Bologna Process Update

Engineering Education in Ireland

Mike Murphy

26  September, 2005
Over 5,000 engineering students:
- 2,000 full-time students
- 1,000 part-time students
- 2,000 apprentice students
- 150 post-grad students

250 academic staff
12:1 Student/Staff Ratio
The Bologna Process … what problem are we trying to solve?

- “We confirm our commitment to coordinating our policies through the Bologna Process to establish the European Higher Education Area (EHEA) by 2010”
- “The European Higher Education Area is structured around three cycles, where each level has the function of preparing the student for the labour market”
- “We note with satisfaction that the two-cycle degree system is being implemented on a large scale”
- “Almost all countries have made provision for a quality assurance system”
- “We will draw up national action plans to improve the quality of the process associated with the recognition of foreign qualifications”
- “We see the development of national and European frameworks for qualifications as an opportunity to further embed lifelong learning in higher education”
- “We recognise that mobility of students and staff among all participating countries remains one of the key objectives of the Bologna Process. … we reconfirm our commitment to facilitate the portability of grants and loans”

† Communique of the Conference of European Ministers Responsible for Higher Education, Bergen, 19-20 May 2005
Bologna – essentials †

- Ultimate Goal: (automatic) recognition of qualifications in EHEA
- Objectives:
  - Degree structure and qualifications framework
  - Credit system
  - Quality Assurance
  - Social dimension

† Prof. Dirk Van Damme, Ghent University, Head of Cabinet, Flemish Minister of Education
Starting at the end …

- “Main challenges ahead for Ireland:
  
  • Deepening the engagement of institutions in the process
  
  • Ireland faces the challenge of encouraging further exchanges of staff and students within Europe (as promoted by the Bologna Process) in view of the cost of such exchanges for an off-shore island.”

  Department of Education & Science
The Players in Ireland …

- Department of Education & Science
  - HEA
  - HETAC
  - Universities (7)
  - DIT
  - Institutes of Technology (13)
  - Institution of Engineers of Ireland (IEI)

- National Qualifications Authority of Ireland (NQAI)
Statutory Powers

- Department of Education & Science has overall responsibility for higher education in Ireland.
- Higher Education Authority (HEA) is responsible for furthering development of higher education and oversees the universities.
- National Qualifications Authority of Ireland (NQAI) is responsible for establishing and maintaining the National Framework of Qualifications.
- HETAC is the qualifications awarding body for the Institutes of Technology (except DIT).
- Institution of Engineers of Ireland (IEI) sets and maintains proper standards of professional and general education and training for admission to membership or to any category of membership of the Institution.

*Engineering @ DIT: Challenging, Fun & Rewarding*
Some key developments

- Diploma Supplement:
  - The Irish National Bologna Committee under the chairmanship of the Department of Education & Science established a sub-committee to advise on the implementation of the Diploma Supplement. The format of the Diploma Supplement, including the text that describes the Irish educational system, has been agreed.

- Quality Assurance:
  - IUQB, HETAC, HEA, DIT and USI have formed the Irish Higher Education Network. IHEQN has agreed and published principles of good practice in regard to quality assurance. The network will ensure full adherence to the requirements of the Bologna Process.

- National Framework of Qualifications:
  - NQAI, established in 1999, launched a comprehensive framework of qualifications in 2003
Engineering @ DIT: Challenging, Fun & Rewarding

Current Engineering Structure

Eng Technologist
E.g., BEng Tech
3 Years nominal

60 ECTS
60 ECTS
60 ECTS

Prof Eng (BEng)
4 Years nominal

60 ECTS
60 ECTS
60 ECTS

Entry from 2nd Level
(O-Level, Pass LC)

Non-Uni’s

Entry from 2nd Level
(A-Level, Hons LC)

Uni’s, DIT, most IoT’s

Entry from 2nd Level
(O-Level, Pass LC)

Non-Uni’s

Entry from 2nd Level
(A-Level, Hons LC)

Uni’s, DIT, most IoT’s
Accreditation and Bologna

- IEI has agreed that the educational standard for Chartered Engineer should be raised to Master degree level.
- IEI initially proposed, discussed and adopted a 3 + 2 format with applied and theoretical 3 year streams.
- But … straws in the wind …
- New approach is an integrated 5-year programme for engineers with a pivot point/exit point after three years.
- Proposed that 4-year and 5-year programmes will run simultaneously for an interim period.
Proposed Engineering Structure

Prof Eng (MEng/MSc)
5 Years nominal

120 ECTS

Depth

180 ECTS

Breadth

Mobility Point
e.g., BEngSc

Entry from 2nd Level
(A-Level, Hons LC)

Uni’s, DIT, IoT’s ??

“The IEI position on the Bologna Declaration is in line with all other similar European Agencies.”
