College of Technology, Bolton Street Prospectus 1985-86

City of Dublin Vocational Education Committee
CALENDAR—SESSION 1985-86

Term 1

SEPT.
Monday 2 Commencement of Session.
Tuesday 3 Commencement of apprenticeship courses except where otherwise arranged.
Monday 16 Interviews and enrolments for Part-time & Evening Courses commence except where otherwise arranged.
Monday 23 Whole-time classes commence except where otherwise arranged.
Wednesday 25 Votive Mass. All classes closed.
Monday 30 Part-time and evening classes commence except where otherwise arranged.

DEC.
Friday 20 Final class meetings of first term.

1986
JAN.
Tuesday 7 All classes resume.
Friday 31 Latest date for receipt of College examination entries.
FEB.
Saturday 1 Closing date for applications to whole-time courses for 1986/87 session through CAO and DIT Admissions Office.
MARCH
Saturday 1 Latest closing date for applications to whole-time courses through the DIT Admissions Office for 1986/87 session on payment of late application fee.
Tuesday 25 Final class meetings of second term.

Term 3

APRIL
Monday 7 All classes resume.
MAY
Monday 19 Commencement of College Summer examination programme except where otherwise arranged.
JUNE
Friday 20 All classes terminate except where otherwise arranged.

Block Release Dates for Engineering Trades.

Term 1: 1985 Monday 30 September to Friday 13 December.
Term 2: 1986 Tuesday 7 January to Friday 21 March.
Term 3: 1986 Monday 7 April to Friday 20 June.

Classes will be closed on Public Holidays during the session (viz. 28 October, 17 March, 2 June) and on Church Holidays (viz. November 1, May 8 & 29) except where otherwise arranged.

NOTE:— (a) This Calendar is subject to alteration during the session.
(b) The information in this prospectus is intended as a guide for persons seeking admission to the College and shall not be deemed to constitute a contract, or the terms thereof, between the College and a student or any third party.
CITY OF DUBLIN VOCATIONAL EDUCATION COMMITTEE

Councillor Liam Fitzgerald, T.D., (Chairman), 117 Tonlegee Road, Raheny, Dublin 5.
Councillor Michael Donnelly (Vice-Chairman), 33 Glendoher Avenue, Rathfarnham, Dublin 16.
Councillor Andrew Callaghan, 52 Adelaide Road, Dublin 2.
Councillor Patrick Carey, 69 Bourne View, Ashbourne, Co. Meath.
Mr. Michael Cotter, 51 Sefton, Rochestown Avenue, Dun Laoghaire, Co. Dublin.
Mr. Patrick Donegan, 121 Shanard Road, Dublin 9.
Mr. Barry Early, 161 Sutton Park, Dublin 13.
Councillor Mary Hanafin, B Simmonscourt Castle, Ballsbridge, Dublin 2.
Mr. Sean Lyons, 30 Coolmine Woods, Clonsilla, Blanchardstown, Dublin 15.
Alderman Tomás MacGiolla T.D., 49 St. Laurences Road, Chapellizod, Dublin 20.
Mr. Felix McKenna, Students' Union Office, College of Technology, Bolton Street, Dublin 1.
Councillor Charles McManus, 12 Walkinstown Drive, Dublin 12.
Councillor Michael O'Halloran, 141 Ardlea Road, Dublin 5.
Seamus Uas Puirseil, 16 Hampton Cove, Baile Brigin, Co. Atha Cliath.

Chief Executive Officer: W. J. Arundel B.Comm, H.Dip.Ed.
Offices: Town Hall, Ballsbridge, Dublin 4. Telephone 680614.

### Guide to Courses

#### Mechanical Engineering Technician Certificate
- D101 Brickwork
- D102 Plasterwork
- D105 Painting and Decorating
- D107 Vehicle Building
- D111 Cabinetmaking / Chairmaking
- D112 Upholstery
- D121 Carpentry & Joinery
- D122 Woodcutting Machinists' Work
- D144 Welding
- D145 Foundry Work
- D149A Sheetmetal Work
- D150 Metal Fabrication
- E42 Mechanical Engineering Technician

#### Civil Engineering Technician Certificate
- E43C Civil Engineering Technician Certificate
- E43M Mechanical Engineering Technician Certificate
- E47 Mechanical Engineering Technician

#### Building Services Engineering Technician Certificate
- E50 Computer Programming
- E51 Structural Design

#### Industrial Management Certificate
- E52 Aircraft Maintenance Engineers' Licences
- E53 Avionic Digital Techniques

#### Refrigeration Engineering Technicians
- E55 Basic Aeronautical Engineering Certificates

#### Domestic Heating and Environmental Course
- E56A Private Aircraft Pilots Licence
- E56B Private Pilots Licence – Instrument Rating

### TRADE AND OTHER COURSES

#### Part-time Courses
- D101 Brickwork 72
- D102 Plasterwork 72
- D105 Painting and Decorating 73
- D107 Vehicle Building 73
- D111 Cabinetmaking / Chairmaking 73
- D112 Upholstery 74
- D121 Carpentry & Joinery 74
- D122 Woodcutting Machinists' Work 74
- D144 Welding 74
- D145 Foundry Work 75
- D149A Sheetmetal Work 75
- D150 Metal Fabrication 76

- E1 Construction Technician Course
- E101 Brickwork 86
- E102 Plasterwork 86
- E105 Painting and Decorating 87
- E107 Vehicle Body Building 87
- E111 Cabinetmaking / Chairmaking 87
- E121 Carpentry & Joinery 87
- E143A Welding Metal Arc and Oxy Acetylene 88
- E143B Welding MIG and TIG 88
- E143C Welding 88
- E147 Construction Drawing 88
- E148 Craft-based Technician Course in Metal Fabrication and Welding 89
- E149 Sheetmetal Work 90
- E150 Metal Fabrication 90
- E151A Plumbing 90
- E151B Craft-based Technician Course in Plumbing Technology 90
- E125 Motor Cycle Mechanics 91
- E128 Construction Plant Fitters 91

### Evening Courses
- D151 Plumbing 77
- D151A Plumbing 77
- D151B Plumbing 77
- D124A Heavy Vehicle Mechanics 78
- D124B Heavy Vehicle Mechanics 78
- D124C Heavy Vehicle Mechanics 78
- D125 Motor Cycle Mechanics 78
- D127A Light Vehicle Mechanics 79
- D127B Light Vehicle Mechanics 79
- D127C Light Vehicle Mechanics 79
- D127D Light Vehicle Mechanics 79
- D127E Light Vehicle Mechanics 80
- D128A Construction Plant Fitters 80
- D128B Construction Plant Fitters 80
- D128C Construction Plant Fitters 80
- D130 Motor Vehicle Partsman 81
- D131A Light Vehicle Body Repair 81
- D131B Light Vehicle Body Repair 81
- D134 Automobile Engineering Technicians 81
- D136 Automobile Engineering, Refresher Course 82
- D140 Fitting and Turning 82
- D140A Fitting and Turning 82
- D141 Fitting and Turning 82
- D142 Toolmaking 82
- D154 Aeronautical Engineering Craft Studies 83
- D154A Aeronautical Engineering Craft Studies (Mechanical) 83
- D154B Aeronautical Engineering Craft Studies (Avionic) 83
- D155 General Aircraft Mechanics 83

---

Notes: All courses are offered on a part-time basis at various locations throughout the year. For more information, please contact the College's enrolment office.

**Institiúid Teicneolaíochta Bhaile Átha Cliath**

**AN COLÁISTE TEICNEOLAÍOCHTA SRAÍD BHOLTÚIN**

Is cuid d’Institiúid Teicneolaíochta Bhaile Átha Cliath an Coláiste seo.
Cuireadh an t-Institiúid ar bun sa bhliain 1978 chun na coláistí den tríú leibhéil atá faoi chóram Choiste Gairm-oideachais Cathair Átha Cliath a chomhnaíochadh. San Institiúid tá breis is 1,500 foireann teagaisc agus 20,000 mac léinn.

Tá an Coláiste seo faoi stiurú ag Comhairle an Choláiste, fo-choiste den Choiste Gairm-oideachais. Tá scolanna sa Choláiste, mar a leanas:–

Ailtireacht, Suirbhéireacht agus Tógálaíocht
Innealtóireacht
Cló dóireacht
Ceardanna

Tá cursai lán-aimsire agus páirt-aimsire ar fáil ar leibhéal na teicneolaíochta, teicneoireachta agus ceardanna. Tá deontas Stait agus scoláireachtaithe inoichtha, i gcásanna airthe, do mhic léinn.

San mbunéolaire seo, tá cur sios ar na cursai éagsula, na cáiliochtaí iontrala agus na cáiliochtaí gur féidir a bhaint amach (teastas, barrántas, comhaltachas i gcomhair na gairmiúla nó ceim olstaí).

Tagann na dáithi ó gach cuid den tír, cuid acu ón Gaeltacht, cuid eile ón laisacht. Tá suil ag lucht an gColáiste go nglacfaidh na mic léinn páirt gniomhach i saol an Choláiste.
INTRODUCTION

Historical Note: In 1887 the first City of Dublin Technical School was established, and from this initiative the present system of schools and colleges later developed. The college building in Bolton Street was opened in 1911 and provided for education in Building, Engineering and Printing, lines of specialisation which have continued down to the present day.

The first whole-time day courses commenced in 1920 with the inauguration of the Apprentice Scholarship Scheme. With the establishment of an Irish Government, technical education came within the province of the Department of Education and a Commission set up in 1926 made recommendations on development which led to the Vocational Education Act of 1930. The system of schools and colleges expanded in succeeding decades under the City of Dublin Vocational Education Committee, and the Bolton Street College was enlarged by new buildings in 1958 and 1963. The development of professional and technician courses began in the 1940's and these over the years gained the recognition of professional and vocational bodies in Ireland and other countries.

The College operates under the City of Dublin Vocational Education Committee. The CDVEC is assisted by a number of committees, including a Governing Body for Dublin Institute of Technology, College Councils for each of its six Colleges, a joint Academic Council, an Apprenticeship Board and a Buildings Committee.

Dublin Institute of Technology: In 1978 the Dublin Institute of Technology was established by the Vocational Education Committee to co-ordinate the work of its six colleges. Bolton Street is the largest of the colleges, the other constituent Colleges being the College of Technology Kevin Street, the College of Commerce, the College of Catering, the College of Music and the College of Marketing and Design. Its work and awards have attained national and international recognition by academic, professional and industrial institutions. Over 1,500 teaching staff are primarily concerned with teaching 24,000 students attending whole-time and part-time third level and apprentice courses. The Institute is also involved in research and development, and there is a growing demand for advisory and consultative services from institutions in developing countries, as well as in Ireland. The Colleges of the Institute have played a leading role in the evolution of technical and technological education in Ireland and continue to be involved with the latest developments in technology and commerce, maintaining their commitment to industrial, economic and cultural development.

College of Technology Bolton Street: The College provides a wide range of courses on a full-time, part-time evening and block release basis, as well as some short courses. It has a total teaching establishment of 350 and caters for 7,500 students. The College aims to provide an integrated system of education from craft apprenticeship to degree and professional levels in the sectors for which it has special responsibility. These include the Construction, Engineering, Printing and Transport industries and it plays an important national role in responding to their needs.

College Council: The general direction of the affairs of the College is under the control of the College Council which is a sub-committee of the V.E.C. The Council consists of nine members nominated by the V.E.C., the Principal of the College, a member of academic staff elected by the staff and one student member nominated by the students' union. Its terms of reference include approval of annual estimates of expenditure, approval of the range of courses offered, staff and student matters, responsibility for buildings and other facilities, and generally examining any major proposals for development of the College.

College Executive Board: The College Executive Board helps in co-ordinating the work of the College and its academic programmes. It comprises the Principal, Heads of Schools, and Heads of Departments.

College Academic Board: The Academic Board has responsibility for approving and monitoring of courses leading to College/DIT awards, including examinations and student admission requirements. It also has an important role in promoting research and developing College academic policy. Its membership comprises the Principal, Heads of Schools, Heads of Department and other nominated members.

Departmental Boards: Departmental Boards are concerned with the development of courses and facilities at Departmental level. There are Course Committees to advise on development of major courses. There are also Advisory Committees for major disciplines which assist the College in keeping courses abreast of developments in the professional and industrial fields.
GENERAL INFORMATION & REGULATIONS

(a) Degree Level Courses in C.A.O. Scheme
The following degree level courses are in the CAO scheme. Graduates of these courses are eligible for DIT Diplomas. They are also eligible for degree awards of the University of Dublin (Trinity College).

* These four courses have a common First Year. In accordance with students' choice, performance in First Year College examinations and the number of places available on each course, they will be assigned places on one or other of the courses before entering Second Year.

Applicants for any of the above degree level courses in the CAO scheme should apply directly to:

The Central Applications Office,
Tower House,
Eglinton Street,
Galway.

It is essential that applicants adhere to the procedures described in the CAO Handbook.

CAO Closing Date: Irish Applicants – 1st February 1986 (5.30 p.m.)

Application Fees:
Irish Applicants .................................. IR£17.00
Late Application Fee ................................ IR£40.00

(b) Technician & Other Wholetime Courses
Application for admission to technician and other wholetime courses not in the CAO system should be made to:

The Dublin Institute of Technology,
Admissions Office,
14 Upper Mount Street,
Dublin 2.

not later than 1st February, 1986 on the standard form available on request.

Documentary evidence of qualifications, if available, should accompany applications.

D.I.T. Application Fees:
Applications received on or before 1st February 1986 .... IR£ 5.00
Late Applications (2nd February – 1st March 1986) .... IR£10.00

Applicants (except overseas, transfee and mature applicants) will be sent a written communication in early August, advising them of the necessity of confirming their application.

At the same time, applicants will be offered a "change of mind" facility. The confirmation of application is an ESSENTIAL part of the application procedure and applicants who do not return the appropriate documentation to the Admissions Office of D.I.T by the specified date will NOT have their applications processed or considered further by the Institute. Please refer to the DIT Admissions Handbook for further details.

(c) Part-time and Evening Courses
It is not necessary to make application for admission to part-time and evening courses in advance of the enrolment date for the course.

Enrolment will commence on 16th September 1985, and intending applicants should report in person to the College during the scheduled enrolment hours.

Before acceptance of an application for admission to classes or courses applicants may be required to attend for interview. The College may also require an applicant to sit an aptitude or other test.

Successful applicants for wholetime courses will be notified in writing in early September and invited to register for the course immediately. Students attending for registration and enrolment are required to have the following:

(a) Letter of admission to the course, or CAO offer notice Part II.
(b) Three copies of a recent passport type photograph signed on the back.
(c) Tuition fees for the Session or CAO offer notice Part II showing bank stamp on reverse side, or a letter from a Local Authority or other recognised body confirming that it will be responsible for the payment of tuition fees.

The latest date for completing enrolment for classes commencing in the first term is 30th October or such earlier date as may be prescribed. Only in exceptional circumstances and subject to the additional payment of a late fee of £30 will applicants be admitted after that date.

All students are required to have a current College Identity Card. Students who were enrolled in the College in previous sessions must surrender the Identity Card previously issued to them. The Identity Card is the property of the College and may be demanded by the College or its Officers at any time.

Students are therefore required to have their identity cards with them at all times while in the College. A charge of £2 will be made for the replacement of a College Identity Card and new photographs will be required. Change of address or place of employment should be reported to the Registration Department immediately.

Change of classes or courses may be made only with the consent of the Head of Department.

Applicants are placed in order of educational score merit in accordance with the points system shown below, allocated to the best results in five subjects (technician courses) or six subjects (degree level courses) obtained in one or more school leaving examinations, having regard to the relevant course entry requirements. Generally demand exceeds the number of places available and qualifications above the minimum are required.

In the case of the Architectural courses (i.e. D1 and D8) applicants will be required to take a suitability test and this will be used in determining which applicants are called for interview. The results of suitability tests and
General Information and Regulations

Interviews will be combined with the total educational points scored in the best five or six subjects referred to above to give an overall rating. It is anticipated that these tests will be held in April 1986. Applicants who have not been notified by the end of April as to when they should take their test should contact the College.

In the case of the professional/degree level courses in Engineering and Surveying (i.e. D42M, D42P, D42S, D42B, D3 and D4) the selection will be based on the direct educational score in the best six subjects as already described. In the case of all other courses qualified applicants may be called for interview and the results of this will be combined with the educational score on the five best subjects to give an overall rating.

Applicants should note carefully the specific course entry requirements before entering the course preference order in the application form.

### POINTS WEIGHTING FOR DIFFERENT SCHOOL EXAMINATION GRADES

Enhanced Points Weighting for Engineering Courses FT04 which are awarded only in respect of Higher Leaving Certificate Papers.

The following points scores are awarded to grades A to C on the Higher Leaving Certificate paper in Mathematics. A = 14, B = 12, C = 10.

