation - Foster Seeley and Ratio detectors. Philips Nonode. Slope detector.
4. Tuning indicators. AGC. Converters.
5. Analysis of modern FM receivers.
6. Servicing problems in FM receivers.

Official copy.

Minutes of Advisory Committee of Cinema and Theatre (Projection) held in the Institute of Science and Technology, Kevin Street, at 4 p.m. on 20th July 1955.

Present were:-

Mr. M. J. Cranley, Messrs. J. Brennan, F. Robbins, P. Clarke, R. Crawford and H. Hodgins.

The minutes of the last meeting of the Advisory Committee held on 15th September 1955 were read and signed.

The final examination results for the Session 1954-55 having been considered in detail the following decisions were made:-

1. Students A. Bryan, M. Francis, T. Grant, L. Keogh, E. Quinn, W. Rafferty, J. McGrath, F. Squire, M. Stanley and S. Stanley to repeat year 1 of the course.
2. The following year 1 students to take a supplemental examination in the subject indicated during the first week of September:-
C. Byrne (General Science), T. Dillon (General Science), J. Kelly (General Science), D. Kelly (Mathematics), P. O'Donnell (Mathematics) and E. Reilly (English).
3. The seven Year 1 students who obtained pass marks to pass on to Year II of the course.
4. The seven Year II students who completed Year II of the course and who obtained pass marks to pass on to Year III of the course.
5. The eight students enrolled in Year III of the course having obtained pass marks have now completed the course and they will be awarded Certificates.
6. William Rafferty to be warned that he has now only three years in which to complete the three years of the course.
7. Decisions on the results of the supplemental examinations to be left to the Institute and that the results of the examinations and the decisions made should be supplied as soon as possible to the Union and the Association.

A suggestion made by Mr. F. Robbins to hold an entrance examination in Arithmetic and English on the lines of that in operation for Bakery apprentices was accepted by the Committee and it was agreed to hold the entrance examination on 9th September 1955 at 9.30. a.m. in the Institute, and to let Mr. F. Robbins have the results by the end of the following week.

Mr. M. J. Cranley expressed thanks to the Irish Transport and General Workers Union and to the Theatre and Cinema Association for their offer regarding a Prize Scheme for Cinema Apprentice Students as set out below:-

Year of Course	1st place	2nd place	3rd place
I	£3	£2	£1
II	£5	£3	-
III	£5 plus Gold Medal	£3 plus Silver Medal	-

The Annual cost would be about £30 to be shared equally by the Union and the Association.

The presentation of certificates, prizes and medals was then considered and on the suggestion of Mr. F. Robbins it was agreed that this should be a separate function held in a small theatre/

theatre, such as the Astor, about 11.30. a.m.

It was agreed to leave the matter of old equipment being made available for training to Mr. R. Crawford.

The meeting then closed.

MINUTES OF CINEMA AND THEATRE (PROJECTION)
ADVISORY COMMITTEE MEETING HELD IN THE ABOVE INSTITUTE
ON THURSDAY, 5th JULY 1956, AT 3.30 p.m.

Present:- Messrs. H. Hodgens (presiding), F. Robbins, R. Crawford, F. O'Toole, J. Brennan, P. Clarke and J. Honan (acting as Secretary).

The Minutes of the previous meeting held on 20th July 1955 were read and signed.

In considering the examination marks and attendance for the Session 1955-56 it was decided that the following students would be required to take supplemental examinations in the subjects indicated:-

Year I - General Science:-

Maurice Furlong
Francis Lawless
Anthony O'Keeffe
Jeremiah O'Brien
Joseph Kelly

Michael Dowling
William Rafferty
John Famin
Liam Hughes

English:-

Maurice Furlong
Jeremiah O'Brien

Robert Ryan
Liam Hughes

Projection:-

Joseph Kelly

who would be required to explain his absence from this subject in the Sessional Examination.

To repeat Year I of the Course:- John McGrath and Cecil Cullinan.

The following students will be required to explain absences and lates:- C. Bannon, J. McGrath, W. Rafferty, G. Scally and J. Kelly, the latter will be required to explain his absence from the examination in the subject, Projection.

To repeat Year II of the Course:- M. J. Kelliher.

Supplemental Examinations:- Patrick Tansey (Light) and Christopher Byrne (Electricity).

Year III:- All students obtained pass marks. The following students qualify for certificates - Joseph Dillon, Edward McEvoy, Patrick Roantree and Brendan O'Reilly, while the following will be required to explain unsatisfactory attendance during the Session:- Desmond Jennings, Michael Kelly, James Byrne and Richard Sherlock. Mr. Robbins undertook to investigate unsatisfactory attendances and late enrolments.

A suggestion by Mr. Brennan that failure in one subject and less than 75% attendance would necessitate a repetition of the year of the course was accepted.

Mr. Hodgens said that the supplemental examinations would be held during the first week of September, and requested that if it was considered/

considered necessary to hold an entrance examination for first year students this year, that arrangements should be made to hold it during the first week of September.

The prize winners in the three years of the course were then selected on the examination marks, when the following decisions were made:-

YEAR I

1st Place - *James* Joseph Murphy. *Accepted*
2nd Place - Patrick Farroll.
3rd Place -

to await the return of the marks obtained by John Rothery, Ormendo Cinema, Stillorgan, who missed the examination in Projection through misinformation he received, and who has recently taken this part of the Sessional examinations.

YEAR II

1st Place - Dermot Quinn
2nd Place - Gerard O'Reilly
3rd Place - Anthony Price

but an inquiry is to be made regarding why Quinn and O'Reilly have a lower possible attendance than the others of this group.

YEAR III

1st Place - Edward McEvoy
2nd Place - Patrick Roantree.

Third place on marks was obtained by Richard Sherlock but he will be required to give a satisfactory explanation of 20 latos before being passed, and becoming eligible for a certificate and a prize.

In considering the conditions necessary for the award of a prize it was decided by the Committee that an attendance of 75% during the Session should be a necessary requirement.

Mr. O'Toole inquired regarding the possibility of including some practical work in Year III of the Course, as had already been done in the case of Year II. Mr. Hodgson undertook to give this matter full consideration but pointed out the difficulty of providing suitable accommodation in the Institute. He said that he would be very much in favour of providing such facilities and that he would make every endeavour to do so.

Mr. Brennan proposed a vote of thanks to Mr. Crawford for his successful efforts in obtaining Projection Equipment for the Institute. This was passed unanimously. In reply Mr. Crawford paid tribute to Mr. J. Walker whose name he said should be included as it was through his good assistance the equipment became available.

The meeting then closed.

MINUTES OF CINEMA AND THEATRE (PROJECTION)
ADVISORY COMMITTEE MEETING HELD IN THE ABOVE INSTITUTE
ON THURSDAY, 11th OCTOBER 1956, AT 11.50 a.m.

Present:- Messrs. M. J. Cranley (presiding), J. Brennan, P. Clarke, F. R. Robinson, F. Robbins, R. Crawford, Brady (deputising for Mr. F. O'Toole, who could not attend) and H. Hodgens.

The Minutes of the meeting held on 5th July 1956 were read and signed.

It was decided that the date for the distribution of prizes to apprentice Operators would be held some time in second half of November at 11.30 a.m. in the Astor Cinema, if this cinema is available, and that preferably the day should be a Tuesday or a Friday. Mr. Cranley was asked to enquire through the Chief Executive Officer if the Minister for Education would present the prizes and Certificates. It was emphasised that this will be the first presentation of prizes to Cinema Apprentices and marks the twentyfifth anniversary of the starting of the Cinema Apprentices' Courses, which were the first part-time day release courses in Ireland. It was decided that about £30 would be required for the money prizes and medals to be subscribed equally by the Irish Transport and General Workers' Union and the Theatre and Cinema Association. It was agreed that Mr. F. Robbins should write to the Secretary of the Association (Mr. Casoy) regarding this matter.

As regards the prize-winners who were selected on Sessional examination marks at the last meeting of the Advisory Committee it was decided that Mr. Cranley should write to the Union and the Association giving the names and marks.

The question of the design for the medals was then considered. Mr. F. Robbins undertook to have a block made. Mr. F. R. Robinson suggested that the shape and design should be that of the crest of the Vocational Education Committee for the City of Dublin omitting the central figure. It was agreed to accept this proposal and to place in the centre the Maltese Cross of the Guild, and Mr. Cranley undertook to enquire if the Vocational Education Committee would have any objection. The name of the recipient with the year of the Course and any other necessary particulars to be placed on the reverse side of the medal.

Considering speakers and invitations it was agreed that either Mr. Gleeson or Mr. Cranley should preside and that in any case Mr. Cranley should speak and that the President of the Association should be on the platform. Invitations should be sent by the Association, the Union and the Institute to those that each thought should be invited, with a general invitation to be issued by the Union to its members.

Mr. F. Robbins undertook to look after the arrangements for the Cinema including provision of a suitable platform for the speakers, and Mr. R. Crawford would look after arrangements for the Movietone photographer to be present. It was agreed to issue certificates to D. Jennings, M. Kelly, J. Byrne, R. Sherlock of Year III as their explanations to the Union for unsatisfactory attendance had been accepted and that John Rothery be awarded the third place in Year I.

The results of the supplemental and entrance examinations which are attached to the Minutes were considered and approved and the Meeting terminated.

22nd October, 1956.

PRESENTATION OF PRIZES AND DIPLOMAS TO SUCCESSFUL
STUDENTS OF THE CINEMA APPRENTICE COURSE

NOVEMBER 13th 1956

In 1930 the Theatre and Cinema Association, the Theatres' and Cinemas' Branch of the Irish Transport and General Workers' Union, together with the Vocational Education Committee for the City of Dublin, drew up a scheme for the training of Apprentice Cinema Operators. The scheme was put into effect the following year. Thus, the Theatre and Cinema Trade has the honour of being the first in Dublin to adopt officially the now well known Day Release method for training Apprentices.

Messrs. Thomas Gogan, Robert Tait, the late Bob Aherne and the late P. J. O'Toole were the members of the original Advisory Committee appointed to advise the City of Dublin Vocational Education Committee in the conduct of the course.

The course is of three years duration:- six hours instruction per week are provided in the 1st year and five hours per week in the 2nd and 3rd years. The subjects are:- Mathematics, English, General Science, Electricity, Light, Sound Equipment and Projection. Students who complete the course satisfactorily are awarded a Diploma. Enrolments in the course during 1955-56 total 56.

