TECHNICAL SCHOOL EXAMINATIONS.
1933.

SHORTHAND.
(First Year.)

Thursday, May 18th—7 to 7.30 p.m.

Examiner—Miss M. A. Murphy, P.C.T.S.
Co-Examiner—J. F. Burke, Esq., D.Sc.

Enter your Examination Number in the space provided above.

On the Envelope supplied, enter your Examination Number, subject of examination and system of Shorthand used.

Write the following in correct Shorthand. Place your outlines underneath the printed words:

The railways are part of the essential machinery of our economic life. Everything affecting them is a matter of public concern. The
difficulties in which they find themselves to-day are mainly a heritage from the past. The very lay-out of the whole system, which originally was never designed to assist commerce, imposed on it a grave disadvantage. Instead of being linked up, the towns were avoided. Again the charges were excessive, even up to a short time ago, and were not based on a policy of helping industrial effort at home; this is one
of the reasons why the present situation presses

very heavily. The declining population which

robbed the railroads each year of more passenger

traffic and more carriage of goods, added to

the slump when it came, and then the buses

began to run uncontrolled and undirected. In

that extremity the directors proposed a further

cut in the pay of their workers. Such a

policy could only be justified if the men’s
remuneration was excessive, or if this were a temporary decline. But the railroads are a part of our lives, and what is needed is a permanent solution. If the buses and motor traffic were used to supplement and not to destroy the railroads, the present crisis might be surmounted.