The following points scores are awarded to grades A to C on the Higher Leaving Certificate papers in Physics, Chemistry, Physics with Chemistry, Applied Mathematics and Mechanics. A = 11, B = 9, C = 7.

### Special Cases

(a) **Mature Students**

A mature student who is at least 24 years of age or over at the time of enrolment and who does not meet the normal minimum admission requirements may be considered for admission to appropriate courses after attending in person for interview and satisfying the College Authorities as to his/her ability to benefit from the proposed course. Such applicants may also be required to sit and pass an entrance test or a suitability test before admission to any course.

(b) **Overseas Students**

Overseas students seeking admission to the College should apply to the Dublin Institute of Technology, using the standard application form available on request. When completed this should be forwarded with documentary evidence of qualifications in English (translations should be certified by an appropriate authority) showing subjects passed, levels and grades obtained.

Because of the large number of applications received each year from qualified Irish applicants, and the limited number of places available, the College regrets that it has to limit admission of overseas applicants to the small quota of places reserved for those who are sponsored by official agencies linked to Ireland's development aid programme.

The minimum entry requirement to technician level courses is the General Certificate of Education Ordinary Level in six subjects, including good passes in English and Mathematics, or equivalent qualifications.

Applicants for professional or degree level courses are also required to have at least two good G.C.E. Advanced Level subjects or equivalent.

Applicants must satisfy the College as to their proficiency in written and spoken English.

No application will be accepted from overseas applicants for admission to part-time day or evening courses unless resident in Ireland.

(c) **Trade Students**

Students holding the Senior Trade Certificate of the Department of Education with one endorsement in mathematics or a science subject satisfy the minimum entrance requirements for courses in the DIT Colleges which specify a pass in five subjects in the Leaving Certificate Examination as the entrance requirement. Students holding this Certificate with three endorsements in academic subjects are eligible for consideration for entry into related professional/degree level courses provided that they also meet any special entry requirements (e.g. Higher Level Mathematics for Engineering courses). Where endorsement subjects are not offered in the trade examinations, a pass in an appropriate subject of the Elementary Technological Certificate Examinations of the Department of Education is an acceptable equivalent.

(d) **Holders of N.C.E.A National Certificates and Diplomas or Similar Level Awards**

Applicants should request the College, where they have studied for these awards, to forward in confidence to the Admissions Office a full transcript of results (including subjects studied and grades obtained) not later than July 31st. The application will not be processed until this has been received.

Only candidates with very high level of attainments have prospects of gaining admission because of the limited number of places available.

(e) **Applicants Seeking Exemptions from one or more years of a Course**

As in (d), such applicants should ask their former College to forward in confidence to the Admissions Office a full transcript of previous attainments which it is claimed will justify the exemptions sought. The application will not be processed until this is received.

General Information and Regulations
### General Information and Regulations

**Scholarships and Grants**
- **Local Authority**
  - Irish and overseas students from Local Authority where their parents or guardians normally reside are eligible for Higher Education Grant. Information on eligibility conditions and application forms are available from the appropriate Local Authority (County Council or Corporation).

**Fees**

**Notes**
- **Overseas Students from Non-EEC Countries**
  - **IRE1620**

**Fees**

- **Grants and Scholarships**
  - **Local Authority Grants**: Students who register for the Diploma/Degree level courses conducted by the College are eligible to apply to the Local Authority where their parents or guardians normally reside for a Higher Education Grant. Information on eligibility conditions and application forms are available from the appropriate Local Authority (County Council or Corporation).

**Trade Courses**

- Trade courses are provided for the sole purpose of supplementing the practical trade training of persons actually employed and engaged in the various operations of the trade. The College realises that it is impossible for a person to learn a trade solely by attendance at these classes and is further of the opinion that the admission to the classes of persons not actually engaged in the trades would be not only of little use to such persons but...
Classes

Day classes will normally be held during the period 9.00 a.m. to 1.00 p.m. and 2.00 p.m. to 5.00 p.m. each weekday. Evening classes will normally be held from 7.00 p.m. to 10.00 p.m. except where otherwise arranged.

Formation and Continuance of Classes

The College reserves the right to change any or all of the syllabus, the day and time of meeting of any class and may cancel classes where the enrollment or attendance is considered inadequate. If for some reason a teacher is unable to attend, classes may be cancelled without notice.

Examinations

The College conducts its own examinations for a number of the professional and technician courses. These are moderated by external examiners and lead to College awards. The College also offers courses leading to examinations and awards of external bodies for which it is an approved examination centre. Students are required to acquaint themselves with the examination and promotion regulations of the course for which they enrol.

Entry Regulations

An examination entry fee of £20.00 is payable in respect of College sessional examinations and in the case of supplementary examinations a further fee of £20.00 is payable. Where examinations lead to an NCEA Certificate or Diploma, an additional fee is payable (for details see under National Council for Educational Awards).

Students should note that those not achieving a minimum average attendance of 75% in each subject of their course, without a satisfactory explanation, will be refused permission to sit College examinations.

Applications for entry to examinations received after these closing dates will be considered only in exceptional circumstances and at the discretion of the College Examinations Executive Board. Such applications are subject to a late entry fee of £20.00. The closing dates each year for receipt of College examination entry forms and fees are 31st January for the Summer examinations and 31st July for the Autumn examinations. No application for entry to College examinations will be considered if received later than 1st March for Summer examinations or 15th August for Autumn examinations.

Students should note carefully the Examination Rules and Regulations which are printed on the Examination Entry forms and the Examination Timetables.

Promotion Regulations

Promotion to a higher year or stage in any subject is contingent on reaching the required standard in the sessional examination in the lower grade. A candidate unsuccessful in a sessional examination may be permitted to sit a Supplemental examination, in relation to the same session, where such is offered in accordance with the regulations established for the course. Candidates who do not complete an examination in all subjects of the year or stage, or who are required to submit additional work, e.g. project or thesis, to the Examination Board for assessment before graduation or promotion to the next year of the course, must re-enter for that examination before 31st January and pay the appropriate fees.

Students are required to submit regularly such project work and course work as may be prescribed by members of the academic staff and this will be taken into account in the assessment at the end of the session.

A laboratory notebook must be maintained by each student of a laboratory class. An assessment will be made at the end of the session of each student’s progress in laboratory techniques and experimental ability which will count in the sessional examination in that subject.

General Examination Information

Candidates will be admitted to the Examination Room only on production of the Identity Card issued by the College in addition to the appropriate admission letter which is issued when and if an application to sit the examination is approved by the College.

Students seeking a re-check of an examination result should submit a written request, within two weeks of the publication of provisional results, specifying the grounds on which the request is made.

Students wishing to appeal against an examination result must submit a formal written application on the standard form, available from the College Examinations Office, within two weeks of the publication of provisional results. Formal appeals must be accompanied by a fee of £20.00 and be submitted to the Principal or Examinations Secretary. The College accepts re-checks and appeals on the understanding that it may not be in a position to inform the student of the result prior to the date for entry or sitting a Supplemental Examination.

Other Examinations

The College is a centre for a number of external examinations including the Department of Education and the City and Guilds of London Institute. Application for entry to these examinations must be made through the College Office in accordance with the closing dates as indicated on College Notice Boards.

In connection with the examinations of professional and other external bodies, students are advised to note the following:

1. Admission to a course in the College may not of itself entitle students to sit for examinations of external bodies. Students are themselves responsible for ensuring that they satisfy all the requirements of the examining body concerned.

2. Students are expected to acquaint themselves with the current regulations for the examinations which they propose to take.

3. Students must make the necessary applications and provide all documents that may be required.

4. The College Authorities will give assistance and advice in the above matters.
National Council for Educational Awards

The NCEA was established by the Government in 1972 and awards qualifications in a number of areas of study in non-university institutions. At present students in the Engineering and the Geo-Surveying Technician’s Certificate and Diploma courses receive NCEA awards in addition to College awards. Additional examination entry fees are payable in respect of these awards as follows: First Stage £32.00, Certificate Stage £32.00 and Diploma Stage £40.00. These fees are subject to revision.

University of Dublin

The City of Dublin Vocational Education Committee and the University of Dublin have entered into a formal agreement by which degree awards of the University are available to students of the College who successfully complete certain courses in Architecture, Engineering and Surveying. Details relating to these awards are given under the individual course entries.

General Regulations

General regulations for Colleges and classes operating under the Authority of the City of Dublin Vocational Education Committee are displayed in the Entrance Hall. All students are subject to these regulations and the regulations of Dublin Institute of Technology, together with more specific College regulations.

All College staff are authorised to enforce immediate disciplinary measures in respect of students whom they find violating the regulations of the College or otherwise misconducting themselves. The full co-operation of each student is invited in order to maintain the dignity and discipline of the College.

Students are not permitted to smoke in the College classrooms, laboratories, lecture theatres, workshops, library or gymnasium. Parking of pedal and motor cycles in the space provided in the College grounds is normally prohibited. Students are not permitted to bring cars into the College parking area.

Students may use the facilities of the College, including the Gymnasium, on the understanding that they do so at their own risk. Though all reasonable care is taken, the College accepts no liability for student property lost, stolen or damaged on the College premises or grounds.

Locker accommodation is available for a considerable number of students on payment of a fee of £10.00 per session. This includes a deposit of £5.00 returnable only if the locker is vacated within seven days of the expiry of the period for which the locker has been granted, i.e., before the end of the academic session.

Office Hours

Office Hours: 9.00 a.m. to 12.45 p.m. and 2.15 p.m. to 5.00 p.m. Monday to Friday, and in the evenings at special periods of the year at times which will be posted on the Notice Board. Except during enrolment periods, members of the staff will not be available for interviews or consultations except by prior appointment.

The Accounts Office will deal with enrolments and examination entries at the following times:

9.00 a.m. – 12.00 noon
2.00 p.m. – 4.00 p.m.

Cafeteria Facilities

The College Cafeteria is open throughout the session for lunches, teas and morning and afternoon snacks.

The Library

The Library plays a vital part in the academic structure and programmes of the College. It provides a comprehensive information service, and study facilities for students and staff. While the emphasis in the book collection is on the major college disciplines, there is a gradual build-up of other subject areas. A phased development plan is under way to increase the total stock from the existing 30,000 volumes to 40,000 volumes.

The Library also receives 600 current periodicals. The Library maintains close links with the City of Dublin Public Library system of which it forms part and it has access to the total holdings of that system. It also has close links with the Libraries of Foras Forbartha, the Institute for Industrial Research & Standards, the Universities and other Research Institutes both here and abroad. Through these links, photocopied material and books on inter-library loan may be quickly obtained. By arrangement, facilities may also be provided for staff and senior students to use these libraries for research purposes.

The Library contains an open access stack area, a periodicals and reference area and a reading area which provides seating for 200 readers. A lending scheme is in operation for all books. There is a coin operated photo-copying machine in the library for the use of readers.

First year students are given introductory lectures on the use of the library by the librarian. Library publications include a current list of periodicals and a monthly acquisitions list.

Hours of Opening:

Term I & II Monday to Friday 9.30 a.m. – 9.30 p.m.
Saturday 9.30 a.m. – 1.00 p.m.
Third Term Monday to Friday 9.30 a.m. – 9.30 p.m.
Saturday 9.30 a.m. – 5.00 p.m.
Vacation Period Monday to Friday 9.30 a.m. – 5.30 p.m.

The Students’ Union

The Students’ Union is the students’ representative body in the College. Every student becomes a member of the Union on enrolment. The Union is democratically based and it is dependent for its effectiveness on the involvement of its members. It is administered by an Executive which is elected by the student body. The Union President is a full-time sabbatical officer with a wide range of tasks and responsibilities.

Each class in the College elects a representative to the Students’ Union Council. In addition College Societies and the Union Executive are represented on the SUC and it is a forum for discussion and decision making. The ultimate decision-making body of the Union is the General Meeting which is a meeting of the whole student body.

Functions of the Union:

1. To represent the views of its members.
2. To conduct the affairs of the Union.
3. To promote the interests of the students.
4. To seek to improve the facilities and services for students.
5. To maintain discipline and encouraging high standards of conduct.
6. To promote student involvement in the College.

The Students’ Union also conducts its own internal affairs through the Executive Committee. It maintains links with the Students’ Union of the University of Dublin and other bodies both here and abroad.

Each class in the College elects a representative to the Students’ Union Council. In addition College Societies and the Union Executive are represented on the SUC and it is a forum for discussion and decision making.

The ultimate decision-making body of the Union is the General Meeting which is a meeting of the whole student body.

The ultimate decision-making body of the Union is the General Meeting which is a meeting of the whole student body.
Services

Student Services

Since September 1981, a centralised Student Services Office has provided services to the students of all of the DIT third-level colleges in the areas of welfare, sporting and social activities. The Office operates under a Student Services Council, consisting of the College Principals (or their nominees) and the Students' Union Presidents. The Council is assisted by three working parties, representative of staff and students, to oversee the day to day work in these three areas and it has a pool of information and expertise available to any student in the system who feels that he/she needs advice or assistance.

From late August every year, a comprehensive list of 'digs' type accommodation is available from the Student Services Office. There are separate lists for the Northside and the Southside, and while 'digs' predominately, there is also some information available on a number of flats and bedsits.

More detailed information can be had from officers of the College Students Union. The Office produces a newsletter, the Student Services Bulletin, during the year to keep students up to date on its activities.

General Information and Regulations

2. To provide recreational and social facilities for its members. These include lunchtime concerts, parties, dances, and guest speakers. The Union also maintains a Common Room where students may meet, have discussions or just relax.

The College Societies are also under the umbrella of the Union and, as well as parties, they organise trips, lectures and concerts. The Sports' Council acts as the co-ordinating body for the many sporting activities in the College.

3. To provide services for members.

The Student Shop (D1) provides stationery, newspapers, sweets, drawing equipment and textbooks. It also issues International Student Identity Cards and provides information on Student travel.

Union Offices: Room D1.

Student Services

GENERAL REGULATIONS

of the
DUBLIN INSTITUTE OF TECHNOLOGY

Students are admitted subject to the regulations
of the Institute and its Colleges as amended from time to time

REGISTRATION

1. The application and enrolment dates for courses offered in the Institute shall be as published annually by the Institute.

2. Fees must be paid in full on enrolment and before admission to class by cash, bankers draft or money order or guarantee from granting body.

3. Intending students should note the Entry Requirements for admission to the various courses. Before acceptance of an application for admission to classes or courses, the applicant may be required to attend for interview and the College must be satisfied as to his/her ability to benefit from the proposed classes or course. Approval in this respect must be endorsed on the enrolment form by the designated College authority. A College may require an applicant to pass an entrance test and/or a suitability test before admitting him/her to any class or course.

4. Only in exceptional circumstances and subject to the additional payment of a late fee of £30 will applicants be admitted after the enrolment dates as referred to in 1.4.

5. The sole proof of enrolment in any class or course in the College is the Official Receipt for the class or course fees paid. The Official Receipt must also prove to the Lecturer on first attendance at each class of the course. Lecturers are authorised to refuse admission to classes of students who do not show their Official Receipt.

6. Fees are not refundable except where a class or course does not form.

7. New students will be issued with an Identity Card. For this purpose and for the College records students must provide, at their own expense, three copies of a recent photograph (not returnable) of passport type and size. Students who were enrolled in the College in previous sessions must present the Identity Card previously issued to them for re-endorsement for the new session. Where Identity Cards have been lost or are no longer usable, the College should be informed as soon as possible and three copies of a recent photograph must again be provided as in the case of first enrolment. Students should note that an appropriate charge will be made for replacement of Identity Cards. The Identity Card is the property of the College and may be demanded by the College or its officers or agents at any time. Students are, therefore, required to carry their Identity Cards with them while in College or whenever they may be required to identify themselves as students of the College.

8. The onus is on the student to notify change of address or place of employment to the Secretary/Registrar immediately.

9. The College Principal, subject to the approval of the Vocational Education Committee and the Academic Council, may change any course and any or all of the examination regulations; the relevant students shall be given due notice of any such change.

10. The College Principal may change the day and time of any class and may cancel classes where the enrolment or attendance is considered inadequate. If for some reason a lecturer cannot attend, classes may be cancelled without notice.
11. No exchange of classes may be made after enrolment without the written consent of the Principal.

12. **Overseas Students**

Overseas students are required to hold the Leaving Certificate of the Department of Education or the General Certificate of Education Ordinary Level in six subjects including English and Mathematics or equivalent qualifications. Applicants for professional or degree level courses are also required to have a minimum of two GCE Advanced Level subjects or equivalent.

It may be requested that applications be accompanied by a letter of recommendation from the Diplomatic Representative of the country of origin in Ireland, or, where there is no such representative, from the Ministry of Education in the country of origin.

No application will be accepted from overseas applicants for admission to part-time day or evening courses unless resident in the country.