A Prize Scheme was prepared by the Advisory Committee in 1956, to commemorate the Twenty-fifth Anniversary of the inauguration of Day Instructional Training for Apprentice Operators. Under this scheme, prizes, as set out below, will be presented to the following successful students of the 1955-56 classes:-

FIRST YEAR CLASS

	<u>Place in Class</u>	<u>Prize</u>
James Murphy (Capitol)	1st	£3
Patrick Farrell (Rialto)	2nd	£2
John Rothery (Ormonde)	3rd	£1

SECOND YEAR CLASS

Dermot Quinn (Stella, Mount Merrion)	1st	£5
Gerard O'Reilly (Theatre Royal)	2nd	£3

THIRD YEAR CLASS

Edward McEvoy (Theatre Royal)	1st	Gold Medal £5 and Diploma
Patrick Roantree (Metropole)	2nd	Silver Medal £3 and Diploma.

Diplomas will also be presented to the following who have successfully completed the course:-

James Byrne (Casino)	Michael Kelly (Gala)
Joseph Dillon (Regal)	Brondan O'Reilly (Regent)
Desmond Jennings (Pavilion)	Richard Sherlock (Whitchall)

The Presentations will be made by General Richard Mulcahy, T.D., Minister for Education in the Astor Cinema, Eden Quay, on Tuesday, 13th November 1956 at 11.30 a.m.

Among those present will be :-

Right Honourable Robert Briscoe, T.D., Lord Mayor of Dublin (presiding)

Mr. Martin Gleeson, M.A., B.Comm., Chief Executive Officer, City of Dublin Vocational Education Committee.

Messrs. Phillip Clarke, James Brennan, F. R. Robinson, Frank O'Toole, Robert Crawford, and Frank Robbins, Secretary, Theatres' and Cinemas' Branch, Irish Transport and General Workers' Union, members of the Advisory Committee.

Mr. Martin J. Cranley, M.Sc., M.I.C.I., F.R.I.C., Principal, and Mr. Harold Hodgens, Associate I.E.E., Head of Department of Telecommunications Engineering (Institute of Science and Technology, Kevin Street).

Messrs. Thomas Gogan and Robert Tait, members of the original Advisory Committee.

Messrs. Kenneth Campbell, Edmund Grace, and Martin Casey, Chairman, Vice-Chairman and Secretary respectively, Theatre and Cinema Association.

Messrs. Robert Britain and Kevin Briscoe, F.C.A., Chairman and Secretary, Dublin Branch, Kinematograph Renters' Society.

Mr. John Conroy, General President, Irish Transport and General Workers' Union.

Mr. Christopher McLoughlin, President, Theatres' and Cinemas' Branch, Irish Transport and General Workers' Union.

Messrs. F. Day-Lewis, A.M.Brit.I.R.E., P. Gallagher, B.Sc., H.Dip.Ed., J. V. Honan, A.M.Brit.I.R.E., J. McCormack, B.Sc., A.Inst.P., and Miss K. McElwoe, M.A., H.Dip.Ed., T.T.G. - Teachers of the Course.

The general audience will be composed of members of the Theatre and Cinema Trade, including Cinema Operators and Apprentices from Theatres and Cinemas in Dublin.

City of Dublin Vocational Education Committee

INSTITUTE OF SCIENCE AND TECHNOLOGY, KEVIN STREET

CINEMA AND THEATRE (PROJECTION) ADVISORY COMMITTEE

Minutes of meeting held on
Tuesday, 30th July, 1957 at 12 noon.

Present were: Messrs. J. Brennan, P. Clarke, F. Robbins,
R. Crawford, F. O'Toole and H. Hodgens. The
Principal, Mr. M. J. Cranley was in the chair.

An expression of sympathy in his recent bereavement was made to Mr. Robbins by Mr. Cranley and supported by all the members present.

The minutes of the previous meeting held on 11th October, 1956, having been circulated to the members, were approved and signed.

Consideration was then given to the Sessional Examination Results. In presenting these to the Committee Mr. Cranley drew attention to the very poor results in the subject "General Science" of the first year of the course but pointed out that not all the blame could be attributed to the students, since due to the resignation of a whole-time teacher midway through the Session, this class had subsequently been taught by a number of deputy teachers. In view of these circumstances Mr. Cranley suggested that the Committee might, in this subject only, agree to adopting a pass mark of 30% instead of the usual 40%. After some discussion the Committee rejected this suggestion but decided that where a student passed in all subjects except General Science he should be considered to have passed the Sessional Examination and should be permitted to pass to the second year of the course.

The Committee further decided that a student who had failed in General Science and had failed in one, or more, of the other subjects should be required to repeat the first year of the course.

Arising from the discussion Mr. F. Robbins proposed and Mr. Brennan seconded a resolution deploring the delay that occurs in replacing a whole-time teacher who resigns during a Session, and recommending that the replacement of such teachers be expedited in view of the bad effect which such delay inevitably has on the efficiency of class instruction.

The following recommendations were then unanimously passed:
Year I: 17 apprentices to pass to Year II, viz. Benton, Cummins, Dooley, Dowling, Fannin, Gorman, Hughes, Kelly, Keogh, Kerins, Lacy, McGrenery, McDonagh, O'Callaghan, Riddell, Stewart and Young.

Six apprentices to repeat year I of the course, viz. Conroy, Connolly, Fulham, Furlong, Kettle and O'Brien.

Year II: Six apprentices having failed in two subjects are required to repeat Year II, viz. Bryan, Joseph Murphy, Bannon, Dillon, Scally and Slater. To sit a supplemental examination in the subject "Light": Francis, Lawless and Quinn, E. The thirteen other second year apprentices are to pass to Year III of the course.

Year III: Eight passed the examinations and having now completed the course they are to be awarded a Course Certificate. One apprentice, Liam McDowell, failed to obtain pass marks in the subject "Projection". He will be required to sit a supplemental examination in this subject.

Over/

At the request of Mr. Robbins it was agreed that Mr. Cranley should write to the Manager of the Cinema regarding the unsatisfactory attendance of Year I students Maurice Furlong, Pavilion Cinema, Dunlaoire and Jeremiah O'Brien, Adelphi Cinema, Dunlaoire. Mr. Hodgins mentioned that the teacher had reported that the position as regards note books of the following Year II students was most unsatisfactory: Joseph Murphy, Bannon, Scally and Slater. It was unanimously decided that William Rafferty who, having now completed five years attendance at the Institute, will have to discontinue.

The students who obtained the highest total marks in each year of the course were:-

Year I	X Riddell, R.	286 marks	1st place.
	X O'Callaghan, T.	276 "	2nd "
	X Stewart, B.	264 "	3rd "
Year II	X Mordant, P.	218 "	1st "
	X Banks, J.	213 "	2nd "
	Lawless, James.	212 "	3rd "
Year III	X Quinn, Dermot.	252 "	1st "
	X O'Reilly, G.	236 "	2nd "
	Brown, D.	199 "	3rd "

and it was agreed that the prizes should be awarded to those marked X.

It was agreed that Mr. Cranley should write to the Union and to the Association regarding the prize winners. It was decided to fix the date for the Entrance Examination in the subjects English and Arithmetic for Thursday, 12th September, at 9.30 a.m. in Room 14 of the Institute, and to hold the supplemental examinations at the same time. It was further decided that notice of the entrance examination should be given to all members of the Union and to the Cinemas.

Discussion of arrangements for the presentation of prizes was left over to the next meeting which it was agreed to call for Tuesday, 24th September at 11.30 a.m. in the Institute, when the results of the entrance and supplemental examinations would be available for consideration. Mr. Robbins asked for an expression of opinion on the arrangements for the presentation of prizes at the Astor Cinema last November. The general opinion was that the arrangements were good considering the space limitation but Mr. Cranley thought that better press coverage might have been possible.

Mr. Robbins put forward a suggestion that the gold medal to be presented jointly by the Union and the Association for first place in the Final Examination should be known as the Tate Medal or the Tate Memorial Medal in memory of the late Mr. Robert Tate who had taken such an active part in the organisation of the part-time release classes for cinema apprentices. This was deferred to the next meeting but Mr. Robbins asked that a record should be made in these minutes, and that Mr. Cranley should write to the Theatre and Cinema Association regarding this suggestion. Mr. Crawford raised a point regarding the design of the Maltese Cross in the centre of the medal presented last year which, unfortunately, was very poor because it was a copy of a very rough sketch. Mr. Cranley offered to have a suitable drawing made of the cross by a member of the staff of the Institute.

The meeting then closed.

Signed: Mr. M. Cranley

Chairman.

5th September, 1957.

DRAFT SCHEME OF ORGANISATION FOR
PRE-APPRENTICESHIP EXAMINATIONS FOR
ENTRY TO THE PROJECTION SCIENCE COURSE
FOR CINEMA APPRENTICES

1. It is suggested that Pre-Apprenticeship Examinations for the above purpose be held twice yearly, one in March and the other in late September. The subjects of examination to be English and Arithmetic based on the 7th standard Primary School Syllabus, Pass Marks: 50%. Two to three months notice of the date of each examination should be given to the members of the Theatre and Cinema Association (Irel.), members of the Irish Transport and General Workers' Union (Cinema Branch) and to the Headmasters of the regional Technical Schools in Dublin.
2. Exemption from the Pre-Apprenticeship Examination:- It is suggested that if a candidate already possesses an Intermediate Certificate issued by the Department of Education (Secondary Branch) or a Day Vocational Certificate issued by the Department of Education (Technical Instruction Branch) with passes in both cases in English and Mathematics, he may be exempted from the Pre-Apprenticeship Examination. It is further suggested that if a student also has passes in General Science in the Intermediate Certificate or in Mechanics and Heat of the Day Vocational Certificate, he should be exempted from the first year of the Cinema Apprentice Course.
3. When the results of each Pre-Apprenticeship Examination have been approved by the Cinema and Theatre (Projection) Advisory Committee, the Pass List should be circulated to the Theatre and Cinema Association (Ireland) and to the Irish Transport and General Workers' Union (Cinema Branch).
4. It is considered fundamental for the success of the above scheme that only boys whose name appear on this Pass List should be taken into the trade as Cinema Apprentices unless the prior sanction of the Advisory Committee has been obtained.

CITY OF DUBLIN VOCATIONAL EDUCATION COMMITTEE

INSTITUTE OF SCIENCE AND TECHNOLOGY

KEVIN STREET

CINEMA AND THEATRE (PROJECTION) ADVISORY COMMITTEE

Minutes of meeting held on
Monday, 21st October 1957 at 11.30.