**STUDENT DISCIPLINE**

1. Students are expected to participate in the College activities in a manner conducive to establishing a sound educational atmosphere.

2. All students are required to observe the published regulations laid down by the College.

3. Any student engaging in, or causing disruption of, a legitimate College activity may be suspended from the College.

4. Students must at all times obey the lawful instructions of lecturers and other members of the College staff who are responsible for the maintenance of good order.

5. Misconduct in any of the Colleges comprising the Institute may lead to suspension by the College Principal of the student or students concerned.

6. Students are liable for the cost of repair or replacement of Institute or College property maliciously or negligently damaged by them.

7. Students are not allowed to smoke in College except in areas designated for smoking.

8. Students will be issued with an Identity Card on enrolment. The Identity Card is the property of the College and may be demanded by the College or its officers or agents at any time. Students are, therefore, required to carry their Identity Cards with them while in College or whenever they may be required to identify themselves as students of the College.

9. The Vocational Education Committee reserves the right to expel from the College at any time any student whose conduct is in serious breach of the regulations.

10. Only College or Institute societies and clubs may advertise in the College. Students may only display posters and notices on the designated notice boards with the permission of the College Secretary/Registrar in the College concerned.

11. Student groups wishing to hold meetings in the College should make application in advance and receive the permission of the Secretary/Registrar before such meetings take place.

12. Alcoholic drink may not be brought into the building or grounds of the Institute without the prior permission of the College Principal.

13. Students are forbidden to park cars/bicycles/motor cycles except in such places as they are authorised to do so from time to time.

14. The College Secretary/Registrar must be consulted in advance if College Organisations or Student Unions propose to arrange parades, collections, demonstrations or any other activities of this kind, using the name of the Dublin Institute of Technology, or the name of any of the Colleges comprising the Institute. Approval is given on the understanding that relevant bye-laws and upon such conditions as are set down by the College are understood and will be observed.

Notice to the appropriate public authorities, where required, should be arranged well in advance. Individual students participating in the name of the College in any activity outside College remain subject to the general regulation that students' conduct shall not bring the College into disrepute.

An appeal by a student against a decision on disciplinary matters may be made by the student through the College concerned to the Disciplinary Appeals Board of the Institute; the Board shall comprise a membership as follows:

(i) Chairman of the Institute or a member of the Committee acting on the Governing Body and nominated by the Chairman;

(ii) The Chief Executive Officer;

(iii) A College Principal of another DIT College;

(iv) A Student Representative.

No member of a disciplinary committee may be a member of the appeals board.

**ATTENDANCE**

1. A full attendance at classes in all subjects of the course is expected, a minimum attendance of 75% in all subjects of the course is required.

2. Students who fail to comply with this requirement without satisfactory explanation to the College Secretary/Registrar will be refused permission to sit College examinations, and endorsement of their entries for external examinations will similarly be refused.

3. The Vocational Education Committee may expel any student without refund of fees, for irregular or unpunctual attendance. Three successive absences or unsatisfactory attendance from any class may lead to suspension from the entire course, unless a satisfactory written explanation is submitted to the Principal.

4. Students must provide themselves with such books, instruments and equipment (including special clothing) as their classes may, in the opinion of the College, require. Safety precautions, and such other regulations as the work of the College may require, must be observed as prescribed.

5. Students are required to keep such notebooks and record books, and to undertake and submit by the dates specified such course work and assignments as specified by members of the teaching staff. Failure in this respect may lead to suspension or expulsion.

6. Apprentices should note that details of employment and the attendance of all apprentices enrolled in release courses are made available to the relevant authority and employer.

Approved JULY 1981
Architecture, Surveying and Building

Students undertake a number of community-based projects each year as part of their programmes. This illustration is taken from a report on a Donegal Town study.

The School provides courses at technological and technician levels for occupations within the building industry, and brings together in the process of education those who will work together professionally in later careers.

The Architect is responsible for the design and supervision of building projects.

The Construction Economist, as quantity surveyor, is concerned with the cost implications of project designs and the financial management of building operations.

The Building Manager is concerned with production management of the building process.

The Environmental Economist has a similar role in the wider range of urban development and planning, or in estate management.

The Geo-Surveyor is concerned with the land itself, its nature, its resources, and the measurement and definition of these.

Employment opportunities in all cases exist in a range from personal professional consultancy to employment in architectural and building organisations and in State or municipal departments.

Success in the third year of the Diploma in Architecture Course gives exemption from the Intermediate Examinations of the RIAI.</td>
</tr>
</tbody>
</table>
Career Opportunities

The qualification is for the profession of Architect. Architects are concerned with the design of buildings and supervision of building projects. They may practice in a personal professional capacity, or in employment in private and public sector organisations. The field of practice is quite extensive in Ireland and abroad and may offer alternatives of general practice or specialisation throughout a career. Graduates from the course to date have found employment either in private practice or in the public service. Some spend a time abroad to gain wider and more varied design experience.

The course and the career require a creative aptitude for design on the scale of architecture and the organisational ability for its implementation in practice. The range of subject-matter in the course is wide, and calls for an interest and ability in artistic and cultural aspects as well as in technical matters and in managerial skills.

D8 ARCHITECTURAL TECHNICIAN DIPLOMA

This is a three-year wholetime course leading to an Architectural Technician Diploma award. It aims to give the student a high standard of architectural and technical drawing and presentation, with a good knowledge of building construction, materials, methods and equipment. The course uses the project system extensively during which students are required to prepare working drawings, details, schedules etc. for building work. Lectures in selected subjects such as Building Construction, Structures, Materials and Services are integrated with the projects as far as possible. During the summer vacation period students are encouraged to obtain suitable practical work experience to complement their College training.

Entrance Requirements

Leaving Certificate with passes in five subjects including Mathematics and English or equivalent qualifications. Applicants will be required to undertake an aptitude test, and if successful in this they are also interviewed as part of the selection process.

Course of Study

First Year

Second Year

Third Year

Awards:

Graduates from this course are eligible for the following award:

Architectural Technician Diploma (Dublin Institute of Technology)

This Diploma is recognised for Membership by the Institute of Architectural and Associated Technologists, and for Technician Membership by both the Incorporated Association of Architects and Surveyors, and the Royal Institute of the Architects of Ireland. It is also recognised for Associate Membership of the Society of Architectural and Associated Technicians (SAAT) in the U.K., and for full Membership subject to approved post-graduate experience.

Career Opportunities

The majority of graduate Architectural Technicians are employed in private professional architectural offices. Other areas of employment are the architectural and technical sections of Government Departments, State bodies, Local Authorities, and the building industry generally, with Contractors and Manufacturers.

A number choose to work overseas for a few years to gain useful and wider experience.

D3 ENVIRONMENTAL ECONOMICS – DIPLOMA/DEGREE

This is a four-year wholetime course which prepares students who wish to make their careers in Environmental Economics and Valuation Surveying. It is designed for those who wish to work as valuers, estate agents, property advisors, developers and planners. The course provides a sound general education in the different aspects of this field, with emphasis on the practice of environmental economics. Students are encouraged to gain professional work experience during the summer vacations and in this way they are introduced to applying their technical knowledge to practical problems, working individually, or within a team.

Entrance Requirements:

The minimum educational qualifications required for entry are the Irish Leaving Certificate with passes in six subjects, at least two of which must be at Grade C or higher in higher level papers or equivalent qualifications. The six subjects passed must include Mathematics and English.

Course of Study

First Year:

Construction Technology & Environmental Science, Economics, Law, Quantitative Methods & Computing, Valuations and Professional Development.

Second Year:

Third Year:

During this year students undertake a major integrated project.
Fourth Year  Planning, Urban Economics, Valuations.

In the Fourth Year each student prepares a major dissertation as part of the Final Examination.

Awards

Graduates of this course are eligible for the following awards:

Diploma in Environmental Economics (Dublin Institute of Technology)
Bachelor of Science (Surveying) (University of Dublin).

Upon successful completion of a test of professional competence, holders of these awards are eligible for Corporate Membership of the Royal Institute of Chartered Surveyors (General Practice Division). They are exempted from the Intermediate Examination of the Royal Town Planning Institute and are also accepted for entry to appropriate Post-Graduate courses in Ireland and abroad. The course is also recognised by the Irish Auctioneers and Valuers Institute.

Career Opportunities

The qualification is for the profession of Chartered Surveyor, which includes occupations in the field of construction and property management. Environmental Economists are concerned with the broader areas of land and property development, valuation surveying, estate management and town planning. They are employed in private and public organisations such as property development companies, valuation consultants, local authorities and the national valuation office.

The courses and careers in the discipline of Surveying call for an interest and ability in the financial and legal aspects of the construction industry, and in the managerial skills applied to building and property developments. To date, Environmental Economists have obtained suitable employment, mostly in private practice, but also in areas such as the financial investment departments of banks and insurance companies.

Dept. in Charge  Surveying & Building Technology

D4  CONSTRUCTION ECONOMICS – DIPLOMA/DEGREE

The minimum educational qualifications required for entry are the Irish Leaving Certificate with passes in six subjects, at least two of which must be at Grade C or higher in the higher level course or equivalent qualifications. The six subjects must include Mathematics and English.

Fourth Year: Building Economics, Construction Administration & Management, Measurement.

In the fourth year, each student prepares a major dissertation as part of the final examination.

Awards

Graduates of this course are eligible for the following awards:

Diploma in Construction Economics (Dublin Institute of Technology)
Bachelor of Science (Surveying) (University of Dublin).

Upon successful completion of a test of professional competence, holders of these awards are eligible for Corporate Membership of the Royal Institute of Chartered Surveyors (Quantity Surveyors Division), and the Construction Surveyors Institute. The Chartered Institute of Building requires graduates to undergo an additional examination in management subjects and satisfy an interview board as to their professional experience before admitting them to membership. Graduates are also accepted for entry to appropriate Post-Graduate courses in Ireland and abroad.

Career Opportunities

The qualification is for the profession of Chartered Surveyor, which includes occupations in the field of construction and property management. The Construction Economist is concerned with the more detailed aspects of the construction and site development. He may specialise as a quantity surveyor, in which case he analyses building design for purposes of cost planning and, later, detailed tendering and cost control. Alternatively he may practice as a building manager with responsibility for the organisation of contracts, for labour, materials, plant, and negotiations with main and sub-contractors.

The courses and careers in the discipline of Surveying call for an interest and ability in the financial and legal aspects of the construction industry, and in the managerial skills applied to building and property developments. In general, Construction Economics Graduates have obtained employment in quantity surveyors offices and in the construction industry with contractors and developers.

Dept. in Charge  Surveying & Building Technology
CONSTRUCTION TECHNICIAN CERTIFICATE / DIPLOMA
This is a full-time course leading to a Construction Technician Certificate award after two years and a Diploma award on completion of an additional year. It is designed to meet the needs of the construction industry for technical staff having a sound understanding of the principles of construction and construction materials, together with a good appreciation of management skills and the economics of the industry.

Entrance Requirements
First Year: Leaving Certificate with passes in five subjects, including Mathematics and English, or equivalent qualifications.
Third Year (Diploma Stage): Applicants are expected to have reached a good standard at the end of the Certificate or Second Year, or possess an equivalent qualification acceptable to the College.

Course of Study
First Year: Mathematics; Science for Technology; Land Surveying I; Accountancy; Construction Technology I; Measurement I.
Second Year: Builders' Accounts; Land Surveying II; Estimation and Price Build up; Construction Technology II; Measurement II; Computer Usage.
Third Year: Construction Law; Management; Economics; Construction Technology III; Measurement and Specification III; Variations.

Awards
Students who successfully complete the course are eligible for the following awards:
Construction Technician Certificate (Dublin Institute of Technology)
Construction Technician Diploma (Dublin Institute of Technology).

Career Opportunities
These awards are particularly suitable for those who wish to attain positions relating to production planning, purchasing, quality control, estimating, surveying, inspection and general administration in the Construction Industry.

Dept in Charge Surveying & Building Technology

D5A GEO-SURVEYING TECHNICIAN CERTIFICATE / DIPLOMA
This full-time course prepares students for a Technician Certificate award in Geo-Surveying after two years and a Technician Diploma award on completion of an additional year. There is a good balance between the theoretical and practical aspects of Geo-Surveying thereby ensuring a sound understanding of the applications of its technology. Project work is a significant feature of the course and it is an important element in the overall assessment.

Entrance Requirements
First Year: Leaving Certificate with passes in five subjects including Mathematics and English or equivalent qualifications. Preference will be given to applicants with good grades in Mathematics.
Third Year (Diploma Stage): Applicants are normally expected to have reached Credit or Distinction level in the Certificate Examination at the end of the Second Year in order to qualify for admission into the Third Year. However, those holding a Pass Certificate and at least one year of appropriate post-Certificate experience will be considered.

Course of Study
First Year: Mathematics and Statistics; Science including Electronics, Surveying Methods and Practice; Theory and Use of Instruments; Survey Drawing; Computer Programming; Liberal Studies.

Second Year:
(Certificate Stage) Instrumentation; Introduction to Photogrammetry and Cartography; Geology; Mathematics: Science including Electronics; Land Surveying; Mine and Engineering Surveying; Computer Programming.

Third Year:
(Diploma Stage) Cartography; Land Surveying and Astronomy; Photogrammetry; Engineering Surveying: Mathematics and Statistics: Geotechnics, Geophysics and Mine Surveying; Elements of Land Law; Dissertation.

Field camps are conducted at the end of both the First Year and Second Year. In addition students are expected to gain practical experience during the summer vacation.

Awards
Graduates from this course are eligible for the following awards:
(a) Technician Certificate / Diploma in Geo-Surveying (Dublin Institute of Technology)
(b) National Certificate / Diploma in Geo-Surveying (National Council for Educational Awards)

Career Opportunities
The Geo-Surveying Technician may be employed in a wide variety of occupations such as with engineering, land survey and hydrographic consultancies as well as with mining, photogrammetric and construction companies.
The work can be very varied due to the variety of survey sites requiring different techniques and equipment but generally the work involves the preparation of a plan for a development or the setting out of a design on the ground for construction. The Geo-Surveying Technician should have a preference for an outdoor life and an ability to co-operate and work in a team with other specialists. Sophisticated optical and electronic instruments are commonly used in conjunction with computers and micro-processors in Geo-Surveying and some specialise in these.

Dept. in Charge: Surveying & Building Technology

D6 URBAN DESIGN (POST GRADUATE)
Commencement of course is subject to additional accommodation and finance being available to the College.

Dept. in Charge: Architecture and Town Planning

D7 DIPLOMA COURSE IN BUILDING
As a development of its courses for the building sector the College proposes to offer, from the 1986/87 session, a new four-year course leading to a Diploma in Building awarded by Dublin Institute of Technology. This course will parallel the present Construction Economics Diploma course and will have similar entry requirements. It is envisaged that it will combine the major elements of Technology and Management Studies at professional level in the building field.

Dept. in Charge: Surveying and Building Technology

D10 PLANNING TECHNICIAN CERTIFICATE COURSE
Commencement of course is subject to additional accommodation and finance being available to the College.

Dept. in Charge: Architecture and Town Planning

D12 AUCTIONEERING AND ESTATE AGENCY CERTIFICATE/DIPLOMA COURSE
This new course has been developed to prepare students for a DIT Certificate in Auctioneering and Estate Agency after two years of wholetime study.

It is envisaged that those holding the Certificate may proceed further to a Diploma award on a part-time or block release basis over a further twelve month period while in suitable employment. They will be required to undertake a prescribed course of study and course assignments and complete further examinations and a dissertation on an appropriate topic.

Entrance Requirements:
The minimum entrance qualifications required for entry are:

Requirements: The Irish Leaving Certificate with passes in five subjects including Mathematics and English, or an equivalent qualification.

Course of Study:
Third Year: Enter into suitable employment, undertake prescribed study, carry out assignments and complete examinations and a dissertation on an appropriate topic.

Awards:
It is envisaged that students who successfully complete the course will be eligible for the following awards:

Certificate in Auctioneering and Estate Agency (after two years)
Diploma in Auctioneering and Estate Agency (after a further year).

Career Opportunities:
The course is suitable for those wishing to prepare for a career as an auctioneer, estate agent and property valuer and aims to give an understanding of the legal, economic and physical framework within which the property market functions. It also aims to give the basic skills needed to practice as an auctioneer.

The course has been established in co-operation with the Irish Auctioneers and Valuers Institute (IAVI), which is representative of those who work in the field of Auctioneering and Estate Agency in the Republic of Ireland. Auctioneers and Estate Agents are involved in the sales, lettings, management and valuation of landed property. Generally, they work either in partnerships or practice on their own account.

The career is suitable for those with an interest in people and in the built environment. Other desirable character traits are an outgoing nature together with an ability to get on with people.

Dept in Charge: Surveying & Building Technology
TECHNOLOGICAL AND TECHNICIAN COURSES
PART-TIME

D2B
CONSTRUCTION TECHNICIAN DIPLOMA
PART-TIME
This day release course is similar to the wholetime Diploma course and leads to the award of the Construction Technician’s Diploma. Classes are scheduled on one day and two evenings per week over a period of four years. Entry to this course is open to those holding:
(a) The secondary schools Leaving Certificate in at least five subjects including Mathematics OR the Matriculation Certificate of a recognised University OR the General Certificate of Education.
(b) Appropriate employment in the Construction Industry.

Dept. in Charge Surveying and Building Technology

D4A
DIPLOMA / DEGREE IN CONSTRUCTION ECONOMICS
PART-TIME
This day release course is similar to the wholetime Diploma course and leads to the award of a Diploma / Degree in Construction Economics. Classes are scheduled on one day and two evenings per week over a period of six years. The academic entry qualifications for the course are similar to D4. In addition, candidates must be in appropriate employment in the Construction Industry.

Dept. in Charge Surveying and Building Technology

D9
SHORT COURSES
Short Courses in Building and Project Management may be held during the session. Enquiries relating to these will be welcome by the Department of Surveying and Building.

Dept. in Charge Surveying and Building Technology

ARCHITECTURE, SURVEYING & BUILDING
EVENING COURSES

E4
PROFESSIONAL COURSE IN SURVEYING AND CONSTRUCTION STUDIES
This is a three-year, two-stage evening course to enable students who hold Intermediate Level qualifications in the construction and surveying fields to progress to full professional qualifications of appropriate institutions. Students may attend classes up to five evenings per week depending on their selection of subjects.

Entry Qualifications

Dept. in Charge Surveying and Building Technology

E9
SHORT COURSES
Short courses in various aspects of Surveying and Building may be held during the session in response to demands. Enquiries should be directed to the Department of Surveying and Building.

Dept. in Charge Surveying and Building Technology

A group of graduates after receiving their degree awards from the University of Dublin.
The School of Engineering encompasses two departments within the College – the Engineering Technology Department, and the Science, Mathematics, and General Studies Department.

The academic programmes in Engineering within the College range from Craft to full professional level. It is the College policy to provide an integrated system, horizontally in the range of technologies and vertically in their levels. In this way it is hoped that all students will find courses suitable to their needs and abilities. Opportunities for transfer or promotion to related disciplines are provided.

The Engineering School maintains close links with industry through direct contact with employers, through vacation training, project work and research activities. The links with professional institutions are strong and there is a conscious awareness of modern needs in technological education and training.

Over the past thirty years the College’s wholetime Engineering professional or degree level courses have continued to develop and to-day four separate options are offered in Mechanical, Production, Structural, and Building Services Engineering. They share a common First year and have other common elements in subsequent years. Electrical and Electronic Engineering courses are offered in the College of Technology, Kevin Street.

The College has responded to changing requirements for technician courses to meet the emerging demands. The opportunities for technician graduates are good and such courses also offer attractive prospects for young people in search of interesting careers.

The School continues to play an important role in the College’s evening activities. Programmes are kept under review and every attempt is made to assist technical personnel to keep abreast of the latest advances and new technological developments.

As the accommodation of the College is limited it is regretted that in many cases competition to gain entry into courses is very keen and only some of the applicants can be admitted.
TECHNOLOGICAL AND TECHNICIAN COURSES — WHOLE TIME

D40

PRELIMINARY ENGINEERING
This is a one-year full-time course commencing each year in mid-September. Its main purpose is to prepare students for entry into the first year of the College's Engineering Diploma/Degree Courses D42B, D42M, D42P or D42S.

Entrance Requirements:
The Irish Leaving Certificate of the Department of Education with good passes in Mathematics, English and three other subjects, or equivalent qualifications. In practice the typical candidate gaining admission will probably have a number of ‘Honour’ grades.

Course of Study:
The subjects studied are: Mathematics, Mechanics, Engineering Technology, Physics, Chemistry, Engineering Drawing, Communications and Liberal Studies.

Examination and Other Requirements:
Students are required to:
(a) take a College examination at the end of the session.
(b) present laboratory notebooks and project work reports to the satisfaction of the college.

Admission into Professional Engineering Courses:
Students who reach the required standard in the College examination may qualify for admission into the first year of courses D42B, D42M, D42P or D42S without further assessment and are notified of this early in July. They do not have to apply through the CAO system.

D42 M

MECHANICAL ENGINEERING — DIPLOMA / DEGREE

C.A.O. Course Code: FT04
This is a four year whole time course which prepares students with a suitable aptitude and educational background for a career in Mechanical Engineering. It is a broadly based engineering course over the first two years with specialisation in the third and final years and it requires a good mathematical and analytical ability. Project work is an important element in the programme and commences in the second year. A major project is undertaken in the final year on which both a thesis and oral presentation are required. Laboratory work is undertaken throughout the course. Students are encouraged to obtain suitable summer employment in engineering to complement their studies.

Entrance Requirements:
The minimum educational qualifications required for entry are the Irish Leaving Certificate in six subjects with Grade C or higher on higher level papers in Mathematics and a suitable Science subject (i.e. Physics, Chemistry, Physics with Chemistry, Applied Mathematics and Mechanics) and a pass in four other subjects which must include English, or equivalent qualifications.
PRODUCTION ENGINEERING – DIPLOMA / DEGREE

C.A.O. Course: FT04

This is a four year full-time course which prepares students with a suitable aptitude and educational background for a career in Production Engineering. It is a broadly based engineering course over the first two years with specialisation in the third and final years in Production Engineering. It requires a good mathematical and analytical ability. Project work is an important element in the programme and commences in the second year. A major project is undertaken in the final year on which both thesis and oral presentation are required. Laboratory work is undertaken throughout the course. Students are encouraged to obtain suitable summer employment in engineering to complement their studies.

Entrance Requirements: The minimum educational qualifications required for entry are the Irish Leaving Certificate in six subjects with Grade C or higher on higher level papers in Mathematics and a suitable Science subject (i.e. Physics, Chemistry, Physics with Chemistry, Applied Mathematics and Mechanics) and a pass in four other subjects which must include English, or equivalent qualifications.

Course of Study:

First Year: Mathematics, Mechanics, Engineering Drawing, Engineering Technology, Physics, Materials Science, Communication and Social Studies, Workshop and Laboratory Work.

Fourth Year: Mathematics and Computing, Control Engineering, Manufacturing Technology, Mechanics, Materials Science, Production Management and Laboratory Work.

A major project is also undertaken.

Awards: Graduates of this course are eligible for the following awards:

Diploma in Engineering (Dublin Institute of Technology)
Bachelor of Science (Engineering) (University of Dublin)

They are eligible for membership of the Institution of Engineers of Ireland and are also accepted for entry to appropriate University Post-Graduate courses in Ireland and abroad.

Career Opportunities

The qualification is appropriate to those wishing to specialise in either Manufacturing or Production Engineering. Production Engineers are likely to be involved with the manufacture of all types of products ranging from individual items to large batches using robotics and highly automated machines. They may also be involved with the management of projects and industries and with the maintenance of plant and equipment.

Graduates have good prospects of employment in manufacturing firms, with state and semi-state bodies and research organisations. The range of jobs available includes design, industrial engineering, production and factory management. Some also pursue post-graduate studies in Ireland or abroad directly after graduation or they may go abroad to work initially and in this way gain wider or specialised experience.
Requirements:
Code: C.A.0.

Technological and Technician Courses

### Awards
Graduates are eligible for the following awards:
- Diploma in Engineering (Dublin Institute of Technology)
- Bachelor of Science (Engineering) (University of Dublin)

They are eligible for Membership of the Institution of Engineers of Ireland and are also accepted for entry to appropriate University Post-Graduate courses in Ireland and abroad.

### Career Opportunities
The qualification is appropriate to those wishing to make their careers in Structural Engineering, which is a specialisation of Civil Engineering.
Structural Engineers are concerned with the design and construction of buildings, bridges and special structures. They form part of the team of professionals involved with construction projects and in this way work closely with Architects, Quantity Surveyors and Building Services Engineers.
Graduates have prospects of employment with structural design offices, contractors, research organisations, as well as state and semi-state agencies and local authorities. Some pursue postgraduate studies in Ireland or abroad directly after graduating or they may go abroad to work initially and in this way gain wider or special experience.

### Course of Study
First Year:
- Mathematics, Mechanics, Materials Science, Physics, Engineering Technology, Engineering Drawing, Communication and Social Studies, Workshop and Laboratory Work.

#### Second Year:

#### Third Year:

#### Fourth Year:

A major project is also undertaken.

### Awards
Graduates are eligible for the following awards:
- Diploma in Engineering (Dublin Institute of Technology)
- Bachelor of Science (Engineering) (University of Dublin)

It is expected that they will also be eligible for membership of the Institution of Engineers of Ireland and acceptable for entry to appropriate University Post Graduate courses in Ireland and abroad.

### Career Opportunities
The qualification is appropriate to those wishing to make their careers in Building Services Engineering which is concerned with the design and installation of the Mechanical and Electrical Services necessary to ensure the efficient operation of modern buildings. They form part of the team of professionals involved with construction projects and work closely with Architects, Quantity Surveyors and Structural Engineers.
Graduates have good prospects of employment with Consulting Engineers, design offices, contracting firms, research organisations, as well as state and semi-state agencies and local authorities. Some may pursue postgraduate studies in Ireland or abroad directly after graduating or they may go abroad to work initially and in this way gain wider or specialised experience.

### Entrance Requirements:
The minimum educational qualifications required for entry are the Irish Leaving Certificate in six subjects, with Grade C or higher on higher level papers in Mathematics and a suitable Science subject, (i.e. Physics, Chemistry, Physics with Chemistry, Applied Mathematics and Mechanics) and a pass in four other subjects which must include English, or equivalent qualifications.

### Course of Study
First Year:
- Mathematics, Mechanics, Materials Science, Physics, Engineering Technology, Engineering Drawing, Communication and Social Studies, Workshop and Laboratory Work.
Technological and Technician Courses

Entrance Requirements  
First Year - Leaving Certificate with good passes in Mathematics, a Science subject (preferably Physics), English and two other subjects or equivalent qualification.

Third Year (Diploma Stage) - Students are expected to reach Credit or Distinction level in the Certificate Examination at the end of the second year to qualify for admission to the third year of the course leading to the Diploma award. Students who hold a Pass certificate and at least one year of appropriate post-Certificate experience may also be considered. The Diploma stage is specialised and is focused on Structural Design.

Course of Study

First Year

Second Year (Certificate Stage)
Structural Design and Detailing, Mathematics, Engineering Materials, Surveying, Construction Services and Supplies, Planning and Administration, Complementary Studies, Laboratory Work.

Third Year (Diploma Stage)
Theory of Structures, Structural Design, Municipal and Road Engineering, Mathematics and Data Processing, Management Studies and a Project.

Examination and Other Requirements
(a) Students take a College examination at the end of each year which is moderated by the National Council for Educational Awards, and
(b) They are required to submit reports on their project and laboratory work.

Awards
Graduates of this course are eligible for the following awards:
(a) Technician Certificate/Diploma in Civil Engineering (Dublin Institute of Technology)
(b) National Certificate/Diploma in Engineering (Civil) (National Council for Educational Awards)

Recognition by Professional Bodies
Those who have successfully completed the Certificate Stage of this course meet the academic requirements for Technician status with the Institution of Engineers of Ireland, while those who have completed the Diploma stage meet the Technician Engineer level and can qualify for the non-Corporate Associateship grade of membership after they have completed a suitable period of practical training.

Career Opportunities
The qualification is appropriate to those wishing to enter engineering as a Technician specialising in Civil Engineering. Civil Engineering Technicians may be involved in the design and construction of buildings, bridges, roads, water supply, sanitary services, etc. They may also be involved in drafting, surveying, laboratory and field work, and the planning and supervision of contracts. Graduates have prospects of employment in contracting firms, engineering design offices, state and semi-state bodies, and research organisations engaged in Civil Engineering work.

Dept. in Charge Engineering Technology

D46H BUILDING SERVICES ENGINEERING TECHNICIAN CERTIFICATE AND DIPLOMA

This course prepares students for a Technician Certificate award in Building Services Engineering at the end of two years and for a Technician Diploma award at the end of a further year of study. The students attend the College from the end of September until the end of May each year and they spend the Summer months gaining practical experience in Heating, Ventilating and Air Conditioning design in Consulting Engineers’ offices and related industry. The course requires an analytical ability to understand and solve technical problems.

Entrance Requirements
First Year - Leaving Certificate with good passes in Mathematics, a Science subject (preferably Physics), English and two other subjects or equivalent qualifications.

Third Year (Diploma Stage) - Students are expected to reach Credit or Distinction level in the Certificate Examination at the end of the second year to qualify for admission to the third year of the course leading to the Diploma award. Students who hold a Pass certificate and at least one year of appropriate post-Certificate experience may also be considered.

Course of Study

First Year

Second Year

Third Year

Examination and Other Requirements
(a) Students take a College examination at the end of each year, which is moderated by the National Council for Educational Awards, and
(b) They are required to submit a report on their Summer vacation training each year and also reports on their project and laboratory work.

Awards
Graduates of this course are eligible for the following awards:
(a) Technician Certificate/Diploma in Environmental/Building Services Engineering (Dublin Institute of Technology).
(b) National Certificate/Diploma in Engineering (Building Services) (National Council for Educational Awards).

Those who have successfully completed the Certificate stage of this course meet the academic requirements for Technician status with the Institution of Engineers of Ireland, while those who have completed the Diploma
Career Opportunities
The qualification is appropriate to those wishing to enter engineering as a technician specialising in Environmental/Building Services Engineering. Environmental/Building Services Engineers are involved with the design and installation of all types of building services such as heating, ventilation, air-conditioning, water and electrical services. They are also involved with the drafting, planning and management of projects and the maintenance of plant and equipment.

Graduates have good prospects of employment with mechanical services contractors and in design offices. The range of jobs available includes engineering design, maintenance engineering, consulting engineering and technical sales.

Requirements
(a) Graduates must have a pass in Mathematics, a Science subject (preferably Physics), English and two other subjects or equivalent qualifications.

(b) Students take a College examination at the end of each session, which is moderated by the National Council for Educational Awards.

Awards
Graduates of this course are eligible for the following awards:
(a) Technician Certificate/Diploma in Mechanical Engineering (Dublin Institute of Technology)
(b) National Certificate/Diploma in Engineering (Process or Manufacturing) (National Council for Educational Awards)

Those who have successfully completed the Certificate Stage of this course meet the academic requirements for Technician status with the Institution of Engineers of Ireland, while those who have completed the Diploma Stage are at Technician Engineer level and can qualify for the non-Corporate Associateship grade of membership after they have completed a suitable period of practical training.

Third Year
Common subjects: Mathematics, Electrotechnology and Controls, Complementary Studies

Examination and Other Requirements
(a) Students take a College examination at the end of each session, which is moderated by the National Council for Educational Awards.
(b) They are required to submit a report on their industrial training each year and also reports on their Project and laboratory work.

Awards
Graduates of this course are eligible for the following awards:
(a) Technician Certificate/Diploma in Mechanical Engineering (Dublin Institute of Technology)
(b) National Certificate/Diploma in Engineering (Process or Manufacturing) (National Council for Educational Awards)

Those who have successfully completed the Certificate Stage of this course meet the academic requirements for Technician status with the Institution of Engineers of Ireland, while those who have completed the Diploma Stage are at Technician Engineer level and can qualify for the non-Corporate Associateship grade of membership after they have completed a suitable period of practical training.

Career Opportunities
The qualification is appropriate to those wishing to enter engineering as a technician specialising in Mechanical Engineering. Mechanical Engineers and Technicians are concerned with the design, manufacture and installation of all types of equipment ranging from individual items to complete factories or process plants. They may also be involved in drafting, detailed planning and management of projects and with plant maintenance.

Graduates have prospects of employment in manufacturing or processing firms, research organisations, as well as state and semi-state agencies.

Dept. in Charge
Engineering Technology

MECHANICAL ENGINEERING TECHNICIAN CERTIFICATE AND DIPLOMA
This course prepares students for a Technician Certificate award in Mechanical Engineering at the end of two years and for a Technician Diploma at the end of a further year. The students attend the College for eight months each year commencing in September, and they spend the Summer period getting practical experience in industry, design offices etc. The course requires an analytical ability to understand and solve technical problems.

Entrance Requirements
First Year - Leaving Certificate with good passes in Mathematics, a Science subject (preferably Physics), English and two other subjects or equivalent qualifications.

Third Year (Diploma Stage) - Students are expected to reach Credit or Distinction level in the Certificate Examination at the end of the second year to qualify for admission to the third year of the course leading to the Diploma award.