Present were: Messrs. J. Brennan (Theatre and Cinema Association) F. Robbins
F. O'Toole (Cinema Branch, Irish Transport and General Workers'
Union) H. Hodgens (Head of Department, Institute of Science and
Technology) M. J. Cranley, (Principal) presided.

The minutes of the previous meeting held on 2nd October, 1957 which had been circulated to the members were accepted as a correct record and were then passed and signed.

The Chairman read a letter dated 19th instant from the Theatre and Cinema Association regarding possible employment of entrants for the recent entrance examination. It was decided that the matter should be left to Mr. Robbins who would inquire into the matter and supply the Association with suitable information.

Mr. Hodgens then gave the results of the supplemental examinations for four Year I students particulars of which have been appended to the Sessional Examination Result sheet attached to the Minutes. The four boys having obtained more than 40% marks passed and have been enrolled in Year II of the Course.

Mr. Hodgens reported that Course Certificates for all of the Year III students are ready and will be sent immediately to Mr. Robbins.

Item four of the Agenda was then considered when the Chairman presented the case for early information of the results of the Sessional Examination to students and the possibility of holding the supplemental examinations before August. The subject having been fully discussed it was agreed on the proposal of Mr. F. Robbins that information as regards the results of the Sessional Examination should be made available to the students as soon as possible after the mid-May examinations. Mr. Robbins said that the period of annual holidays for the apprentices extended from May to August. It was decided that in view of this the supplemental examinations should be held as heretofore in September. Mr. Cranley explained that the practice had been to make available the examination results only after a meeting of the Advisory Committee which sometimes might not take place until the middle or the end of July. He suggested a meeting of the Committee within the first ten days of June in future in order to examine the marks and decide as regards any supplemental examinations taking into account attendance at classes and class work during the Session. This was accepted unanimously.

Mr. J. Brennan pressed and Mr. Hodgens supported the proposal already passed and recorded in the Minutes that failure in two subjects would involve repetition of the year of the course and that a supplemental examination would apply only for failure in one subject. This was unanimously endorsed.

The Chairman then read a draft scheme for organisation for pre-apprenticeship examinations a copy of which is attached to these minutes. This was carefully considered and fully discussed and was passed unanimously. It was emphasised by Mr. Cranley and by Mr. Brennan that paragraph four of the draft would have to be strictly applied and Messrs Robbins and O'Toole were in accord with this. Mr. Cranley said that the draft scheme would have to be approved by the Vocational Education Committee and formally adopted by the Theatre and Cinema Association and the I.T.G.W.U and that he would write to each body accordingly. Item six of the Agenda was then taken when Mr. F. Robbins announced that it had become necessary to change the date of the presentation of prizes and certificates to November, 19th and that the function would take place at a lunch in the Odeon Room, Metropole Cinema at 12.30 p.m. Mr. F. Robbins said that it had been

over/

arranged that of the apprentices only the prize winners and all the third year students would be present.

It was decided that Mr. Cranley should deal with all matters relating to the Press, and that Messrs. F. Robbins and M. Casey (Secretary, Theatre and Cinema Association) should look after the arrangements generally for the function.

Under other business Mr. J. Brennan inquired regarding the apprentice Rafferty and the Chairman replied that he had sent a letter to the Cinema Manager as directed by the last meeting. Mr. Brennan suggested that a copy of the letter should be sent to the Secretary of the Theatre and Cinema Association and to the Irish Transport and General Workers Union. This was accepted and the meeting then closed.

INSTITUTE OF SCIENCE AND TECHNOLOGY, KEVIN STREET

CINEMA AND THEATRE (PROJECTION) ADVISORY COMMITTEE.

Minutes of Meeting held on
Wednesday, 2nd October, 1957 at 11 a.m.

Present:- Messrs. J. Brennan (Theatre and Cinema Association, (Irel.)), F. Robbins, R. Crawford, F. O'Toole (Cinema Branch, Irish Transport and General Workers' Union) and H. Hodgens. Mr. M. J. Cranley, Principal, was in the chair.

The minutes of the previous meeting held on the 30th July, 1957 were taken as read and approved as being a correct record subject to the amendment that the name 'Hughes' be deleted from the list of names given on Page 1, Paragraph 7.

Arising from the minutes Mr. Brennan stated that in view of the special circumstances surrounding the 1st year sessional examinations, a boy who had failed in only one of the subjects English, Mathematics or Projection should be given a supplemental examination in that subject. Mr. Brennan's proposal was unanimously agreed to and accordingly the following decisions were taken:- (1) that Connolly, Kettle and J. O' Brien shall repeat the 1st year of the course; (2) that Conroy and Hughes shall be required to sit a supplemental examination in English and that Fulham and Furlong shall be required to sit a supplemental examination in Mathematics. Also arising from the minutes Mr. Robbins drew the Committee's attention to the fact that the student Rafferty had now been in attendance for 5 years of the course without completing it successfully and consequently, was ineligible to re-enrol. Mr. Cranley was instructed to write a letter to this effect to the Manager of his cinema. Mr. Brennan drew the Committee's attention to the case of a student named Dillon who had enrolled in the Session 1954/55 and had failed in the subject 'General Science'. He repeated this year of the course in the Session 1955/56 and passed into the 2nd year of the course in 1956/57. He is required to repeat the 2nd year of the course in 1957/58, consequently, it would be necessary for him to pass his 2nd year examination at the end of the current session and to successfully complete the 3rd year of the course in 1958/59.

Mr. Hodgens reported that the four apprentices who had been required to take supplemental examinations in the 2nd and 3rd years of the course had all passed. The marks obtained in the supplemental examinations are recorded on the sessional examinations report attached to the official copy of the minutes of the committee meeting. It was agreed that Course Certificates should be issued to all students of the 3rd year of the course.

A report of the Pre-Apprenticeship Examination was presented to the Committee and adopted. It was agreed that a list of those who had passed the Entrance Examination should be sent to the Union and to the Theatre and Cinema Association. During the ensuing discussion on Entrance Examinations, it was suggested that it would be desirable to hold two Pre-Apprenticeship Examinations each year, one in March and the second in late September since this would allow preparation of a panel of educational qualified candidates for employment in the trade. Mr. Hodgens reported that amongst the applications for enrolment in the 1st year of the course this session, there were five who had passed the Pre-Apprenticeship Examination but another four who were already employed as apprentices but who had not passed the Pre-Apprenticeship Examination. Mr. Cranley undertook to prepare, in conjunction with Mr. Hodgens, a scheme for Pre-Apprenticeship Examinations for submission to the next meeting of the Committee.

Over/

A letter from the Theatre and Cinema Association was read giving an approval to the suggestion that the Gold Medal for the most successful student in the 3rd year of the course should be known as "The Tate Memorial Medal". A discussion followed regarding a design for the medals and it was finally agreed that this would be completed by Mr. Robbins and the other members of the Committee. The design to include the Vocational Education Committee's Shield and the Maltese Cross together with a mention of the "Tate Memorial Medal" in the case of the Gold Medal and of course, the winner's name and the year of the presentation.

The presentation of prizes for the Session 1956/57 was then discussed. It was agreed that the presentation be held on Tuesday, 12th November, 1957 at 11.30 a.m. The Committee agreed that Mr. Grace, President of the Theatre and Cinema Association be invited to preside at the function and that Mr. Martin Gleeson, Chief Executive Officer, City of Dublin Vocational Education Committee should be invited to present the prizes and the certificates. It was further agreed that the only other speakers at the function should be Mr. McLoughlin, President of the Cinema Branch, Irish Transport and General Workers' Union and the Chief Inspector, Department of Education (Technical Instruction Branch). Mr. Cranley undertook to issue the invitations to Messrs. Gleeson and Sheehy.

It was then agreed that the next meeting of the Committee would be held in the Institute at 11.30 a.m. on Monday, 21st October, 1957.

The meeting then closed.

Cinema and Theatre (Projection) Advisory Committee

A meeting of the above Committee will be held on Friday, 27th inst. at 11 a.m. in this College, and it is hoped that you will be able to attend.

A G E N D A

1. Minutes of meeting held on 21st October, 1957.
2. Matters, if any, arising from the minutes.
3. Sessional examination results.
4. Results of Pre-Apprenticeship examination.
5. Fee for examiners of Pre-Apprenticeship scripts.
6. Other business.

CITY OF DUBLIN VOCATIONAL EDUCATION COMMITTEE

COLLEGE OF TECHNOLOGY

KEVIN STREET, DUBLIN

Minutes of Cinema and Theatre (Projection) Advisory Committee meeting held in the College of Technology, Kevin Street, at 11 a.m. on 27th June, 1958.

Present: Messrs. F. Robbins, R. Crawford and F. O'Toole (Cinema Branch, Irish Transport and General Workers' Union); Messrs. J. Brennan and P. Clarke (Theatre and Cinema Association, Ireland). Mr. H. Hodgens occupied the chair in the unavoidable absence of Mr. M. J. Cranley, Principal, on whose behalf he offered an apology.

The minutes of the previous meeting, having been circulated to the members, were taken as read and approved and signed.

The examination results for the session 1957 - 1958 were then considered when the following decisions were made: the following apprentices of Year 1 will be required to take a supplemental examination in the subject shown:

Patrick Byrne	General Science
Paul Donohoe	General Science
William Hugg	Mathematics
Andrew Kettle	General Science
Anthony Molloy	Mathematics
Denis Cullen	Mathematics

In Year 11, Maurice Furlong, Pavilion, Dun Laoghaire, having failed in Electricity and Light, will be required to repeat, and his punctuality was considered most unsatisfactory.

Cornelius Dooley, Paul Fulham and William Conroy will be required to take a supplemental examination in Light. The smaller possible attendance figure for the last five names on the list was due to their joining the class late. It was decided to seek an explanation as to why Reginald Kerins was absent from the examinations in Light and Projection. The attendance for this year of the course was considered poor.

The sixteen students of the third year of the course who obtained pass marks in all subjects are to be awarded College certificates.

Mr. Robbins queried the matter that he had raised last year regarding the appointment of teachers for the course and Mr. Hodgens reported that the position had been most satisfactory during the session.

Examination of the total marks showed the following placing of apprentices for the award of prizes:-

Year 1

1st Place	Paul Fannin	347 marks
2nd Place	Joseph P. Brennan	294 marks
3rd Place	Noel Lynam	283 marks

Maximum possible marks: 400

Year 11

1st Place	Robert Riddell	236 marks
2nd Place	Patrick McGrenery	229 marks
3rd Place	Christopher Bannon	228 marks

Maximum possible marks: 300

Year 111

1st Place	Michael Francis	251 marks
-----------	-----------------	-----------

/over

2nd Place	John Rothery	224 Marks
3rd Place	Frank Boshell	218 Marks

Maximum possible marks: 300

It was decided that in future the sessional examination results should show in a separate column the number of times a student was absent and that the date of joining the class should be shown when an apprentice joined late.