Students who hold a Pass Certificate and at least one year of appropriate post-Certificate experience may also be considered. The Diploma stage is specialised. At present two options are offered - Manufacturing Technology or Process Plant.

TECHNICIAN CERTIFICATE IN TRANSPORT ENGINEERING - DIPLOMA IN MOTOR INDUSTRY MANAGEMENT

This whole-time course prepares students for entry into the many and varied responsible positions in the Motor Industry. The course leads to the award of a Transport Engineering Technician Certificate at the end of two years study and to the award of the Diploma in Motor Industry Management at the end of a further year’s study.

Entrance Requirements: Leaving Certificate with passes in five subjects, including Mathematics and English, and preferably Physics or equivalent qualification.

Course of Study

Examination and Other Requirements: Progress to successive years of the course will be on the basis of the student’s work during the session, and success in the College sessional examinations. Only students who successfully complete the Certificate stage and who display an aptitude for management will be accepted for the Diploma Stage. A requirement of the course is that students spend 2-3 months of each Summer Vacation in suitable employment in the Motor Industry gaining appropriate experience. Where students are unable to arrange this employment, the Graduate Society of the Institute of the Motor Industry, the College Authorities and the student society of Motor Industry Management will assist in their placement.

Awards: Graduates of the course are eligible for the following awards:

Technician Certificate in Transport Engineering (Dublin Institute of Technology)
Diploma in Motor Industry Management (Dublin Institute of Technology)

Graduates holding the Diploma are eligible for full exemptions from the examination requirements of the Institute of the Motor Industry and, by taking an extra examination in Road Transport Management, qualify for exemption from the examinations of the Institute of Road Transport Engineers.

Career Opportunities: There are many and varied career opportunities in the automobile and transport industries for those completing these courses including the following: Vehicle Body Repair Supervisor, Garage Service Department Supervisor, Reception Engineer, Vehicle Salesperson, Training Advisor, Vehicle Finance Company Representative etc. Generally they progress fairly quickly to more senior management positions in Garage Management as Transport Managers, etc.

Dept. in Charge: Automobile Engineering

D45.

AIRCRAFT TECHNICIANS’ COURSE

This is a two year sandwich course to train aircraft apprentices and those already employed in the Aeronautical Engineering Industry as Aircraft Technicians in preparation for I.C.A.O. Maintenance Engineers’ Licences issued by the Department of Communications. Students attend the College from September to June and spend the remainder of the year in the Aircraft Industry.

Entrance Requirements: (a) Department of Education Intermediate Certificate in suitable subjects or Day Group Certificate in suitable subjects; and
(b) Employment in an Aeronautical Engineering environment.

Examination and Other Requirements: Students are required to pass examinations as follows:

(a) At the end of the first year — the Department of Education Junior Trade Certificates and Elementary Technological Examinations in Mechanical Engineering; and City and Guilds of London Institute Aeronautical Engineering Craft Studies Part I.
(b) At the end of the second year — the Department of Education Senior Trades; and City and Guilds of London Institute Aeronautical Engineering Craft Studies Part II, and Aeronautical Engineering Technicians’ Certificate Part I.

Dept. in Charge: Aeronautical Engineering
BUILDING SERVICES ENGINEERING
This course prepares students, with an Environmental Engineering Technician Diploma or equivalent qualification, for the new Part II Examination of the Chartered Institute of Building Services (C.I.B.S.). It is a two-year course and all applicants are expected to have a good background in Building Services Engineering practice. Details of the syllabus and sample examination papers are available from the C.I.B.S. at Delta House, 222 Balham High Road, London SW 12 9 BS.

Dept. in Charge: Engineering Technology

GRADUATE COURSE IN ENGINEERING
A four-year part-time day and evening course in preparation for the examinations of the Professional Engineering bodies. This course of study is as set out for course E41 which is the parallel evening course.

Dept. in Charge: Engineering Technology

CIVIL ENGINEERING TECHNICIAN CERTIFICATE AND DIPLOMA COURSE
This part-time day and evening course prepares students for a Technician Certificate/Diploma in Civil Engineering. Students are expected to be already suitably employed in a Civil Engineering or Construction firm before commencing the course. It parallels course D46C and follows the same core syllabus.

Entrance Requirements: Leaving Certificate or equivalent with passes in Mathematics, a Science subject (preferably Physics), English, and two other subjects or a Senior Trade Certificate with suitable endorsement.

Course of Study:
Stage I — First and Second Year Subjects: Mathematics, Engineering Science, Mechanics, Drawing, Surveying, Construction Technology and Complementary Studies.
Stage III — Fifth and Sixth Years — Diploma Stage: This stage offers options in Municipal Engineering and Structural Engineering. Candidates are expected to be employed and gaining suitable experience in the appropriate field and are required to have passed the Certificate Stage with Credit, or have at least one year's suitable experience together with a Pass Certificate. Subjects: Mathematics, Road Engineering, Management Studies, Planning and Building Regulations, Hydraulics and Sanitary Services, Design and a Project (Municipal option) and Mathematics, Management Studies, Theory of Structures, Structural Design (Concrete), Structural Design (Steel), Municipal Engineering, and a project (Structural Option).

Examinations and Other Requirements: At the end of each year students take a College Examination which is moderated by the National Council for Educational Awards.

Recognition by Professional Bodies: Those who have successfully completed the Certificate Stage of this course meet the academic requirements for Technician status with the Institution of Engineers of Ireland, while those who have completed the Diploma stage meet the Technician Engineer level and can qualify for the non-Corporate Associateship grade of membership after they have completed a suitable period of practical training.

Dept. in Charge: Engineering Technology

MECHANICAL ENGINEERING TECHNICIAN CERTIFICATE AND DIPLOMA COURSE
This part-time day and evening course prepares students for a Technician Certificate/Diploma in Mechanical Engineering. Students are expected to be already suitably employed in Mechanical Engineering before commencing the course. It parallels course D46M and follows the same core syllabus.

Entrance Requirements: Leaving Certificate or equivalent with passes in Mathematics, a Science subject (preferably Physics), English, and two other subjects or a Senior Trade Certificate with suitable endorsement.

Course of Study:
Stage III — Fifth and Sixth Years — Diploma Stage: At this stage an Instrumentation Option is offered on a part-time basis at present and candidates are expected to be employed in this field. Subjects: Mathematics, Mechanics, Complementary Studies, Electrotechnology and Electronics, Control Engineering, Industrial Instrumentation, Design, and Project Work. Candidates are required to have passed the Certificate Stage with Credit, or to have at least one year's suitable experience together with a Pass Certificate.
Examinations and other Requirements  
At the end of each year students take a College examination which is moderated by the National Council for Educational Awards.

Recognition by Professional Bodies  
Those who have successfully completed the Certificate Stage of this course meet the academic requirements for Technician status with the Institution of Engineers of Ireland, while those who have completed the Diploma stage meet the Technician Engineer level and can qualify for the non-Corporate Associateship grade of membership after they have completed a suitable period of practical training.

Engineering Technology

D47.  
MECHANICAL ENGINEERING TECHNICIAN COURSE  
This part-time day and evening course is intended to prepare suitable students for the City & Guilds of London examinations for Mechanical Engineering Technicians (255). The course is for technicians and draughtsmen engaged in the following types of employment: Machine Tool Operation, Jig & Tool Design, Engineering Production and Design Draughtsmen.

Entrance Requirements  
Elementary Stage Technological Certificate of the Department of Education examinations in Mechanical Engineering, Leaving Certificate or endorsement in Senior Craft Certificate.

Course of Study  
First Year  

Second Year  
Science and Mathematics, Drawing and Materials, Production Technology and General Studies.

Third Year  
Production Technology, Mathematics and Statistics, Metrology and Management Studies.

Examinations and Other Requirements  
At the end of the first year students take the Part I examination of the City & Guilds of London Institute No. 255, Part II at the end of the second year, and Part III at the end of the third year.

Dept. in Charge  
Engineering Technology

D59.  
SHORT COURSE PROGRAMME  
A series of 2-5 day short courses on modern developments in Engineering Technology may be organised at different stages during the session. These may include:-

(a) Low Cost Automation;  
(b) Fluid Power;  
(c) Maintenance Management Techniques;  
(d) Modern Production Methods;  
(e) New Developments in Welding Technology;  
(f) Fuel Technology;  
(g) Fire Safety;  
(h) CP110 and Structural Design;  
(i) New Materials;  
(k) Water Pollution Control;  
(l) Energy Conservation;  
(m) Engineering Costing and Estimating.

Dept. in Charge  
Engineering Technology
Engineering
EVENING COURSES

E31. BUILDING SERVICES ENGINEERING
This course prepares students, with an Environmental Engineering Technician Diploma or equivalent qualification, for the Part II Examination of the Chartered Institute of Building Services (C.I.B.S.). It is a two year course and all applicants are expected to have a good background in Building Services Engineering practice. Details of the syllabus and sample examination papers are available from the C.I.B.S. at Delta House, 222 Balham High Road, London SW 12 9BS.

Dept. in Charge Engineering Technology

E41. GRADUATE COURSES IN ENGINEERING
A 4-year course to prepare students for the examinations of Professional Engineering bodies including:
(1) Institution of Engineers of Ireland.
(2) The Engineering Council (U.K.) and associated professional bodies such as:
   (a) The Institution of Mechanical Engineers;
   (b) The Institution of Production Engineers;
   (c) The Institution of Structural Engineers;

Courses are offered for both Part I and Part II stages provided there are sufficient applicants of a suitable educational standard.

Part I. Some or all of the following subjects may be offered: Mathematics, Mechanics, Thermodynamics, Electrotechnics, Properties of Materials, Presentation of Engineering Information, and Electronics.

Part II. Depending on demand, the following subjects may be offered: The Engineer in Society, Mechanics and Properties of Materials, Fluid Mechanics, Structural Analysis, Structural Design, Thermodynamics, Organisation of Large Constructions, Engineering Geology and possibly other subjects. Students are required to complete a laboratory programme as part of this stage.

Entrance Requirements
Before entry, applicants must meet the requirements of the appropriate Institution for Student Membership. They are urged to make early application to the Institution because it may take several months to process and it is not possible to sit the examination until this has been completed.

Certain Technician qualifications also meet the educational requirements for student membership and may give exemption from all or some subjects in Part I. Details are available from the appropriate Institution.

E42. MECHANICAL ENGINEERING TECHNOLOGICAL CERTIFICATE COURSE
This course is intended to prepare students for the Technological Certificate examinations of the Department of Education in Mechanical Engineering as follows:

At the end of the First year – Elementary Stage, Subjects: Mathematics, Mechanics, Heat, Drawing.

At the end of the Third year – Advanced Stage, Subjects: Mathematics, Mechanics, Heat Engines, Drawing.

Entrance Requirements
The entrance requirements are Department of Education Intermediate Certificate or Day Group Certificate with passes in Mathematics, English and a Science subject. Students with Leaving Certificate which includes a pass in Mathematics and a Science subject may enter the course at the second year stage.

E43C. CIVIL ENGINEERING TECHNICIANS' CERTIFICATE COURSE
This is a four-year evening course to prepare students in suitable employment for a Civil Engineering Technicians’ Certificate. It parallels Course D43C and Course D46C and follows a similar syllabus.

Entrance Requirements
The entrance requirement is Leaving Certificate in five subjects including Mathematics or equivalent qualification.

Subjects
Stage I – First & Second Years

Stage II – Third & Fourth Years – Certificate Stage
Structural Design and Detailing, Engineering Materials, Surveying, Mathematics and Computation, Planning and Administration, Construction Services, Complementary Studies.

Dept. in Charge Engineering Technology

Engineering Technology
E43M. MECHANICAL ENGINEERING TECHNICIANS' CERTIFICATE COURSE

This is a four-year evening course to prepare students in suitable employment for a Mechanical Engineering Certificate. It parallels Course D46M and D43M and follows a similar syllabus but more specialised options are available in both Fluid Power and Welding.

Entrance Requirements

The entrance requirement is Leaving Certificate in five subjects including Mathematics and English, or the Senior Trade Certificate with endorsement, or equivalent qualification.

Subjects

Stage I – First & Second Years

Stage II – Third & Fourth Years – Certificate Stage
At this stage three options are offered, Mechanical, Welding, and Fluid Power Engineering.
Common Subjects: Mathematics, Thermal and Fluid Plant.
Electrotechnology and Industrial Instrumentation, Complementary Studies.

Dept. in Charge Engineering Technology

E43V. BUILDING SERVICES ENGINEERING TECHNICIAN CERTIFICATE COURSE

This is a four-year evening course to prepare students in suitable employment for an Environmental/Building Services Engineering Technicians' Certificate. It parallels Course D46H and Course D43V, and follows a similar syllabus.

Entrance Requirements

Leaving Certificate in five subjects including Mathematics or Senior Trade Certificate with endorsement or equivalent qualification.

Course of Study

Stage I – First & Second Years

Stage II – Third & Fourth Years – Certificate Stage
At this stage two options are available, Building Services and Refrigeration Technology.
Common Subjects: Mathematics, Thermal and Fluid Plant, Electrotechnology and Industrial Instrumentation, Complementary Studies.

Dept. in Charge Engineering Technology

E47. MECHANICAL ENGINEERING TECHNICIAN COURSE

This is a three-year evening course to prepare students for the Part I, Part II and Part III examinations of the City & Guilds Institute for Mechanical Engineering Technicians Course (255). Students should have a suitable craft background and hold the Senior Craft Certificate with endorsement, Elementary Technological Certificate in Mechanical Engineering, GCE, Leaving Certificate or equivalent.

The course of study is as set out for Course D47 which is the parallel course operating by day.

Dept. in Charge Engineering Technology

E50. COMPUTER PROGRAMMING COURSE

This is a two-year course in which students are prepared for the City & Guilds Examination No. 746 (Basic Certificate in Computer Programming). The main language used is BASIC.

Entrance Requirements

(a) Leaving Certificate.
(b) Commercial or industrial experience related to Computing.

The number of places is limited and applicants must present themselves at the College for interview between 7.00pm and 8.30pm during the week commencing 16th September. Only those with written evidence of (a) and (b) above will be considered for the course. Preference will be given to those who are employed in, or associated with, a computer installation.

Dept. in Charge Science, Mathematics & General Studies

E54. STRUCTURAL DESIGN COURSE

This is a one-year advanced course intended for those who wish to prepare for the Part III Design examination of the Institution of Structural Engineers. Depending on demand, there may be options in Steel or Concrete Design.

Entrance Requirements

A degree in Civil or Structural Engineering or a pass in the IEI/CEI examinations or equivalent, together with at least one year of suitable post-graduate experience in a structural design office.

Dept. in Charge Engineering Technology

E57. INDUSTRIAL MANAGEMENT CERTIFICATE AND DIPLOMA COURSES

The two-year evening Certificate course is intended for engineering technicians and trainee production and industrial managers who wish to take the certificate examinations of the Institution of Industrial Managers. The Diploma stage is intended primarily for those charged with responsibility for discharging management functions.

Entrance Requirements

Students entering the Certificate course should have reached the Leaving Certificate standard of general education and be suitably employed as managers or supervisors in industry. Applicants holding an appropriate degree or professional qualification and substantial management experience may be admitted directly into the Third Year or Diploma Stage.
About the Institute
The Institute of Domestic Heating Engineers was established in Britain in 1964. In 1982 the Irish branch of I.D.H.E gained autonomy and is now recognized as I.D.H.E. International. The Institute awards its own diploma to candidates who successfully complete the three year course. The diploma entitles candidates to apply for use of the Institute's titles.

Dept. in Charge Engineering Technology

E63.
FIRE ENGINEERING COURSE
This is a two-year course which prepares students for the Graduateship examinations of the Institute of Fire Engineers.

Entrance Requirements
Leaving Certificate or equivalent standard and employment as a Fire Officer.

Subjects

Dept. in Charge Engineering Technology

E68.
REFRIGERATION ENGINEERING TECHNICIANS COURSE
This is a one-year course for Technicians employed in the refrigeration engineering industry. Suitable students are prepared for the 257 City & Guilds of London Institute examinations in Science and Technology of Refrigeration. The subjects of instruction are: Science, Refrigeration Processes and Machinery, and Drawing.

Dept. in Charge Engineering Technology

E60.
DOMESTIC HEATING AND ENVIRONMENTAL COURSE
This three-year evening course prepares students for the examination of the Institute of Domestic Heating Engineers. Successful candidates will be eligible for entry to the Institute. Membership will gain entry, with some exemptions, to the part-time Building Services Engineering courses (D43V or E43V).

Entrance The course is available to those who are employed in the heating industry.

Duration of Course Three evenings per week over three years.

Course of Study

First Year Drawing, Physics, Mathematics, Heat Transfer.