It was further decided that the supplemental examinations should be held in the first week of September; that the boys concerned should be notified now, and that those passing the supplemental examination would be informed immediately in order to allow them to enrol in the next year of the course at the commencement of the session. Mr. Hodgens said that the supplemental examination could be held in the College on Friday morning, 5th September.

The report of the results of the Pre-apprenticeship examination was then considered and it was decided that a copy of the complete report should be sent to the Union and to the Association but that where a blank had been left after the name of a boy who had failed in one subject, the word "fail" should be entered. It was decided to send a list of names of those who had passed to the Technical Schools and any others interested.

Mr. Hodgens had given a brief outline of difficulties regarding accommodation and examining which arose as a result of the large numbers who entered for the Pre-apprenticeship examination when Mr. M.J. Cranley took the chair for the remainder of the meeting. Mr. F. Robbins suggested that a letter regarding examiners' fees for the teachers who marked the scripts should be sent to the Union and to the Association, when the matter would be considered further by each interest. Mr. Cranley undertook to raise the matter with the Vocational Education Committee. It was agreed that only those boys whose names appeared on the examination pass-list should be employed as Cinema apprentices and that any others seeking to attend classes should be referred to the Union.

It was decided that there would be no further entrance examination until the panel was exhausted. It was agreed that the normal arrangements for the distribution of prizes and certificates should continue as last year. The date of the next meeting was fixed for Friday, 31st October, in the College at 11 a.m.

The meeting then closed.

COURSE FOR CINEMA APPRENTICES YEAR I

Syllabus. Subject: English

1. Construction of sentence, paragraph and essay.
2. Letter writing.
3. Function of parts of speech.
4. Simple precis and paraphrasing.
5. Vocabulary training.
6. Correction of common errors.
7. Writing reports.
8. Writing descriptions and explanations.
9. Reading aloud - Oral answering.

Syllabus. Subject: Mathematics

1. Arithmetic - Fractions, decimals, percentages, averages, ratios, proportion. Volumes, areas, surface areas, simple interest, square root.
2. Algebra - Signs, brackets, addition, subtraction, multiplication, division. Simple equations, problems leading to same. Graphs - simple graphical solutions. Simple indices.

Syllabus. Subject: General Science

1. Measurement of length. British and metric systems and conversions.
2. Measurement of area.
3. Measurement of volume.
4. Mass and weight.
5. Principle of Archimedes.
6. Density and specific gravity.
7. Centre of gravity.
8. The Lever.

oooooooooooooooooooo

Note that the course commences at the beginning of October and continues, with the usual Christmas and Easter holidays, until mid-May when a Sessional Examination in all subjects is held, and on the results of which students either pass on to the next year of the course or repeat the year of the course, depending on whether they fail in one or more subjects of the Sessional Examination. Failure in one or more subject involves repetition of the year of the course while failure in one subject only requires the student to take a Supplemental Examination in that subject.

The course provides 26 weeks of instruction (Autumn term 11 weeks, Spring term 10 weeks and Summer term 5 weeks, in general).

CITY OF DUBLIN VOCATIONAL EDUCATION COMMITTEE

COLLEGE OF TECHNOLOGY,

KEVIN STREET, DUBLIN.

Cinema and Theatre (Projection) Advisory Committee
Minutes of Meeting held at 11 a.m. on Friday 31st October, 1958.

Present: Messrs. F. Robbins, F. O'Toole, R. Crawford and H. Hodgens.
Mr. M. J. Cranley (Chairman)

The minutes of the previous meeting were approved and signed. Mr. Hodgens gave a report on the Supplemental examinations. All students had passed and had been enrolled in the next year of the course except W. Conroy, (Year 11), who had not yet enrolled. M. Furlong who was required to repeat Year 11 had been enrolled.

With regard to the Certificates to be presented to the successful third year apprentices the Chairman drew attention to the fact that the certificates were being signed by Messrs. Kennedy and Crowley on behalf of the Theatre and Cinema Association and suggested that in future the certificates should be signed personally by the President of the Theatre and Cinema Association. This was agreed to by the members, and Mr. Cranley was instructed to write accordingly to the Association. Mr. Cranley explained that there had been considerable delay in writing to the Union and Theatre and Cinema Association regarding examiners' fees for the pre-apprenticeship examination. Since the organisations concerned had not had time to fully consider the matter he suggested that this item should be postponed until the next meeting of the Committee which could be held early in December.

The case of five apprentices who had been enrolled temporarily in Year 1 as their names did not appear on the pass list of the Pre-Apprenticeship examination held on 26th April, 1958, was then considered. It was reported that Gerard Byrne, Adelphi Cinema, and Anthony Daly, Benildus Hall had passed the pre-apprenticeship examination held in September 1957. Of the other three, John Thompson, Kenilworth Cinema had become an apprentice in May, Joseph Warden, Sutton Cinema in February and Patrick Davies, Odeon Dundrum, in January. It was agreed that the latter two boys should be allowed to continue in the course as the conditions were exceptional but that further inquiries concerning Thompson should be made. It was further agreed that in the case of the areas Sutton, Bray, Dundrum, Dun Laoghaire and Blackrock where there might be difficulty in getting boys from the panel who lived locally that recruitment could be made from the local technical schools, of boys who had a sufficiently good general education to exempt them from the Pre-apprenticeship examination.

It was decided to examine the pass lists of the 1957 and 1958 Pre-Apprenticeship Examinations in preparation for the next committee meeting in December and at that meeting to make any necessary arrangements for a pre-apprenticeship examination in March 1959. It was agreed that the presentation of prizes and certificates would be made on Tuesday 25th November 1958 in the Metropole. The function should commence at 12.30 p.m. and the press should be invited for 2.15 p.m. It was decided that Mr. Cranley should again look after the Press and draw up a press statement. As regards invitations it was decided that the College would make out the invitations on behalf of the Committee and pass them over to Mr. Robbins for distribution and that Mr. Cranley should write the following on behalf of the Advisory Committee:- The Lord Mayor, Mr. M. O'Flanagan, Chief Inspector, Technical Instruction Branch, Department of Education or his deputy, Mr. H. Healy, acting Chief Executive Officer in the absence of Mr. M. M. Gleeson and Rev. L. Kearns, S.J.

The Meeting then closed.

SIGNED:

Marion J. Cranley
Chairman

Date: 27/2/1959

CITY OF DUBLIN VOCATIONAL EDUCATION COMMITTEE

COLLEGE OF TECHNOLOGY

KEVIN STREET, DUBLIN

Minutes of the Cinema and Theatre (Projection) Advisory Committee, held in the Principal's Office, College of Technology, Kevin St., at 11 a.m. on Friday, 27th February, 1959.

Present: Messrs. F. Robbins, F. O'Toole, R. Crawford (representing the Irish Transport and General Workers' Union); J. Brennan, P.B. Clarke, M. Scanlan, P.J. Nolan (representing the Theatre and Cinema Association), and H. Hodgens, College of Technology, with Mr. M.J. Cranley, Principal, in the chair.

The minutes of the previous meeting held on 31st October, 1958, having been circulated to all members of the Committee, were taken as read and were signed as a correct record.

Passing to item 2 of the Agenda, Mr. Brennan said that very few of the candidates for the Pre-Apprenticeship Examination of April, 1958 had been nominated by the Theatre and Cinema Association, and that his Association would not be prepared to contribute towards the examiners' fees.

Mr. Robbins said that the Union would take responsibility for the Union nominees and would contribute on this occasion only in proportion to the number of their nominees. Both Mr. Robbins and Mr. Brennan considered that those nominated for the examination by the Vocational Schools should be paid for by the Vocational Education Committee.

The total number of entrants for the examination was 186.

Mr. O'Toole said that the Union, while being prepared now to make a contribution to the examiners' fees, would not like it to be taken as a precedent for future Pre-Apprenticeship examinations. The Chairman said that he would present the points made above to the Chief Executive Officer and to the Vocational Education Committee.

Item 3 of the Agenda was then taken when Mr. Robbins announced that the pass lists of boys available as apprentices had now been exhausted and he suggested a Pre-Apprenticeship examination should be held in March to provide a new panel of boys for apprenticeship in the trade. Some discussion then followed and the following arrangements were agreed to by the Committee:

(1) The Irish Transport and General Workers' Union and the Theatre and Cinema Association would nominate candidates for a Pre-Apprenticeship examination to be held in the College of Technology, Kevin Street, on Saturday, 11th April, 1959, from 9.30 a.m. to 12.30 p.m., in the subjects English and Mathematics. Candidates should be notified to assemble at 9.15 a.m. It was agreed that Mr. Cranley would formally notify the Theatre and Cinema Association concerning the Pre-Apprenticeship examination.

(2) Each Vocational School in the City of Dublin should be asked to nominate three boys from the Day Vocational (Manual Training Group) Course who had successfully completed one year of the course, and that the onus should be on the Headmaster in each case to determine that the boys had suitable affiliations with, or interest in, the trade. Such nominees would not be required to take the Pre-Apprenticeship examination, but their names and all particulars about their school record should be sent to the Principal, College of Technology, Kevin Street. Their names would be added to the list of successful candidates at the Pre-Apprenticeship examination.

/over

Mr. Hodgens, acting on a report from Mr. Honan, the Teacher-in-Charge of the Cinema Apprentices' Course, informed the Committee that two boys of Year III of the course had sought permission to leave the class about 11 a.m. on the plea that they had to do messages for their Cinemas. They had been allowed to leave. This applied to one boy, Joseph McDonagh, State, Phibsboro', on four occasions, and to another apprentice, Patrick Lacey, Casino, Finglas, on one occasion.

Mr. Robbins noted the particulars with a view to inquiring into the matter and he stated that, with a few exceptions, films were now delivered by motor car and that apprentices had been instructed not to miss classes under any circumstances.

Mr. Cranley said that in future, teachers would be instructed not to permit an apprentice to leave the class without a note from the Manager of his Cinema.

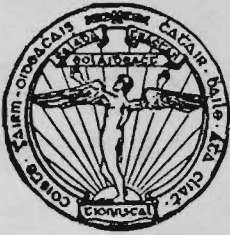

Mr. Cranley suggested that Mr. Honan, because of his close association with the students of the course, should be co-opted to the Advisory Committee. This was agreed to.