Dept. in Charge Automobile Engineering

E44.
MOTOR INDUSTRY MANAGEMENT COURSE
This is a two-year evening course to prepare students for the Final Associate Membership Examinations (External) of the Institute of the Motor Industry and the Final Examination of the Institute of Road Transport Engineers. Classes are held on two evenings per week for 30 weeks each year.

Entrance Requirements Department of Education Advanced Motor Car Engineering Technological Certificate or the City and Guilds of London Institute Motor Vehicle Technicians Certificate Parts I and II (390).

Dept. in Charge Automobile Engineering
E49. AUTOMOBILE ENGINEERING COURSE

Objective
Department of Education Elementary, Intermediate and Advanced Technological Certificates in Motor Car Engineering and I.M.I. Intermediate Group I.

Duration of Course
5 years of 30 weeks each year, 4 evenings (12 hours) each week.

Subjects
Motor Car Engineering, Engineering Science and Mathematics, Automobile Electricity, Engineering Laboratory, General Studies including English, Drawing and Sketching, Garage Organisation & Management.

Entrance Requirements
Day Vocational Group Certificate or Intermediate Certificate with Honours in certain specified subjects.

Dept. in Charge
Automobile Engineering

E45. AERONAUTICAL ENGINEERING TECHNICIAN CERTIFICATE COURSE

This course is intended for engineering apprentices employed in the Aviation Industry preparing for the Aeronautical Engineering Technician Certificate examinations of the City & Guilds of London Institute (Course 258 Part I).

Subjects
Aeronautical Engineering Science, Aeronautical Engineering Practice, and Workshop Technology.

Duration of Course
1 year, 2 evenings per week.

Entrance Requirements
Not less than two years employment in the Aviation Engineering Industry.

Dept. in Charge
Aeronautical Engineering

E46. FLIGHT OPERATIONS OFFICER (DISPATCHER COURSE)

Purpose
This course provides instruction for Flight Operations Officers in all operational aspects related to the preparation for commercial flights and the monitoring of all flights from a safety and efficiency viewpoint from the ground. It includes flight planning, aircraft loading, flight watch and operational considerations such as weight and runway limitations for the aircraft performance, weather, and ATC procedures. The Course follows the guidelines of I.C.A.O. Standardised Course 201.

Duration
One year, two evenings a week.

Entrance Requirements
A general knowledge of aviation appropriate to personnel employed in airlines or associated operations.

Dept. in Charge
Aeronautical Engineering

E48. AIRCRAFT TECHNICAL SUPPORT COURSE

This course provides instruction for personnel employed in the aircraft back-up facility areas, e.g. Stores. Purchasing Supplies, Progress Chasing, Method Study and Work Study.

Duration
It is a one-year course requiring attendance on two evenings per week.

Entrance Requirements
Employment in the Aviation Industry.

Dept. in Charge
Aeronautical Engineering

E51. PRODUCTION PLANNING COURSE (I.A.T.A.)

This course provides instruction for personnel employed in the Planning Department of the Aeronautical Industry. The course covers Aircraft Organisation and Practice, and Aircraft Operational and Maintenance Planning.

Entrance Requirements
Personnel employed in Planning Departments in the Industry, or holders of the City & Guilds of London Institute Certificate Course 258, Part I I.

Duration of Course
1 year, 2 evenings per week.

Dept. in Charge
Aeronautical Engineering

MAINTENANCE ENGINEERS' LICENCES OF THE DEPARTMENT OF COMMUNICATIONS

E52A. 'A' LICENCE – B.A.C. 1-11
E52B. 'A' LICENCE – B.707 B.720
E52C. 'A' LICENCE – B.737
E52D. 'A' LICENCE – B.747
E52F. 'C' LICENCE – P & W JT3 SERIES
E52G. 'C' LICENCE – P & W JT8D
E52H. 'C' LICENCE – P & W JT9D
E52J. 'C' LICENCE – ROLLS ROYCE SPEY
E52M. 'X' LICENCE – INSTRUMENTS
E52N. 'X' LICENCE – ELECTRICAL
E52P. 'X' LICENCE – RADIO
E52Q. 'X' LICENCE – RADIO (RADAR ENDORSEMENT)
E52K. SHORTS 360 AIRCRAFT AND PT6 ENGINE

The above courses provide instruction for Aircraft Maintenance Engineers, wishing to take the appropriate licence examinations of the Department of Communications. The courses are of one year's duration requiring attendance on two evenings per week.

Entrance Requirements
Basic Aeronautical Engineering Certificate in appropriate category.

Dept. in Charge
Aeronautical Engineering
Technological and Technician Courses

AVIONIC DIGITAL TECHNIQUES COURSE
This is a four-year evening course for personnel employed in the Aircraft Industry in Electrical, Instrument and Radio Environments.

Entrance Requirements
Aeronautical Engineering Certificate in the appropriate category or equivalent.

Dept. in Charge
Aeronautical Engineering

BASIC AERONAUTICAL ENGINEERING CERTIFICATES OF THE DEPARTMENT OF COMMUNICATIONS

E55A. AIRFRAMES UNPRESSURISED (B.A.E.C. 1)
E55B. AIRFRAMES PRESSURISED (B.A.E.C. 2)
E55C. PISTON ENGINES (B.A.E.C. 3)
E55D. TURBO-PROP & TURBO-JET ENGINES (B.A.E.C. 4)
E55E. HELICOPTERS (LESS ENGINES) (B.A.E.C. 5)
E55F. ELECTRICAL (B.A.E.C. 6)
E55G. RADIO (B.A.E.C. 7)
E55H. INSTRUMENTS (B.A.E.C 8)

The above courses are of one year's duration requiring attendance for two evenings (6 hours) weekly per session. The courses are designed to prepare students for the Basic Aeronautical Engineering Certificate examinations of the Department of Communications.

Entrance Requirements
Not less than two years employment in the Aeronautical Engineering Industry.

D55
Students on all E55 courses may attend on one day per week for additional technological or trade related subjects if they also enrol on this course.

Dept. in Charge
Aeronautical Engineering

PRIVATE AIRCRAFT PILOTS LICENCE
PRIVATE PILOTS LICENCE INSTRUMENT RATING

These courses provide instruction in Meteorology, Navigation, Air Legislation, Theory of Flight and Aircraft Limitations for personnel wishing to take the Department of Communications Private Pilots Licence and the Private Pilots Licence Instrument Rating.

Duration of Courses
1 year, one evening per week for each course.

Dept. in Charge
Aeronautical Engineering
The College offers day release, block release and evening courses for apprentices, craftsmen and technicians actually engaged in appropriate industries. The students are released from their employment, where appropriate, on full pay to attend classes.

The craft courses are designed to cover the requirements of the Junior and Senior Trade Certificate examinations of the Department of Education and corresponding examinations of the City & Guilds of London Institute. The subjects covered on these courses include the relevant trade theory and practice, together with Drawing, Engineering Science, Mathematics, Social Science, English and General Studies.

Although most of the apprentices are released directly from industry, an increasing number of first year apprentices are receiving formal "off-the-job" training in industrial or AnCO training centres in the practical skills of their trade and are released to attend classes in the other course subjects. In subsequent years their training and education requirements are provided by the College.

The craft courses are designed to cover the requirements of the Junior and Senior Trade Certificate examinations of the Department of Education and corresponding examinations of the City & Guilds of London Institute. DAY COURSES
Enquirers seeking further information about trade and trade-related courses should contact Departments as follows:

Department of Building Trades 'A' - Courses D 101 - D 112 incl.
Department of Building Trades 'B' - Courses D 121 - D 122 incl.
Department of Metal Fabrication & Plumbing - Courses D 144 - D 151B incl.
Department of Automobile Engineering - Courses D 124A - D 136 incl.
Department of Engineering Trades - Courses D 140 - D 142 incl.
Department of Aeronautical Engineering - Courses D 154 - D 155 incl.

D 101. BRICKWORK — DAY RELEASE
This course requires attendance on one day and one evening per week for the First and Second Year and one day only per week thereafter. The course is designed to allow students to take the Junior and Senior Trade Certificate examinations (Practical and Written) of the Department of Education and the City & Guilds of London Institute Craft Certificate Examinations.

Exit Requirements Apprenticeship to the trade.

D 101A. BRICKWORK — OFF-THE-JOB COURSE
This course meets the requirements of apprentices who are attending full-time for one year at an AnCO Training Centre. Students attend the College on one day and one evening per week during this one year course. The course is designed to allow students to take the Junior Trade Certificate Examination of the Department of Education.

Exit Requirements Enrolment as an apprentice in an approved Training Centre.

D 102. PLASTERWORK — DAY RELEASE
This course requires attendance on one day and one evening per week for the First and Second Year and one day only per week thereafter. The course is designed to allow students to take the Junior and Senior Trade Certificate examinations (Practical and Written) of the Department of Education and the City & Guilds of London Institute Craft Certificate Examinations.

Exit Requirements Apprenticeship to the trade.

D 102A. PLASTERWORK — OFF-THE-JOB COURSE
This course meets the requirements of apprentices who are attending full-time for one year at an AnCO Training Centre. Students attend the College on one day and one evening per week during this one year course. The course is designed to allow students to take the Junior Trade Certificate Examination of the Department of Education.

Exit Requirements Enrolment as an apprentice in an approved Training Centre.
Craft Courses

UPHOLSTERY

This course requires attendance on one day and one evening per week for the First and Second Years and one day per week thereafter.

Entrance Requirements

Apprenticeship to the trade.

Carpentry and Joinery — Day Release

This course requires attendance on one day and one evening per week for the First and Second Year and one day per week thereafter. The course is designed to allow students to take the Junior and Senior Trade Certificate Examinations (Practical and Written) of the Department of Education and the City & Guilds of London Institute. The Junior examination is taken after two years and the Senior examination after four years. Students who complete the course satisfactorily can proceed to more advanced courses leading to City & Guilds of London Institute Examinations.

Entrance Requirements

Apprenticeship to the trade.

Woodcutting Machinist — Day Release

This course requires attendance on one day and one evening per week for the First and Second Year and one day per week thereafter. The course is designed to allow students to take the Junior and Senior Trade Certificate Examinations (Practical and Written) of the Department of Education and the City & Guilds of London Institute. The Junior examination is taken after two years and the Senior examination after four years. Students who complete the course satisfactorily can proceed to more advanced courses leading to City & Guilds of London Institute Examinations.

Entrance Requirements

Apprenticeship to the trade.

Welding — Day Release

This course requires attendance on one day and one evening per week for the First and Second Year and one day per week thereafter. The course is designed to allow students to take the Junior and Senior Trade Certificate Examinations (Practical and Written) of the Department of Education. Generally, students take the Junior Stage examination after two years and the Senior Stage after four years. Students who complete the course satisfactorily may proceed to the craft-based Technician Course in Metal Fabrication and Welding.

Entrance Requirements

Employment as a welding apprentice.

Foundry Moulder/Coremaker — Block Release

This course is conducted at intervals to meet the needs of the Foundry Industry. Students are nominated by their employers or are sponsored by AnCO — The Industrial Training Authority. The course is based on the syllabus for foundry craft studies of the City & Guilds of London Institute and normally entails attending four Block Release courses, each of 11 weeks duration spread over a 4 year cycle. The course involves both practical and theoretical training in Safe Working Practice, Materials, Methods, Equipment and Related Studies.

In cases where students are employed in foundries outside the Dublin area, a one year off-the-job course may be provided entailing Full-time attendance for one year and Block Release attendance for a further two years.

Entrance Requirements

Intermediate or Day Vocational Group Certificate and be employed as an apprentice in the Foundry Industry.

Sheet Metalwork — Day Release

This course requires attendance on one day and one evening per week for the First and Second Year and one day per week thereafter. The course is designed to allow students to take the Junior and Senior Trade Certificate Examinations (Practical and Written) of the Department of Education and the City & Guilds of London Institute. Generally, students take the Junior Stage examination after two years and the Senior Stage after four years. Students who complete the course satisfactorily can proceed to more advanced courses leading to City & Guilds of London Institute qualifications, or to the craft-based Technician Course in Metal Fabrication and Welding.

Entrance Requirements

Employment as a Sheet Metalwork apprentice.

Sheet Metalwork — Off-The-Job

This course meets the requirements of first year apprentices undergoing off-the-job training in a training centre. The apprentices attend the College on 1 1/2 days plus one evening per week for classes in Trade Technology, Mathematics, Science, Drawing and General Studies. On completion of the course, students are expected to sit the Junior Trade Certificate Examination (Written and Practical) of the Department of Education.

Entrance Requirements

Employment in the Sheet Metal Industry as an apprentice.
METAL FABRICATION — DAY RELEASE
This course requires attendance on one day and one evening per week for the First and Second Year and one day per week thereafter. The course is designed to allow students to take the Junior and Senior Trade Certificate Examinations (Practical and Written) of the Department of Education and the City & Guilds of London Institute. Generally, students take the Junior Stage examination after two years and the Senior Stage examination after four years. Students completing the course in a satisfactory manner can proceed to City & Guilds of London examinations, or to the craft-based Technician Course in Metal Fabrication and Welding.

Entrance Requirements
Employment as a Metal Fabrication apprentice.

D150A  METAL FABRICATION — OFF-THE-JOB
This course meets the requirements of first year apprentices undergoing off-the-job training in a training centre. The apprentices attend the College on 1½ days plus one evening per week for classes in Trade Technology, Mathematics, Science, Drawing and General Studies. On completion of the course, students are expected to sit the Junior Trade Certificate Examination (Written and Practical) of the Department of Education.

Entrance Requirements
Employment in the Metal Fabrication Industry as an apprentice.

D150B  METAL FABRICATION — Sandwich Course
This course meets the requirements of first year apprentices undergoing off-the-job training in a Training Centre. The apprentices attend the College for one week in every three throughout the school year. They take classes in Trade Technology, Mathematics, Science, Drawing and General Studies. On completion of the course, students are expected to sit the Junior Trade Certificate Examination (Written and Practical) of the Department of Education.

D151.  PLUMBING — DAY RELEASE
This course requires attendance on one day and one evening per week for the First and Second Year and one day per week thereafter. The course is designed to allow students to take the Junior and Senior Trade Certificate Examinations (Practical and Written) of the Department of Education. The Junior examination is taken after two years and the Senior examination after four years. Students who complete the course satisfactorily can proceed to more advanced courses leading to City & Guilds of London Institute Examinations or to the craft-based Technician Course in Plumbing Technology.

D151A.  PLUMBING — OFF-THE-JOB
This course meets the requirements of first year apprentices undergoing off-the-job training in a Training Centre. The apprentices attend the College on one day plus one evening per week for classes in Trade Technology, Mathematics, Science, Drawing and General Studies. On completion of the course, students are expected to sit the Junior Trade Certificate Examination (Written and Practical) of the Department of Education.

Entrance Requirements
Employment in the Plumbing and Heating Industry as an apprentice.

D151B.  PLUMBING — BLOCK RELEASE
This requires full-time attendance for 11 weeks each year over a period of two years after which students revert to the Day Release course, as already outlined, for a further two years. It is designed to meet the requirements of apprentices who may be involved in contract work in the country.
Craft Courses

D124A
Objective
Department of Education Junior and Senior Trade Certificates plus endorsement subjects and the City & Guilds of London Craft Certificate.

Duration of Course
One year of 36 weeks.

Attendance
One week (35 hours) every three weeks for first year.

Subjects

Entrance Qualifications
Day Vocational Group Certificate or Intermediate Certificate.

D124B
Objective
Department of Education Junior and Senior Trade Certificates plus endorsement subjects.

Duration of Course
Block release for 11 weeks each year (35 hours per week) over four years.

Subjects

Entrance Qualifications
Day Vocational Group Certificate or Intermediate Certificate.

D124C
Objective
Department of Education Junior and Senior Trade Certificates with endorsement subjects.

Duration of Course
Four years of 38 weeks each year.

Attendance
One day (7 hours) and two evenings (6 hours) each week.

Subjects

Entrance Qualifications
Day Vocational Group Certificate or Intermediate Certificate.

D125
Objective
The City & Guilds of London Institute Craft Certificate 389.

Duration of Course
Two years of 38 weeks each year.

Attendance
One day (7 hours) and two evenings (6 hours) each week.

Subjects

Entrance Qualifications
Day Vocational Group Certificate or Intermediate Certificate.

D127A
Objective

Duration of Course
One year over 36 weeks.

Attendance
One week (35 hours) every 3 weeks for first year. One day (7 hours) and two evenings (6 hours) each successive year.

Subjects

Entrance Qualifications
Day Vocational Group Certificate or Intermediate Certificate.

D127B
Objective
Department of Education Junior and Senior Trade Certificates plus endorsement subjects.

Duration of Course
Block Release for 11 weeks during each year of apprenticeship with attendance at College for 35 hours each week.

Subjects

Entrance Qualifications
Day Vocational Group Certificate or Intermediate Certificate.

D127C
Objective
Department of Education Junior and Senior Trade Certificates plus endorsement subjects and the City and Guilds of London Craft Certificate.