The meeting then closed.

Signed: Hugh de Laey.

COLLEGE OF TECHNOLOGY

KEVIN STREET, DUBLIN

Minutes of the Meeting of the Cinema and Theatre (Projection), Advisory Committee, held in the Principal's Office, College of Technology, Kevin Street, at 11 a.m. on Friday, 25th September, 1959.

Present: Messrs. J. Brennan, P.D. Clarke, M. Scanlan, P.J. Nolan (representing the Theatre and Cinema Association); J.V. Honan and H. Hodgens (College of Technology, with Mr. H. de Lacy, Assistant Principal, in the chair.

Mr. de Lacy apologised for the absence of Mr. Cranley, who was serving on a Civil Service Commission.

Mr. Hodgens apologised for the absence of Mr. Robbins, who had returned from holidays only this morning and had not been informed of the meeting which had been twice postponed.

The minutes of the previous meeting held on 27th February, 1959, having been circulated to all members of the Committee, were taken as read and were signed as a correct record.

The Sessional examination report for 1958-'59 was then considered when the following points were agreed to:-

Year I. F. Conway who was absent from examinations in General Science and Mathematics, and M. McNally, who was absent from the examination in English to be asked for an explanation, and if satisfactory, to be given supplemental examinations in those subjects, and if McNally is successful he is then to take a supplemental examination in General Science in which subject he failed to obtain pass marks.

Mr. Hodgens explained that A. Daly, T. Dalton and M. Moore were absent from the Projection examination due to a change of date of the examination having been made in the absence of Mr. Honan, teacher-in-charge of the course, because of illness. It was agreed to give these apprentices a supplemental examination in Projection. A. Daly, P. Davis and L. Mahon failed in General Science and are to take a supplemental examination in this subject.

Year II. P. Byrne, and V. Ferris are to take a supplemental examination in Light. The other eleven boys will pass on to Year III.

Year III. W. Conroy must repeat the year of the course having failed in two subjects - Electricity and Sound. A. Bryan, J. Fannin and P. Young are to take a supplemental examination in Sound. The other 17 apprentices passed in all subjects and will receive the Course Certificate. Conroy has now only one year left in which to complete the course.

All apprentices with bad attendances are to be asked to give an explanation, except Paul Fulham, who was ill.

Mr. Honan said that late joining of class in years II and III was in nearly all cases due to finding the course fee of £2.

Item 3 - Pro-Apprenticeship Examination. Mr. Brennan said that the matter was urgent, and it was decided that the Principal should get in touch with Messrs. Robbins and Casey (Theatre and Cinema Association) regarding the matter.

Mr. de Lacy suggested that an entrance examination should be held for all applicants for the new first year of the course. The members agreed to this and it was then decided that enrolment should take place as soon as possible and that the course should start in the second week of October. Messrs. Robbins and Casey to be informed of this decision and if possible a list of applicants to be obtained from Mr. Robbins.

Item 4 of the Agenda was postponed to the next meeting as it concerned the Union members. It was decided to have the next meeting as soon as possible.

Mr. Honan then gave the names and marks of the prize winners.

YEAR I - Three Prizes:-

1st	Michael Maguire	289 Marks
and 2nd	Patrick Kelly	289 Marks
3rd	James Lambert	276 Marks

It was agreed that the first and second prizes should be divided equally between Maguire and Kelly.

YEAR II - Two Prizes:-

1st	Paul Famin	273 Marks
2nd	Robert Reid	203 Marks

YEAR III - Two Prizes:-

1st	Robert Riddle	383 Marks - Gold Medal
2nd	Chris. Bannon	352 Marks - Silver Medal

In Year II, Denis Cullen was third with 196 marks and in Year III Thomas O'Callaghan was third with 349 marks.

The members expressed satisfaction at the results presented.

The Meeting then closed.

COLLEGE OF TECHNOLOGY

KEVIN STREET, DUBLIN

Minutes of the Meeting of the Cinema and Theatre
(Projection) Advisory Committee, held in the Principal's
Office, College of Technology, Kevin Street, at 11 a.m.

19th October, 1959

Present: Messrs. J. Brennan, N. Scanlan, P.J. Nolan (representing the Theatre & Cinema Association); F. Robbins, F. O'Toole, (representing the Cinema Branch of I.T.G.W.U.), J.V. Honan and H. Hodgins (College of Technology) with the Principal, Mr. M. J. Cranley in the Chair.

Arising from the Minutes of the last meeting on the 25th September, 1959 Mr. Honan gave the results of the supplemental examinations, a copy of which is attached to these minutes. Satisfactory explanations regarding bad attendance had been received. F. Conway of Year I, V. Ferris, Year II & W. Conroy had left the Trade. As all those taking supplemental examinations had passed they will now go on to the next year of the course.

Arising from the Minutes of the last meeting Mr. F. Robbins raised the point of apprentices in Years II and III joining the class late in the session. He suggested that Mr. Brennan should suggest to the Association that the employer advance the £2 fee and deduct this at, say, 5/- per week from the apprentices' wages. Mr. Cranley explained the position as regards guaranteed fees and it was decided that Mr. Cranley should write to the Secretary of the Theatre and Cinema Association explaining the matter and putting forward the suggestion of Mr. Robbins.

The Minutes, having been read, were then signed as a correct record. Mr. Honan then presented the results of the entrance examination held on 8th October, and the pre-apprenticeship examination held on 14th October. The total number of candidates presenting themselves was ten, made up of 5 apprentices already employed in cinemas, 3 unemployed candidates and two page boys employed in cinemas. A list giving names, cinemas, examination marks and period of employment is attached to these minutes.

Mr. Scanlan said he had an apprentice who had just started and who had attended Dunlaoire Technical School for a year. It was decided that this boy should see Mr. Honan on Wednesday and if his school report is satisfactory that he should be enrolled in Year I of the course. Mr. Honan explained that, in addition to the above, four boys had come forward for enrolment who had satisfactorily completed Technical School courses which would exempt them from Year I of the course. Their names with particulars are shown on the list already mentioned and attached to these minutes. It was agreed that they should be enrolled in Year II.

After a lengthy and full discussion, it was agreed that, because of the small number available, those with low marks may be enrolled in Year I but must pass in English and Mathematics at the term examination held in December if they are to continue as apprentices. Mr. Cranley said that nominations from the other Technical Schools had not yet been received and suggested that the Committee should leave the arrangements for the next pre-apprenticeship examination to him in consultation with Mr. Robbins. This was agreed to. It was decided that the page boy from the New Electric Cinema should be put back to the next pre-apprenticeship examination which would probably be in about six months' time, and that the
/over

other page boy and the three unemployed applicants, who had passed the examinations, were now available for employment as apprentices. It was also decided that Mr. Robbins should notify all the boys of these decisions. Concerning the arrangements for the presentation of prizes and certificates, it was decided that this function would be held in the Metropole with a luncheon on Tuesday 17th November, 1959 and that those to be invited would include the boys concerned, the Advisory Committee members, the Minister for Education, Mr. M. O'Flanagan of the Department of Education, the President and Secretary of the Theatre and Cinema Association, the Chairman and the Vice-Chairman of the Union, Mr. M. M. Gleeson, Chief Executive Officer, Mr. M. J. Cranley, Principal, the Rev. L. Kearns, S.J. and Messrs. J. V. Honan and H. Hodgins. Mr. J. Brennan suggested that Mr. F. Robbins should have a meeting with Mr. Casey, Secretary of the Association to make detailed and final arrangements. It was agreed that Mr. Cranley would look after the Press arrangements.

The Meeting then closed.

CITY OF DUBLIN VOCATIONAL EDUCATION COMMITTEE

COLLEGE OF TECHNOLOGY

KEVIN STREET

DUBLIN

Minutes of the Meeting of the Cinema and Theatre (Projection) Advisory Committee, held in the Principal's Office, College of Technology, Kevin Street on Monday, 30th May, 1960.

Present:- Messrs. F. Robbins, R. Crawford, F. O'Toole, P. Mahony
(Cinema Branch of I.T.G.W.U.)
Mr. M. J. Cranley (Principal)
Mr. H. de Lacy (Assistant Principal).
Mr. H. Hodgens, (Head of Telecommunications
Engineering Department)

Mr. Robbins said that the Union were concerned with the prospect of unemployment in the Cinema trade with the opening of an Irish T.V. service and it was desired to explore possibilities of extending the Cinema apprentice operators' course to include suitable matter to make it possible for redundant operators to obtain employment as projectionists, sound camera men and sound recording men in T.V.

Mr. Cranley inquired as to whether it was required to provide a new course for future apprentices or for a conversion course for older men and said that in the latter case he could foresee difficulties as regards experience, knowledge etc. of the older men. Any possible extension of the course would have to be presented in detail to the Vocational Education Committee, showing that there was a definite necessity for it. Then there might be the problem of more time off for apprentices to attend the course, and the attitude of the Theatre and Cinema Association. Again, if the standard of specialised knowledge was to be increased, as would seem necessary, the entrance standard to the course would have to be raised considerably. A possibility would seem to be to accept only those into the trade who had successfully completed two years at a Vocational School and this would make the first year of the present course unnecessary. Mr. O'Toole thought that the older men in the trade would be competent to take over the work which seemed to be available in T.V., as no service work would be required and specialised training could be obtained by a short period in England.

Mr. de Lacy provided some information regarding the sort of work that the Union members anticipated, from what he had seen and heard in England with particular reference to Granada and Scottish T.V. Mr. O'Mahony was of the opinion that a general course of principles rather than on T.V. projection would meet the requirements of cinema apprentices. It was decided to bring the matter up at the next meeting of the Advisory Committee which it was decided should be held on Monday, 27th June at 10.30 a.m. In the meantime, the Union would further consider the requirements.

Our Ref. 12,162/10

Dear Sir,

A meeting of the Cinema and Theatre (Projection) Advisory Committee will be held in the Principal's Office in this College on Monday, 27th June, 1960 at 10.30 a.m.

A G E N D A

1. Minutes of meeting held on 19th October, 1959.
2. Sessional Examination Report 1959-1960 and supplemental examinations.
3. Selection of students for Year I of course in Session 1960-61.
4. Consideration of suggestions for extension or modification of the course for Projection Science for Cinema Apprentice Operators in view of possible unemployment in Cinema Trade with the introduction of an Irish Television Service.
5. Any other business.

MARTIN J. CRANLEY
Principal

CITY OF DUBLIN VOCATIONAL EDUCATION COMMITTEE

COLLEGE OF TECHNOLOGY,

KEVIN STREET, DUBLIN

Minutes of the Meeting of the Cinema and Theatre (Projection) Advisory Committee, held in the Principal's Office, College of Technology, Kevin Street on Monday 27th June 1960 at 10.30 a.m.

Present:- Messrs. J. Brennan, P. Clarke, M. Scanlan (Theatre and Cinema Association), F. Robbins, R. Crawford, F. O'Toole, (I.T.G.W.U.), J. Honan, H. Hodgens, and H. de Lacy (College of Technology). In the unavoidable absence of the Principal; for which Mr. de Lacy apologised, Mr. de Lacy occupied the chair.

Mr. Wall, President of the Theatre and Cinema Association, was present on the invitation of Mr. Robbins in view of the matter for consideration in Item 4 of the Agenda. The Minutes of the previous meeting on 19th October, 1959 having been circulated to the members of the committee were taken as read, were approved and signed.

Arising from the Minutes Mr. Hodgens read a letter from Mr. Casey, Secretary of the Theatre and Cinema Association, dated 7th November 1959 re the question of assistance by managers or circuits to year II and III apprentices in paying the course fee. Mr. Brennan explained that, due to pressure of business at the meeting of the Theatre and Cinema Council, the matter had been postponed. It was decided that Mr. Cranley should write a reminder to Mr. Casey on this matter. Mr. Hodgens then presented the Report of the Sessional Examinations for 1959-60, and the following recommendations were approved:-

Year I: Hannon, Christopher and O'Connor, James having failed in two subjects to repeat Year I. Joseph Nolan who was in hospital during the period of the examinations to be given supplementals in the four subjects. Lawrence Keogh (Astoria Cinema, Dunlaoire) who was absent from examinations in General Science and Mathematics through being retained for duty due to another member of the staff of the Cinema being ill, was approved for supplementals in these two subjects.

Arising out of Keogh's 14 absences during the Session, Mr. Scanlan said the boy had been delivering films on Mondays and he undertook to make arrangements for other means of delivery so that an apprentice would not miss classes.

It was decided to leave the placing for prizes in Year I until the results of the supplemental examinations were available.

Year II: William Hogg and Anthony Daly to repeat Year 2 having failed in Electricity and Light.
1st Place - Kelly, Patrick, Savoy Cinema 272 marks
2nd Place - Lambert, James, Ormonde Cinema 267 marks
3rd Place - Maguire, Michael, Ritz Cinema, Ballsbridge, 261 marks.

Year III: Paul Donohue, failed Projection and Electricity to repeat Year III, and Mr. Robbins will see this apprentice re 12 lates.

The other six apprentices of Year III to be awarded College certificates having now successfully completed the course.

1st Place: Paul Fannin, Theatre Royal, 343 marks;
2nd Place: Anthony Molloy, Embassy Cinema, 311 marks
3rd Place: John O'Reilly, Stella Cinema, Rathmines, 274 marks.

Supplemental examinations to be taken by:- Patrick Byrne - subject - Electricity; Anthony Hyland - subject - Electricity; Robert Reid - subject - Projection. The results of the supplementals will not alter the above placing for the award of prizes.

It was then agreed to take item 4 of the Agenda, as this was the subject for which Mr. Wall was present, and item 3 would follow as it would be dependent upon the decisions taken. Mr. F. Robbins then introduced the subject and Mr. de Lacy having explained the position as regards the Group Certificate courses, and having mentioned the employers who recruit boys holding it, a full discussion followed.

The Chairman summed up as follows:-

- (a) Recruitment of Cinema apprentices in future should require the Group Certificate, including Magnetism and Electricity as a pass subject, following two years at a Day Vocational School. This condition of recruitment should be put into operation immediately and given a trial for a few years.
- (b) The Union should immediately circularise the Vocational Schools announcing this method of recruiting apprentices for the trade, and asking for the names of suitable boys to form a panel. The meeting unanimously passed these proposals.

The question of apprentices already in the trade who had not taken the course during the Session 1959-60 was then discussed, and at the suggestion of Mr. P. Clarke it was decided that it would be necessary to operate a Year I course next session for these apprentices, as well as for the two boys required to repeat Year I. The same syllabus to be used but to step up the standard and scope as far as found possible. Mr. Robbins undertook to find out the number of apprentices already in the trade who would be enrolling in September. Boys coming into the trade under the new conditions next Session would join Year II of the course, which will also have those passing from Year I plus two repeats. Likewise Year III will consist of those passing on from Year II plus repeats, if any. These two years of the course will work to the present syllabuses.

At Mr. Brennan's suggestion it was decided that applications for the occasional apprentice from a manager or a circuit should be made as formerly to the Union.

Mr. Wall said that he believed that the Theatre and Cinema Association would welcome any change for the improvement of apprentices with a better basic education. The proposals, however, would introduce two hurdles, the Primary Certificate or the entrance examination to a Vocational School, and the Group Certificate after two years at a Vocational School. Mr. Wall mentioned that the question of practical electrical work and amplifier maintenance had been raised at a Council meeting of his Association. The maintenance of sound equipment, of course, was a matter for discussion with the firms supplying and at present maintaining such equipment.

The meeting was agreed that the first requirement was a better operator and then to introduce to the course some new items probably in the third year, to provide the apprentices with the knowledge to enable them to be employed as a projectionist in Television studios and film studios.

It was decided to hold the next Advisory Committee Meeting early in September as these proposed changes would have to be considered by the Union, the Theatre and Cinema Association and the Vocational Education Committee. Mr. Hodgins undertook to have the results of the supplemental examinations ready for the next meeting.

Mr. de Lacy said that any changes in the syllabuses for the proposed new scheme would be dealt with by Messrs. Hodgins and Honan.

The meeting then closed.

Date: 7-10-60.

Hugh de Lacy
Chairman

CITY OF DUBLIN VOCATIONAL EDUCATION COMMITTEE

COLLEGE OF TECHNOLOGY,

KEVIN STREET, DUBLIN

PART-TIME DAY RELEASE COURSE - PROJECTION SCIENCE
FOR CINEMA APPRENTICE OPERATORS

Suggested Additions to the Syllabus.

Subject - Light:

- (1) Extension to cover sound-head optical systems, their adjustment and maintenance.
- (2) Back projection.
- (3) Basic requirements for television projection. Optical unit. Viewing screens.

Subject - Electricity:

- (1) Extended treatment of electrical machines.
- (2) Other matters coming within the scope of a Projectionist.

Subject - Sound Equipment:

- (1) Amplifiers: Push-pull. Paraphase. Negative feed-back. Special output circuits.
- (2) Speakers: Modern types and arrangements. Cross-over networks.
- (3) Magnetic recording - sound and video.
- (4) Theatre amplifiers - types, maintenance and servicing.
- (5) Extended study of modern theatre equipment in theatres and with the assistance of the companies supplying equipment.
- (6) Television projection systems.

Note: Since the introduction of modern developments in cinemas and theatres suitable items have been included in the syllabuses and the instruction as regards screens, projection and sound equipment. More time for extended treatment of these matters would be desirable.

J. Hodgins.
Head of Department of Telecommunications
Engineering.

J. Honan.

CITY OF DUBLIN VOCATIONAL EDUCATION COMMITTEE

COLLEGE OF TECHNOLOGY, KEVIN STREET

CINEMA APPRENTICES' COURSE - YEAR 111

SYLLABUS. SUBJECT - SOUND EQUIPMENT

1. Sound waves. Audio frequencies.
2. Conversion of sound to electrical energy, and electrical to sound energy. General basic treatment.
3. Loud speakers - types used, operation, power required.
4. Photo-electric cells - types, action, output.
5. Sound track on film. Variation of photo-electric cell current. Conversion of photographic record of sound on film to alternating voltage.
6. Need for voltage and power amplification.
7. Valves - diode and triode.
8. Valve rectifiers. Half and full wave rectification. Nature of output in each case. Need for smoothing. Smoothing.
9. Triode valve as audio frequency voltage amplifier.
10. Distortion. Class A operation. Grid bias.
11. Triode valve as A.F. power amplifier. Single valve operated Class A. Push-pull amplifier.
12. General treatment of tetrode and pentode valves as A.F. voltage and power amplifiers. Pre-amplifiers. Need for screening input. Hum - causes and elimination.
13. Volume control and mixing systems.
14. Special features of sound reproducing equipment. Indications of faults. Metering. Maintenance.

CITY OF DUBLIN VOCATIONAL EDUCATION COMMITTEE

COLLEGE OF TECHNOLOGY, KEVIN STREET

CINEMA APPRENTICES' COURSE - YEAR 111

SYLLABUS SUBJECT - ELECTRICITY

1. Electron theory of electricity.
2. Simple A.C. generator. Wave form. Frequency. Maximum, effective and average values of alternating voltage and current (simple treatment).
3. Simple treatment of effects of (i) resistance, (ii) inductance, and (iii) capacitance in A.C. circuits. Inductance & Capacitance in D.C. circuit.
4. Inductive and capacitive reactance. Impedance. (Series A.C. circuit only).
5. Electro-magnetic induction.
6. Simple treatment of power transformer. Step-up and step-down ratios.
7. Metal rectifier - half-wave and full-wave rectification.
8. Components used in sound reproducing equipment. Resistance - fixed and variable. Capacitors - mica, rolled paper and electrolytic. Low frequency iron-core choke coils.
9. Simple treatment of D.C. and synchronous A.C. motors.
10. Descriptive outline of three phase and neutral systems.

CITY OF DUBLIN VOCATIONAL EDUCATION COMMITTEE

COLLEGE OF TECHNOLOGY, KEVIN STREET

CINEMA APPRENTICES' COURSE - YEAR 11

SYLLABUS. SUBJECT - ELECTRICITY

1. Magnetism. Permanent magnets.
2. Magnetic fields. Lines of force.
3. Molecular theory of magnetism. Induced magnetism.
4. The three effects of an electric current.
5. Electro-magnetism.
6. Resultant magnetic fields. Magnetic field around Solenoid.
7. Simple treatment of dry cell and lead-acid accumulator.
8. Fundamental units - volts, ampere, ohm.
9. Ohm's Law and verification.
10. Specific resistance. Resistors.
11. Resistance in series and parallel.
12. Potentiometer, rheostat, dimmers.
13. Power, work, energy.
14. Simple treatment of meters - moving iron, moving coil types.
15. Use of meters - connections, readings.