Duration of Course
Four years of 38 weeks each year.

Attendance
1 day (7 hours) and 2 evenings (6 hours) each week.

Subjects

Entrance Qualifications
Day Vocational Group Certificate or Intermediate Certificate.

D127D
Objective

Duration of Course
One year over 36 weeks.

Attendance
One and a Half Days (10 hours) and One Evening (3 hours) each week.

Subjects

Entrance Qualifications
Day Vocational Group Certificate or Intermediate Certificate.
D127E. **LIGHT VEHICLE MECHANICS — TWO DAY RELEASE**  
**Objective** Department of Education Senior Trade Certificate with endorsements.  
**Duration of Course** Two years of 38 weeks.  
**Attendance** Two days (14 hours) each week.  
**Entrance Qualifications** Department of Education Junior Trade Certificate.

D128A **CONSTRUCTION PLANT FITTERS COURSE — OFF-THE-JOB**  
**Objective** The City & Guilds of London Institute 620, Parts I and II.  
**Duration of Course** One year over 36 weeks.  
**Attendance** One week (35 hours) every 3 weeks.  
**Subjects** Plant Technology, Plant Vehicle Electricity, Engineering Science, Mathematics, Technical Drawing, General Studies.  
**Entrance Qualifications** Day Vocational Group Certificate or Intermediate Certificate.

D128B. **CONSTRUCTION PLANT FITTERS COURSE — BLOCK RELEASE**  
**Objective** The City & Guilds of London Institute 620, Parts I and II.  
**Duration of Course** Block Release Course of 11 weeks during each year of apprenticeship with attendance at College for 35 hours each week.  
**Subjects** Plant Technology, Plant Vehicle Electricity, Engineering Science, Mathematics, Technical Drawing, Garage and Workshop Practice, General Studies.  
**Entrance Qualifications** Day Vocational Group Certificate or Intermediate Certificate.

D128C. **CONSTRUCTION PLANT FITTERS COURSE — DAY RELEASE**  
**Objective** The City & Guilds of London Institute 620, Parts I and II.  
**Duration of Course** 4 years of 38 weeks each year.  
**Attendance** 1 day (7 hours) and 2 evenings (6 hours) each week.  
**Subjects** Plant Technology, Plant Vehicle Electricity, Engineering Science, Mathematics, Technical Drawing, Garage and Workshop Practice, General Studies.  
**Entrance Qualifications** Day Vocational Group Certificate or Intermediate Certificate.

D130. **MOTOR VEHICLE PARTSMEN**  
**Objective** The City & Guilds of London Institute Vehicle Partsmen Certificate 384.  
**Duration of Course** 2 years part-time day and evening course (8 hours per week).  
**Subjects** Parts Merchandising, Commercial Practice and Office Procedures, Stores Administration, Motor Vehicle Knowledge, General Studies including English.  
**Entrance Qualifications** The City & Guilds of London Institute 380, Part I, or 381, Part I.

D131A. **LIGHT VEHICLE BODY REPAIR — OFF-THE-JOB**  
**Objective** The City & Guilds of London Institute 385, Part I, Certificate.  
**Duration of Course** One year over 36 weeks.  
**Entrance Qualifications** Day Vocational Group Certificate or Intermediate Certificate.

D131B. **LIGHT VEHICLE BODY REPAIR — DAY RELEASE**  
**Objective** The City & Guilds of London Institute 385, Parts I, II and III Certificates.  
**Duration of Course** 2 years part-time day and evening course, 1 day (7 hours) and 2 evenings (6 hours) each week, 38 weeks each year.  
**Entrance Qualifications** Day Vocational Group Certificate or Intermediate Certificate.

D134. **AUTO-ENGINEERING TECHNICIANS**  
**Objective** Department of Education Advanced Motor Car Engineering Technological Certificate and the City & Guilds of London Institute Motor Vehicle Technicians Full Technological Certificate 390 Parts II and III.  
**Duration of Course** 1 year part-time day (7 hours) and 2 evenings (6 hours) each week for 38 weeks.  
**Subjects** Motor Car Engineering, Automobile Electricity, Heat Engines, Applied Mechanics, Garage Organisation and Management.  
**Entrance Qualifications** Department of Education Senior Trade Certificate with endorsement subjects and Department of Education Intermediate Motor Car Engineering Technological Certificate (2 subjects) or the City & Guilds of London Institute 390, Part I.
D136. AUTOMOBILE ENGINEERING REFRESHER COURSE
Objective
Continuing Education Programme to prepare for the City & Guilds of London Institute 381, Part III, Modular.
Duration of Course
Short courses of 20 hours duration on modern developments and techniques in the industry.
Entrance Qualifications
Department of Education Senior Trade Certificate.

D140. FITTING AND TURNING — DAY RELEASE
Objective
Department of Education Trade Certificate (Senior Stage only).
Duration of Course
Two years of day release (1 day each week) for third and fourth year apprentices.
Subjects
Workshop Practice and Workshop Technology.
Entrance Qualifications
Department of Education Junior Trade Certificate or equivalent.

D140A. FITTING AND TURNING — OFF-THE-JOB
Objective
These courses are organised for fitting and turning apprentices attending "off-the-job" courses in Training Centres.
Duration of Course
One year of day release (1 1/2 days and 1 evening each week, or one week in three over the session).
Subjects
Entrance Qualifications
Day Vocational Group Certificate or Intermediate Certificate or equivalent.

D141. FITTING AND TURNING — BLOCK RELEASE
Objective
Department of Education Junior and Senior Trade Certificates with endorsements.
Duration of Course
Four years of block release (11 weeks each year).
Subjects
Entrance Qualifications
Day Vocational Group Certificate or Intermediate Certificate or equivalent.

D142. TOOLMAKING
Objective
This course caters for toolmaking apprentices.
Objective
Department of Education Trade Certificate examinations with endorsements.

D154. AERONAUTICAL ENGINEERING CRAFT STUDIES
D154/1 First Stage
This is a one-year course requiring attendance of one day and two evenings (13 hours) weekly per session. The course is designed to prepare students for the Part I of the City & Guilds of London Institute examinations in Aeronautical Engineering Craft Studies (Course 208) and Department of Education Junior Stage subjects.
Entrance Requirements
Day Vocational Group Certificate, Intermediate Certificate or equivalent and be employed in the Aeronautical Engineering Industry.

D154A. (Mechanical)
D154B. (Avionics)
These one-year courses are designed to prepare students for Part II of the City & Guilds of London Institute examinations in Aeronautical Engineering Craft Studies (Course No. 208) and Department of Education Trade subjects. Students may specialise in Mechanical Engineering or Avionics. Classes are held on one day and two evenings per week.
Entrance Requirements
Part I City & Guilds Aero Engineering Craft Studies.

D154A. (Mechanical)
D154B. (Avionics)
These one-year courses are designed to prepare students for Part III of the City & Guilds of London Institute examinations in Aeronautical Engineering Craft Studies (Course 208). Classes are held on one day and two evenings per week until December, and one day and three evenings per week from January to May.
Entrance Requirements
Part II, City & Guilds Aero Engineering Craft Studies.

D155. GENERAL AIRCRAFT MECHANICS COURSE
Objective
This is a block release course to prepare Aircraft apprentices for the Department of Communications Aeronautical Engineering Certificates, Parts 2, 3 and 4.
Duration of Course
Three years of block release (11 weeks each year).
Enquirers seeking further information about trade and trade-related courses should contact Departments as follows:

- **Department of Construction Trades 'A'** — E101, E102, E105, E107, E111.
- **Department of Construction Trades 'B'** — E1, E121.
- **Department of Metal Fabrication & Plumbing** — E143A, E143B, E143C, E147, E148, E149, E150, E151A, E151B.
- **Department of Engineering Trades** — E141, E142.
- **Department of Aeronautical Engineering** — E154, E154A, E154B.

### E1 CONSTRUCTION TECHNICIAN COURSE

This is a three year evening course in Building Construction and associated subjects in preparation for the Department of Education technological examinations.

- **Course Duration**: 3 years — 3 evenings per week.
- **Objectives**: Elementary level examination at the end of the first year. Intermediate level examination at the end of the second year. Advanced level examination at the end of the third year.
- **Entry Requirements**: Employment in the Construction Industry and possession of a Group or Intermediate Certificate with a Grade C in Mathematics and Mechanical Drawing, or better. Exemption from First Year of the course may be granted to an applicant who has achieved an acceptable level in Drawing and Building Subjects. Success in the Elementary Stage examination is a requirement for entry into the Second Year of the course. Success in the Intermediate Stage examination is a requirement for entry into the Final Year of the course.
- **Subjects**: 1st Year
  - Building Construction
  - Mathematics and Geometry

  2nd Year
  - Building Construction
  - Builders Quantities
  - Land Surveying and Setting-out
  - Plane and Solid Geometry

  3rd Year
  - Building Construction
  - Builders Quantities
  - Plane and Solid Geometry
Craft and Related Courses

**E101  BRICKWORK**

This course is designed to assist students to prepare for the Senior Trade Certificate Examinations of the Department of Education and the Advanced Certificates of the City & Guilds of London Institute.

**Duration**
One year, one evening per week.

**Subjects**
Trade Theory & Drawing.

**Entry Requirements**
Prospective students must have completed 3 years of apprenticeship and hold the Department of Education Junior Trade Certificate.

---

**E102  PLASTERING**

This course is designed to assist students to prepare for the Senior Trade Certificate Examination of the Department of Education and the Advanced Certificates of the City & Guilds of London Institute.

**Duration**
One year, one evening per week.

**Subjects**
Trade Theory & Drawing.

**Entry Requirements**
Prospective students must have completed 3 years of apprenticeship and hold the Department of Education Junior Trade Certificate.

---

**E105  PAINTING & DECORATING**

This course is designed to assist students to prepare for the Senior Trade Certificate Examination of the Department of Education and the Advanced Certificates of the City & Guilds of London Institute.

**Duration**
One year, one evening per week.

**Subjects**
Trade Theory & Drawing.

**Entry Requirements**
Prospective students must have completed 3 years of apprenticeship and hold the Department of Education Junior Trade Certificate.

---

**E107  VEHICLE BODY BUILDING**

This course is designed to assist students to prepare for appropriate Advanced Certificate Examinations of the City & Guilds of London Institute.

**Duration**
One year, one evening per week.

**Subjects**
Trade Theory & Drawing.

**Entry Requirements**
Prospective students must have completed 3 years of apprenticeship and have passed the City & Guilds of London Institute Certificate Examination Part I Vehicle Body Building & Repair.

---

**E111  CABINETMAKING / CHAIRMAKING**

This course is designed to assist students to prepare for the Senior Trade Certificate Examination of the Department of Education and the Advanced Certificates of the City & Guilds of London Institute.

**Duration**
One year, one evening per week.

**Subjects**
Trade Theory & Drawing.

**Entry Requirements**
Prospective students must have completed 3 years of apprenticeship and hold the Department of Education Junior Trade Certificate.

---

**E121  CARPENTRY AND JOINERY — ADVANCED**

This course is designed to assist senior apprentices and craftsmen to prepare for the Senior Trade Certificate Examination of the Department of Education and the Advanced Certificate of the City & Guilds of London Institute.

**Duration**
One year, two evenings per week.

**Subjects**
Trade Theory, Trade Practice & Drawing.

**Entry Requirements**
Prospective students must have passed the Junior Trade Certificate Examination in Carpentry and Joinery.
E143A. SHORT COURSE IN WELDING — METAL ARC and OXY-ACETYLENE
This course is designed to meet the needs of craftsmen employed in the engineering or allied industries who have little or no knowledge of welding. It is a basic course covering both gas and electric-arc welding. Each course is of six weeks duration, meeting on two evenings each week from 7.00 p.m. to 9.30 p.m.

Entrance Requirements
Employment as a craftsman in the engineering or allied trades.

E143B. SHORT COURSE IN WELDING — GAS SHIELDED ARC — MIG and TIG
This is a special evening course designed to enable senior apprentices and craftsmen employed in engineering and allied trades to become proficient in the Metal Inert-Gas and Tungsten Inert-Gas welding processes.

Duration of Course
Eight weeks (2 evenings per week).

Entrance Requirements
Employment in one of the engineering or allied trades.

E143C. WELDING — ADVANCED
This course is designed to assist craftsmen to prepare for the requirements of the I.S. 200 Irish Welding Certificate test. The course is of 26 weeks duration, meeting on two evenings per week from 7.00 p.m. to 9.30 p.m.

Duration
One year, two evenings per week.

Entrance Requirements
Employment as a craftsman in the engineering or allied trades and have completed basic welding courses to an acceptable standard.

E147. CONSTRUCTION DRAWING COURSE
This two-year evening course is designed for the student with ability and a keen interest in draughting. Different aspects of Construction Drawing will be covered.

Entrance Requirements
A Pass in the Drawing element of a Department of Education Craft Certificate, Junior Stage and/or successful completion of an entrance test.

Examination & Other Requirements
At the end of each year, students take a College Examination and an overall assessment of each student's performance will be made.

E148 CRAFT-BASED TECHNICIAN COURSE IN METAL FABRICATION & WELDING
This three-year evening course of study has been designed to enable senior apprentices and craftspersons to qualify as Craft Technicians and be capable of filling supervisory positions in the Metal Fabrication and Welding Industry.

Course of Study

Entrance Requirements
Prospective students must have completed at least three years of an appropriate craft apprenticeship and have successfully completed the Senior Stage of the Department of Education Craft Certificate Examinations, written and practical, with at least one endorsement subject where such is offered.

Examination and Other Requirements
At the end of each Stage, students will be required to sit a College examination in each subject, and pass it, before proceeding to the next Stage. A College Craft Technician Certificate will be awarded to students who have passed the College Examinations in all subjects.
E149. SHEET METAL WORK
This course is designed to assist Senior Craftsmen to prepare for the Senior Trade Certificate Examination of the Department of Education.

Duration: One year, one evening per week.
Subjects: Trade Theory & Drawing
Entry Requirements: Prospective students must have completed 3 years of apprenticeship and hold the Department of Education Junior Trade Certificate.

E150. METAL FABRICATION
This course is designed to assist Senior Apprentices and Craftsmen to prepare for the Senior Trade Certificate Examination of the Department of Education.

Duration: One year, one evening per week.
Subjects: Trade Theory & Drawing
Entry Requirements: Prospective apprentices must have completed 3 years of apprenticeship and have passed the Junior Trade Certificate.

E151A. PLUMBING
This course is designed to assist Senior Apprentices and Craftsmen to prepare for the Senior Trade Certificate Examination of the Department of Education.

Duration: One year, one evening per week.
Subjects: Trade Theory & Drawing
Entry Requirements: Prospective apprentices must have completed 3 years of apprenticeship and have passed the Junior Trade Certificate.

E151B. CRAFT-BASED TECHNICIAN COURSE IN PLUMBING TECHNOLOGY
This new three-year course of study has been designed to prepare young craftsmen as craft technicians in the Plumbing Industry.

Course of Study:

Entry Requirements: Prospective students must have completed at least three years of an appropriate craft apprenticeship and have successfully completed the Senior Stage of the Department of Education Craft Certificate Examination (Written and Practical) with endorsement where such is offered. At the end of each stage, students will be required to be successful in a College examination in each subject before proceeding to the next stage. A College Craft Technician Certificate will be awarded to students who pass the final (Stage III) examination in all subjects.

E125. MOTOR CYCLE MECHANICS
Objective: The City & Guilds of London Institute Craft Certificate 389.
Duration of Course: 2 years of 30 weeks each year, 3 evenings (9 hours) each week.
Entry Requirements: Employment as a motor cycle mechanic.

E128. CONSTRUCTION PLANT FITTERS
Objective: The City & Guilds of London Institute Full Craft Certificate 620, Part III.
Duration of Course: 1 year of 30 weeks, 2 evenings (6 hours) each week.
Entry Qualifications: The City & Guilds of London Institute 620, Certificate Part II.

E129. ELECTRICAL VEHICLE MAINTENANCE
Objective: Continuing Education Programme.
Duration of Course: 1 year of 30 weeks, 2 evenings (6 hours) each week.
Subjects: Electric Traction Motors, Switching — Electronic and Rotary, Electric Vehicle Technology.
Entry Qualifications: Department of Education Senior Trade Certificate or equivalent.