SYLLABUS. SUBJECT - LIGHT

1. Sources of light.
2. Types of lenses and mirrors.
3. Simple treatment of reflection and refraction.
4. Care and treatment of lenses, condensers and mirrors.
5. Optical system of projector and sound head.
6. Light losses.
7. Carbon arc - types, use adjustment, care and maintenance.
8. Light systems for sound on film. Exciter lamps.
9. Projection.

COURSE FOR CINEMA APPRENTICES YEAR I

Syllabus. Subject: English

1. Construction of sentence, paragraph and essay.
2. Letter writing.
3. Function of parts of speech.
4. Simple precis and paraphrasing.
5. Vocubulary training.
6. Correction of common errors.
7. Writing reports.
8. Writing descriptions and explanations.
9. Reading aloud - Oral answering.

Syllabus. Subject: Mathematics

1. Arithmetic - Fractions, decimals, percentages, averages, ratios, proportion. Volumes, areas, surface areas, simple interest, square root.
2. Algebra - Signs, brackets, addition, subtraction, multiplication, division. Simple equations, problems leading to same. Graphs - simple graphical solutions. Simple indices.

Syllabus. Subject: General Science

1. Measurement of length. British and metric systems and conversions.
2. Measurement of area.
3. Measurement of volume.
4. Mass and weight.
5. Principle of Archimedes.
6. Density and specific gravity.
7. Centre of gravity.
8. The Lever.

oooooooooooooooooooo

Note that the course commences at the beginning of October and continues, with the usual Christmas and Easter holidays, until mid-May when a Sessional Examination in all subjects is held, and on the results of which students either pass on to the next year of the course or repeat the year of the course, depending on whether they fail in one or more subjects of the Sessional Examination. Failure in one or more subject involves repetition of the year of the course while failure in one subject only requires the student to take a Supplemental Examination in that subject.

The course provides 26 weeks of instruction (Autumn term 11 weeks, Spring term 10 weeks and Summer term 5 weeks, in general).

CITY OF DUBLIN VOCATIONAL EDUCATION COMMITTEE

COLLEGE OF TECHNOLOGY

KEVIN STREET, DUBLIN.

MINUTES OF THE MEETING OF THE CINEMA AND THEATRE
(PROJECTION) ADVISORY COMMITTEE, HELD IN THE PRINCIPAL'S
OFFICE at 11 a.m. ON FRIDAY, 7th OCTOBER, 1960

Present:- Messrs S. B. Kelly, F. O'Toole, R. Crawford (Cinema Branch, I.T.G.W.U.), J. Brennan, M. Scanlan, (Theatre and Cinema Association), and H. Hodgens (College of Technology), with Mr. H. deLacy, Assistant Principal in the chair.

Mr. deLacy apologised for the unavoidable absence of the Principal Mr. M. J. Cranley due to illness.

The Minutes of the previous meeting held on 27th June, 1960 having been circulated to members were taken as read, were accepted and signed.

Arising from the minutes Mr. Kelly raised a point concerning difficulty in obtaining apprentices from Vocational Schools when required by the trade and mentioned the case of the Gala Cinema, Ballyfermot, about which he had been in communication with Mr. Hodgens previously. Mr. Hodgens said that as a result of a telephone conversation with Mr. Kelly he had been in touch with the Headmasters of Vocational Schools at Emmet Road, Clogher Road, and upper Mount Street seeking an apprentice. Mr. J. Brennan thought that some flexibility was necessary as regards obtaining an apprentice when required without dropping the recently adopted scheme.

The Chairman suggested that when an apprentice was required and no one was available from a Vocational School that a boy could be accepted if his standard of education was adjudged equivalent to that of the Group Certificate. Further, he suggested that the Union should circularize Vocational Schools giving conditions of apprenticeship, rates of pay, etc. The above suggestions were agreed to by the meeting.

Mr. deLacy then proposed on behalf of Mr. Cranley and the College that Mr. F. Robbins should be co-opted as a permanent member of the Advisory Committee in view of his long association with the trade, the Courses and the Advisory Committee, and his pioneer work in securing part-time day release for apprentices in this country. Mr. J. Brennan said that he was very happy to second the proposal and paid tribute to the work and knowledge of Mr. Robbins. The proposal was unanimously accepted. Mr. Robbins, who was present on invitation of the Chairman, expressed his thanks and appreciation, and his wish to give any assistance possible.

Mr. Hodgens then gave the results of the supplementary examinations, and the position regarding the enrolment for 1960-61.

<u>YEAR I.</u>	<u>Gen. Science.</u>	<u>Mathematics.</u>	<u>English.</u>	<u>Projection</u>
Keogh, Laurence	63%	48%	---	---
Nolan, Joseph	47%	45%	55%	75%

Result - Pass and to be enrolled in Year II.

Mr. Kelly had provided a list of apprentices who entered the trade during the year. Seven of the nineteen on the list had already reported for enrolment, and of these two had the Day Vocational Group Certificate including Magnetism and Electricity and would be enrolled in Year II.

The placing of Year I apprentices for prizes was then considered with the following result:

1st Place Dermot Duffy, Astor Cinema, Total Marks 290.
2nd Place Anthony Wakefield, Metropole, Total Marks 251.
3rd Place Laurence Keogh, Astoria, Dun Laoghaire, Total Marks 239.
Mr. Kelly undertook to interview Keogh regarding his attendance and hear his explanation.

over/

<u>YEAR III</u>	<u>Electricity</u>	<u>Projection</u>	<u>Result</u>
Byrne, Patrick	40%	--	Pass.
Hyland, Anthony,	51%	--	Pass.
Reid, Robert	--	65%	Pass.

Mr. Hodgins said that he had already given instructions to the Office to have certificates for the nine apprentices who had successfully completed the three years of the course, made out, signed, and sent to Mr. Kelly.

The proposed re-organisation of the course discussed at the last meeting was then considered. Mr. Hodgins presented a draft syllabus to cover the additional items requested. This and the old syllabuses were then discussed and it was agreed that a fourth year would be required until the old first year finished in order to bridge the gap. Eventually the course would settle, as now, at three years. Mr. deLacy proposed that the College Staff would look into the matter of accommodation, teaching staff, and fee with a view to implementing the additional instruction at the earliest possible date. Mr. Kelly said he would get the men together to discuss the possibility of a fourth year as there would be difficulties as regards time off from duties, etc. He would discuss the matter of help in the payment of a course fee with the Secretary of the Theatre and Cinema Association. It was agreed that if possible the class should be held in the morning.

Passing on to the presentation of prizes and medals Mr. Kelly said that he had been in touch with Mr. Casey and the latter had asked for a cutting of invitations as the high expenses of previous years could not be met now by his Association. Mr. O'Toole said the Union would support a cutting down of invitations for the same reason. The meeting decided to leave the issue of invitations to the joint arrangement of Messrs Kelly and Casey recommending, however, that the ten members of the Advisory Committee, and Messrs. Wall and Casey, President and Secretary of the Theatre and Cinema Association, and Mr. Conroy, President of the I.T.G.W.U., should be invited. Mr. Cranley should issue the invitations on behalf of the Advisory Committee as formerly. The meeting recommended that the function should be in the Metropole on Tuesday 15th November, 1960 if this date was convenient to everyone concerned.

Mr. O'Toole proposed that the second (silver) medal should in future be called the John O'Toole medal. This was agreed to.

Mr. Kelly suggested adult lectures on Television and said he would send some syllabuses he had received to Mr. Cranley for examination.

The Meeting then closed.

COLLEGE OF TECHNOLOGYKEVIN STREET, DUBLIN

Minutes of the Meeting of the Cinema and Theatre
(Projection) Advisory Committee held in the
Principal's Office at 11 a.m. on Wednesday
28th June, 1961

Present:- Messrs. S. B. Kelly, F. O'Toole, R. Crawford,
(Theatre and Cinema Branch, I.T.G.W.U.), J. Brennan,
P. Clarke (Theatre and Cinema Association), and H. Hodgens
with Mr. M. J. Cranley in the Chair.

The Minutes of the previous meeting held on the 7th October, 1960 having been circulated to the members were taken as read, confirmed and signed.

The Committee expressed regret at the death earlier in the year of Mr. Gogan and paid tribute to his work in developing educational facilities for apprentice cinema operators.

The Sessional examination results for the Session 1960/61 were then presented and the following decisions were made:- Year I. To repeat this year of the course - Paul Brennan, Oliver Flanagan, Thomas Monks, James O'Connor and Rupert Mills. To take a supplemental examination in Mathematics - Francis Byrne, Patrick Donoher, Christopher Predergast, Anthony Scully. To take a supplemental examination in English - Thomas O'Sullivan. Brian Young, who failed in General Science, and who was absent due to illness from the Mathematics examination, to take supplemental examinations in these two subjects. Year II. Edward Murphy to repeat this year of the course and Joseph P. Nolan to take a supplemental examination in Electricity. William Hogg, who failed in two subjects normally should repeat Year II of the course but as he has been four years on the course, he could not complete the course in the five years allowed. It was decided that he should leave the course and that the attention of Messrs. Casey and Kelly be drawn to this decision when the Minutes of this Meeting are sent to them. Year III. All passed in a class of 12, except Joseph Warren who failed in Sound and who will be required to take a supplemental examination in this subject. It was agreed that the supplemental examinations should be held as formerly in the second week of September; that the College will notify the apprentices concerned regarding date, time and subject; and that the College will notify Mr. Kelly and check with him the addresses of the apprentices concerned.

As enrolment for the Session 1961-62 will take place before the next Committee meeting, it was agreed on the suggestion of the Chairman that the College may make decisions on the result of the supplemental examinations for the purpose of enrolment subject to approval later by the Committee.

The following apprentices will be awarded prizes:-

Year I

1st Place:- Patrick Walsh, Theatre de Luxe 258 total marks (max. marks 400)

2nd Place:- Liam Hendley, Star, Crumlin 254 " "

Year II

1st Place:- David Emmet, Leinster Cinema 253 total marks (max. marks 300)

2nd Place:- Anthony Wakefield, Metropole 238 " "

Year III

1st Place:- Patrick Kelly Savoy Cinema 354 total marks

2nd Place:- James Lambert Ormonde Cinema 316 " " (max. marks 400)

3rd Place:- Noel Kavanagh Drumcondra 314 " ""

Arising from the Report it was decided on the proposal of Mr. J. Brennan that in the event of an apprentice entering the trade after the 1st January he should be taken into Year I of the course only if considered suitable to enter so late, by the College staff. As regards dropping Saturday morning classes, Mr. Hodgens suggested Year I classes on Monday, Wednesday and Friday and Year II and III classes on Tuesday and Thursday mornings.

This was accepted subject to any objection that may arise from the Union or the Association and it was decided that the attention of Messrs. Kelly and Casey be drawn to this when sending the Minutes.

Mr. O'Toole suggested changing the Monday Year I class from the afternoon to the morning. It was decided to put this on the Agenda for the next meeting and to start the new session with the class on Monday afternoon until a decision would be made by the Committee.

A discussion on Item 5 of the Agenda re the standard of the apprentices then took place and was adjourned to the next meeting which was arranged for mid-October. In the meantime members will consider the matter and Mr. J. Brennan undertook to acquaint Mr. Walls, Chairman of the Association of the points raised. Mr. O'Toole said he would like the matter fully considered by the Association before a joint meeting with the Union should take place.

A letter dated 20th April, 1961 from Mr. J. Brennan to Mr. M. J. Cranley re payment of a class fee for an apprentice was then considered. The matter arose from a First Year Apprentice leaving the Cinema early in the Autumn term and having to be replaced by another apprentice which involved the Manager in having to pay the College fee a second time - the point being that College fees are not transferable. Mr. Cranley explained the position as regards fees and read the Committee's regulations. Mr. Brennan proposed "that this Committee recommends the Vocational Education Committee to give favourable consideration to its request not to charge an additional fee in the case of a first year apprentice who is employed to replace a first year apprentice for whom a fee has been paid and who has left the trade". This proposal was passed by the Committee.

It was agreed to ask the Vocational Education Committee to sanction a fourth year for the Projection Science Course for Cinema Apprentice Operators to cover additional items set out in a draft syllabus prepared by Mr. Hodgens dated July, 1960, which was presented to and accepted by the last Advisory Committee Meeting. It was agreed that a suitable heading for this year of the course would be "Sound and Optical Equipment". With regard to the other matters concerning a fourth class, the subject was adjourned to allow the Union and the Association to discuss matters arising, such as time off for apprentices, which apprentice groups would be required to attend, etc. It had been agreed at the last meeting that, if possible, the additional class should be held in the morning.

Mr. J. Brennan suggested that one of the medals not yet named should be named the Gogan Medal. It was decided to put this on the Agenda for the next meeting in mid-October.

The meeting then closed.

MINUTES OF A MEETING OF THE THEATRE AND CINEMA ADVISORY
COMMITTEE HELD IN THE PRINCIPAL'S OFFICE IN THE COLLEGE
OF TECHNOLOGY KEVIN STREET ON MONDAY 16th OCTOBER 1961

Present:- M.J. Cranley (Chairman), Messrs. S. Kelly, F. O'Toole, R. Crawford
(Theatre and Cinema Branch, I.T.G.W.U.) M. Scanlan, J. Brennan
(Theatre and Cinema Association), F. Robbins and H. Hodgens.

Minutes: The Minutes of the previous meeting held on 28th June, 1961, having been circulated to the members, were taken as read and as a correct record, and were signed.

Supplemental Examination Results.:

Mr. Hodgens presented the results of the supplemental examinations which were as follows:

Year 1 Byrne, Francis, Mathematics 30%, fail; to repeat Year 1 of the course.
Donoher, Patrick, Mathematics, 51% - pass.
O'Sullivan, Thomas, English, 46% - pass.
Prendergast, Christopher, Mathematics, 44% - pass.
Scully, Anthony, Mathematics, 67% - pass.

Young, Brian, was unable to attend on the dates fixed for his supplemental examinations in Mathematics and General Science through no fault of his. Another date will be arranged and it was agreed that the College could make the necessary decision on enrolment as a result of his marks.

Year 11 Nolan, Joseph, Electricity, 45% - pass.

Year 111 Warren, Joseph, Sound, 48% - pass.

The arrangements already made of enrolling those who had passed the supplemental examinations in the next year of the course and preparing a course certificate for Warren were endorsed by the meeting.

Enrolments:

Mr. Hodgens then gave the figures for the enrolments for the Session 1961/2 which were now: Year 1 eighteen, Year 11 twelve, and Year 111 four. Actually six apprentices had passed from Year 11 but of these Emmet and Hare had not reported for enrolment. Mr. Kelly reported that William Hogg had voluntarily retired from the course as he could not complete it in the five years allowed.

As regards item 3 of the Agenda Mr. Cranley drew the attention of the Advisory Committee to the serious situation for the trade that could arise as a result of the Apprenticeship Act coming into force in 1963 which would require an apprentice to have the Intermediate Certificate or Day Vocational Group Certificate, and he strongly urged the Union to take up the matter with the

employers.

In reply to Mr. Hodgens Mr. Kelly said that vacancies that had occurred had been filled by boys sent from various Vocational Schools when he had made application to Mr. Hodgens, and that at present there was only one vacancy for an apprentice and that some boys had been sent for it from Vocational schools. As a difficulty had arisen during the summer holiday period Mr. Hodgens suggested that this Session he would get in touch with the Headmasters early in the summer with a view to having some boys available during the holiday period.

Mr. Hodgens said that he had made provision with Mr. Forde to change the Year 1 class from Monday afternoon to Monday morning, but he had been waiting for the approval of the Committee to make the change. Mr. Brennan on behalf of the Association and Mr. Kelly for the Union said there was no objection and Mr. Brennan believed that it was really a matter for the chief operators. It was decided on the original suggestion of Mr. O'Toole to hold the class on Monday morning and notify the apprentices accordingly.

As regards a fourth year for the Course it was agreed that the Association and the Union should get together to discuss all the points involved in introducing a fourth year including possible changes in the agreement and the question of time off for apprentices.

Mr. Brennan said that he had spoken to Mr. Casey, Secretary of the Association early this month regarding arrangements for the award of prizes and certificates to successful students, and that he was not to make any commitment in this respect for the Association. It was decided that Messrs. Kelly and Casey should discuss the general arrangements, and having come to an agreement then to get in touch with Mr. Cranley.

It was decided that the silver medal should be called the Gogan Medal.

Mr. Brennan announced his resignation from the Advisory Committee owing to pressure of business and said that the Council of the Association had not yet nominated a successor. Tributes were paid to Mr. Brennan for the advice and wisdom that he had brought to the committee's affairs during his long association, and sincere expressions of regret and thanks were made by the Chairman, and by Messrs. Kelly and Robbins. The other members present wished to endorse the remarks and sentiments.

The meeting then concluded.

COLLEGE OF TECHNOLOGY

KEVIN STREET DUBLIN

Minutes of Advisory Committee Meeting for the Cinema and Theatre (Projection) course held on 1st March, 1962, in the Principal's Office, College of Technology Kevin Street at 11.00 a.m.

Present:- Messrs. F. O'Toole, and R. Crawford (I.T.G.W. Union)
M. Scanlan (Theatre and Cinema Association),
F. Robbins, H. deLacy, Assistant Principal, and
H. Hodgens (Secretary)

Mr. O'Toole apologised for the absence of Mr. S. Kelly. Mr. Hodgens said that he had been recently in touch with the T.C.A. regarding the appointment of a member in place of Mr. J. Brennan. He had been informed by Mr. Lush that no appointment had yet been made.

The Minutes of the previous meeting having been circulated to the members were taken as read and signed.

Mr. Hodgens then gave particulars of the Christmas examination results for the three years of the course. These showed only a small number below pass marks out of a class of 21 in the first year. In the second year a little less than half were below pass marks, while in third year the four on the Roll passed. Arising from an inquiry from Mr. S. Kelly, Secretary of the Theatre and Cinema Branch of the I.T.G.W.U. regarding marks for English having been given for class work during the term rather than from the results of a formal examination, Mr. Cranley read a letter from the teacher of English, Mr. Conway which was accepted as quite satisfactory in view of the very mixed standard of the class.

The Union members raised a point concerning the dismissal of a class because no room was available. Mr. deLacy said that the teacher had been severely reprimanded on that occasion. There had been difficulty as regards room accommodation because of taking on additional classes this Session and because of the G.C.E. Examinations. The Union members were afraid that the Cinema apprentices might not be getting quite the same attention as other groups but they were assured that this was not the case.

Arising from a change of teachers for General Science in the first year when Mr. L. Purton replaced the part-time teacher Mr. Colm Kelly who had left in mid-November, Mr. Frank Robbins asked that it be recorded that the Committee again considered that something should be done to make teachers' salaries more attractive in order to secure and to hold teachers. He remembered that in previous years there had been some difficulties due to changes of teachers.

Passing to the arrangements for the distribution of certificates and prizes for the Session 1960-61, it was decided that in the absence of definite information from the T.C.A. that the presentations would be made at a tea preceding the annual dance to be held in May. The Union and the Association would make final arrangements.

The standard of the apprentices gave rise to a general discussion, and finally it was agreed that a preliminary meeting should be called by the College to get together the various interests that it was considered would be involved, viz. Radio and Televis Eireann and Ardmore Studios for informal discussions on apprenticeship, education and training.

Mr. Cranley read a letter from the Chief Executive Officer saying that the Vocational Education Committee had given sanction for a fourth year of the Course as outlined at previous meetings of this Committee. Mr. R. Crawford said that he understood that the Theatre and Cinema Association were not keen on a fourth year, and that they considered the present three years course quite satisfactory. Mr. Cranley said that the Vocational Education Committee would not go ahead with the extension of the course unless the Association and the Union were in agreement which, of course, he understood at previous meetings to be the case, as otherwise he would not have made the recommendation to the Chief Executive Officer and the Vocational Education Committee. Mr. Scanlan thought the fourth year a good idea, and did not know why the T.C.A. were not in agreement. Mr. F. Robbins suggested that Mr. Cranley should write to the Union and to the Association to record the sanction of a fourth year of the course by the Vocational Education Committee as recommended and requested by the Advisory Committee, and to ask for discussion on the matter with a view to commencing next Session.

Before the meeting closed Mr. Cranley announced that this meeting of the Advisory Committee would probably be his last, since he would be leaving the College to take up an appointment with the Institute of Industrial Research and Standards. The Union all paid high tributes to Mr. Cranley as Principal and as Chairman of the Committee; expressed regret at his resignation and congratulated him and wished him happiness and every success in his new appointment. Mr. Cranley thanked the Committee for the kind remarks and the good wishes. The Secretary would like to have it recorded in the Minutes his complete and sincere endorsement of the sentiments expressed by the other members to Mr. Cranley.