E130. MOTOR VEHICLE PARTSMEN
Objective: The City & Guilds of London Institute 384, Part II, Vehicle Partsmen.
Duration of Course: 2 years, 30 weeks per year, 2 evenings per week (6 hours).
Subjects: Parts Merchandising, Commercial Practice and Office Procedures, Stores Administration, Motor Vehicle Knowledge.
Entry Qualifications: The City & Guilds of London Institute 380, Part I or 381, Part I, or equivalent.
### E131 MOTOR VEHICLE BODY REPAIR

**Objective**
The City & Guilds of London Institute 385 Parts I and II Certificates.

**Duration of Course**
Four years. Three weeks each year.

**Attendance**
Three evenings (9 hours) each week.

**Subjects**

**Entrance Qualifications**
Day Vocational Group Certificate or Intermediate Certificate.

### E132 MOTOR VEHICLE CRAFT STUDIES — ELECTRICITY

**Objective**
The City & Guilds of London Institute 381 Part III.

**Duration of Course**
One year (1 evening per week).

**Attendance**
Three evenings (9 hours) each week.

**Subjects**
Motor Vehicle Electricity.

**Entrance Qualifications**
City & Guilds of London Institute 381 Part II or equivalent.

### E133A MOTOR VEHICLE CRAFT STUDIES — DIAGNOSTIC TECHNIQUES

**Objective**
The City & Guilds of London Institute 381 Part III.

**Duration of Course**
One year of 30 weeks.

**Attendance**
Three evenings (9 hours) each week.

**Subjects**
Diagnostic Techniques (engine), Diagnostic Techniques (transmission), Automatic Gearboxes.

**Entrance Qualifications**
City & Guilds of London Institute 381 Part II or equivalent.

### E133B MOTOR VEHICLE CRAFT STUDIES — COMPRESSED AIR SYSTEMS

**Objective**
The City & Guilds of London Institute 381 Part III.

**Duration of Course**
One year of 30 weeks.

**Attendance**
Three evenings (9 hours) each week.

**Subjects**
Compressed Air Brakes, Compression Ignition Engines, Fuel Injection Equipment, C.I. Engines.

**Entrance Qualifications**
City & Guilds of London Institute 381 Part II or equivalent.

### E133C MOTOR VEHICLE CRAFT STUDIES — ELECTRICITY

**Objective**
The City & Guilds of London Institute 381 Part III.

**Duration of Course**
One year of 30 weeks.

**Attendance**
Three evenings (9 hours) each week.

**Subjects**
Motor Vehicle Electricity.

**Entrance Qualifications**
City & Guilds of London Institute 381 Part II or equivalent.

### E134 FORK TRUCK MAINTENANCE

**Objectives**
Continuing Education Programme

**Duration of Course**
6 weeks of 5 hours each week (30 hours).

**Subjects**
Electro-Hydraulic Equipment i.e. Engine Overhaul and Maintenance.

**Entrance Qualifications**
Department of Education Senior Trade Certificate.

### E135 AUTOMOBILE ENGINEERING REFRESHER COURSE

**Objective**
Continuing Education Programme.
The City & Guilds of London Institute 381, Part III, Modular.

**Duration of Course**
Short courses of 3 weeks duration, over two evenings per week, on modern developments and techniques in the industry.

**Entrance Qualifications**
Department of Education Senior Trade Certificate.

### E141A SUPPLEMENTARY CRAFT STUDIES — NC / CNC MACHINE TOOL SETTING AND OPERATION

**Objective**
This is a one-year course to prepare mechanical engineering craftspersons for the City & Guilds 202 - 2 Supplementary Craft Studies Certificate.

**Duration of Course**
One year (1 evening per week).

**Entrance Qualifications**
Senior Trade Certificate, Department of Education City & Guilds of London Institute 205 Part II.

### E141B SUPPLEMENTARY CRAFT STUDIES — NC / CNC MACHINE TOOL PART PROGRAMMING

**Objective**
The City & Guilds of London Institute 220-3 Craft Studies Certificate or equivalent.

**Duration of Course**
One year (1 evening per week).

**Entrance Qualifications**
City & Guilds of London Institute 220 – 2 Certificate or equivalent.

### E142 MECHANICAL ENGINEERING CRAFT STUDIES

**Objective**
The City & Guilds of London Institute Mechanical Engineering Craft Studies Course No. 205, Part II and Part III. Students take the appropriate Part II examination at the end of the first year of the Course and Part III at the end of the second year.

**Duration of Course**
Two years (2 evenings per week).

**Subject Options**
Two options may be offered at Part II as follows:
- E 142 A Machinery
- E 142 B Maintenance.

Four options may be offered at Part III as follows:
- E 142 C Factory Services
- E 142 D Machining
- E 142 E Toolmaking
- E 142 F Inspection

**Entrance Qualifications**
First Year: Department of Education Junior Trade Certificate or equivalent and current attendance on block or day release courses.
Second Year: City & Guilds of London Institute 205, Part II or equivalent.
Craft & Related Courses

E154. AERONAUTICAL ENGINEERING CRAFT STUDIES

Stage 1
This is a one-year evening course requiring attendance for two evenings (6 hours) weekly per session. The course is designed to prepare students for Part I of the City & Guilds of London Institute Examinations in Aeronautical Engineering Craft Studies (Course 208).

Entrance Requirements
Day Vocational Group Certificate or Intermediate Certificate and be employed in the Aeronautical Engineering Industry.

Stage II
E154A. (Mechanical)
E154B. (Avionics)
These courses are designed to prepare students for Part II of the City & Guilds of London Institute Examination in Aeronautical Engineering Craft Studies (Course No. 208). Students may specialise in Mechanical Engineering or Avionics. Classes are held on two evenings per week for one year.

Entrance Requirements
Part I City & Guilds Aero Engineering Craft Studies.

Stage III
E154A. (Mechanical)
E154B. (Avionics)
These one-year courses are designed to prepare students for Part III of the City & Guilds of London Institute Examinations in Aeronautical Engineering Craft Studies (Course No. 208). Classes are held on two evenings per week until December and three evenings per week from January to May.

Entrance Requirements
Part II City & Guilds Aero Engineering Craft Studies.

Printing + Book Production

The School of Printing offers courses at craft apprenticeship, management and technician levels. It also provides retraining programmes to meet the challenge of the rapidly changing technologies which is impacting on the sectors of industry which it serves.

The School has a good range of modern workshops and up-to-date facilities relating to Composing, Phototypography, Lithography, Bookbinding and Print Finishing. It maintains close links with the industry and many of its graduates hold key positions in different firms and organisations.
**D80. CERTIFICATE IN PRINTING TECHNOLOGY**

This course is designed to prepare young people for administrative positions in printing and related industries. It is of two years duration and leads to a DIT Certificate award on its successful completion.

**Entrance Requirements**
The Irish Leaving Certificate with passes in five subjects including Mathematics and English, or equivalent qualification.

**Course of Study**
The following subjects are included in the programme:
- Design for Printing
- Graphic Reproduction
- Text Setting
- Machine Printing
- Bookbinding and Print Finishing
- Applied Science
- Mathematics
- Computer Applications
- Production Planning
- Accounting
- Costing and Estimating
- Marketing and Sales

**Awards**
Graduates of this course are eligible for the following award:
- Technician Certificate in Printing (Dublin Institute of Technology).

**Career Opportunities**
The majority of graduates to date have found positions in printing, publishing, or advertising firms as estimators, cost accountants, production planners, or sales personnel, while others become technical representatives for print materials and equipment suppliers.

**Dept. in charge:** Printing

---

**D80A. PRINTING TECHNICIAN CERTIFICATE (PART-TIME)**

This part-time course is intended to prepare young people for administrative positions in printing and related industries.

The course involves attendance on one day and two evenings per week over four years. Entrance requirements and course of study are similar to Course D80.

---

**D81. DIPLOMA IN GRAPHIC REPRODUCTION TECHNOLOGY**

This one-year course in Graphic Reproduction Technology has been formulated in response to the needs of the graphic industries for creative personnel with experience of the production and finishing processes in the graphic arts.

Students following the Graphic Reproduction Technology course process a wide range of items for print production. They are trained in photocomposition, camera and studio work, paste-up and planning, offset printing, screen printing and print finishing, and are expected to use these skills to produce finished products from their own designs.

The objectives were formulated in consultation with interested people in the graphic arts industries, and are a realistic assessment of the requirements of print designers.

**Entrance Requirements:**
- National Certificate in Design of the NCEA with Credit or Distinction; or
- National Certificate in Design of the NCEA with a pass and one year's relevant working experience; or
- National Diploma in Design of the NCEA; or
- equivalent qualifications.

Intending students will be expected to present a portfolio of recent work. Please note that there is no direct entry for school leavers to this course.

**Course of Study**
- Print Planning
- Photocomposition
- Camera Work
- Paste-up and Planning
- Litho Printing
- Screen Printing
- Estimating and Administration

**Award**
Graduates of the course are eligible for the award of a Diploma in Graphic Reproduction Technology (Dublin Institute of Technology)

**Career Opportunities**
Graduates should have good prospects of employment with advertising agencies, design studios, printing firms and publishing companies. They will also be capable of setting up and running their own studios or firms.

**Dept. in charge:** Printing
CRAFT & RELATED COURSES

These courses are for apprentices and young journeymen in the Printing and Bookbinding Trades. Every facility is given to students who wish to enter for the Trade Certificate Examinations of the Department of Education. These examinations are conducted in the College at the end of the session. The courses are based on the examination syllabuses of the Department. Generally, students take the Junior Stage of the Trade Certificate Examinations of the Department of Education after one year’s instruction, the Intermediate Stage after two years’ instruction, and the Senior Stage after three years.

D190. COMPOSITORS’ WORK
(Block-release Course)
First year attendance: twenty three weeks.
Second year attendance: eight weeks.
Third year attendance: eight weeks.
Students are prepared for the Trade Certificate Examinations of the Department of Education.
Entrance Requirements: Apprenticeship to the trade.

D191. BOOKBINDING
(Block-release Course)
First year attendance: twenty three weeks.
Second year attendance: eight weeks.
Third year attendance: eight weeks.
Students are prepared for the Trade Certificate Examinations of the Department of Education.
Entrance Requirements: Apprenticeship to the trade.

D192. LITHOGRAPHY
(Block-release Course)
First year attendance: twenty three weeks.
Second year attendance: eight weeks.
Third year attendance: eight weeks.
Students are prepared for the Trade Certificate Examinations of the Department of Education.
Entrance Requirements: Apprenticeship to the trade.

D193. ARCHIVAL STUDIES
A one-year part-time course designed to cover aspects of book production and printing for post-graduate students of the Diploma in Archival Studies in U.C.D.

D199. PHOTOTYPESETTING
This is a practical course for suitably qualified personnel on a wide range of modern phototypesetting and direct-impression composition equipment. Equipment includes: Pacesetter Mk IV, Linoscreen Visual Display Unit, Linocomp Direct Input Phototypesetter with electronic tape reader, Varicomp 1100 keyboard, Linotype Paul NJ200 keyboard, IBM 72 Composer, IBM Electronic Composer, Linofilm Keyboard and Photo Unit. The course will be held over a period of 13 weeks with attendance on one half-day per week.

D200. SCREEN PROCESS PRINTING
The course provides training and education for apprentices to Screen Process Printing. Attendance is on one day per week from September to June. The curriculum includes the production of positives for stencil making, production of handcut and photographic stencils, screen preparation and printing, applied science, design and applied printing.

D98. INPLANT PRINTING
A course for Inplant Printing operatives.
Subjects: Offset Printing and Platemaking; Planning, paste-up and camera work; Cutting and print finishing.
Entrance Requirements: Enrolment by the applicant’s firm or organisation.
Attendance: Two half-days (3½ hours each) and two evenings (2 hours each) per week over two years, September to June each year.
Examination: Reprographic Technique Certificate examination 517 of the City & Guilds of London Institute.
Printing + Book Production

EVENING COURSES

E83.  APPLIED PRINTING
A course requiring attendance for 2 evenings each week designed to provide those engaged in the Clerical and Administrative side of Printing with a general knowledge of the crafts involved in modern printing and of the materials and appliances used. Students who complete the course may enter the General Technical Knowledge examination of the British Printing Industries Federation. It is necessary to have passed the General Technical Knowledge examination to be accepted as a candidate for the following:
(a) Estimating examination of the British Printing Industries Federation.
(b) Printing Office Procedure examination of the British Printing Industries Federation.

E84.  COST ACCOUNTANCY FOR PRINTERS
A course requiring attendance for two evenings each week designed to prepare students for the examination of the British Printing Industries Federation.

Entrance Qualifications: Royal Society of Arts Certificate in Accounting and Office Procedure, or equivalent.

E85.  ESTIMATING FOR PRINTERS
A course requiring attendance for two evenings each week designed to prepare students for the examination of the British Printing Industries Federation.

E86.  PAPER TECHNOLOGY AND MARKETING
A 2-year course for employees of Paper Mills and Paper Merchants and Printers' employees engaged in the handling of paper transactions. Students are prepared for the examination of the National Association of Paper Merchants.

Entrance Qualifications: Department of Education Leaving Certificate.

E87.  DESIGN FOR PRINTING
This is a two-year course to prepare students for the City & Guilds of London Institute examination in Design for Printing. Classes are held on one evening per week.

Entrance Qualifications: Department of Education Leaving Certificate or Department of Education Senior Certificate in a graphic arts subject or other equivalent qualification.

E88.  INTRODUCTION TO MANAGEMENT
(GRAPHIC INDUSTRIES)
A one-year course requiring attendance at the College for two evenings per week (6 hours).

Entrance Qualifications: Department of Education Senior Trade Certificate in one of the following: Composing; Letterpress Machine Printing; Lithography and Photo-Lithography; Bookbinding and Print Finishing. Mature students with experience in the industry but who do not possess any of the foregoing qualifications may, in exceptional cases, be admitted to the course.

Subjects: Aspects of departmental management; human relations and communications in industry; production organisation; production processes.

Objectives of Course: City & Guilds of London Institute Certificate in Introduction to Management (Graphic Industries).

E89.  PACKAGING TECHNOLOGY
The course is intended for management and administrative personnel engaged in packaging and related industries. Students are prepared for the examinations of the Institute of Packaging.

Entrance Qualifications: Employment in Packaging Administration. Enrolled students are required to apply for student membership of the Institute of Packaging before commencement of the course.

Attendance: Two evenings per week, three hours each evening.
E96. PRINT SALES
An evening course for sales personnel in the Graphic Arts Industry and for those aspiring to make Graphic Arts sales their career.

Objective
B.P.I.F. examination in Printing Salesmanship.

Duration of Course
One year, one evening (2 hours) per week.

Entrance Requirements
G.T.K. examination of the B.P.I.F., or Senior Trade Certificate in Printing.

E180. BOOK AND ARCHIVE RESTORATION
The purpose of the course is to train students in the repair and presentation of books, documents, etc. It is of particular value to the staffs of hand bindaries, local record offices and those libraries concerned with the care of manuscripts and archives. Attendance is required on one evening per week. Students will be required to provide some of the materials used.

E181. BOOK PRODUCTION
This is intended for those involved in the care of books, particularly librarians, librarians under training, record office staff, etc. It will cover mechanised book production, hand bookbinding and book repair. Particular emphasis will be laid on the advantages and/or disadvantages of the various materials and binding styles used and their alternatives which may be used in the interest of economy. The techniques and terminology of forwarding, finishing and decoration will be dealt with.

E182. PRINT FINISHING
This course covers techniques and materials used in the production of books, magazines and a wide range of miscellaneous work handled in the print finishing department. Stress will be laid on hand and machine operations, e.g., wire stitching, sewing and folding, machine and hand feeding, gathering, gluing, mounting etc.

E191. BOOKBINDING AND PRINT FINISHING, RETRAINING
This is an evening course for post apprenticeship students with instruction in the latest techniques, and covers the whole range of materials and technology used in print finishing processes.

E192. LITHOGRAPHY AND PHOTO LITHOGRAPHY RETRAINING
This is an evening course for post apprenticeship students with instruction in the latest techniques of lithographic plate making and press operation. Craftsmen having completed apprenticeship to other printing processes undergo retraining in lithographic printing.

E195A. PHOTOTYPESETTING
This is a two-year evening course of practical training for suitably qualified personnel, on a wide range of phototypesetting and strike-on composition equipment.

E195B. PAPER PASTE-UP
This evening course for suitably qualified personnel, covers all aspects of newspaper paste-up including equipment, text and headline origination, grids and formats, methods of adhesion, corrections, illustration, advertisements, borders, colour spots, page assembly, proofing and subsequent processes.

E200. SCREEN PRINTING
This is a one-year course designed to up-date the skills of people already employed in Screen Printing.
One evening, 3 hours per week.
EXAMINING BODIES

The courses relate to the Examinations of the following bodies:

1. Department of Education
   (a) Technological Certificate Examination in:
   (i) Building
   (ii) Mechanical Engineering
   (iii) Motor Car Engineering
   (iv) Mathematics
   (b) Trade Certificate Examinations in:
   (i) Bricklaying and Masonry
   (ii) Cabinetmaking
   (iii) Carpentry and Joinery
   (iv) Compositors' Work
   (v) Letterpress Machine Work
   (vi) Lithography and Photo Lithography
   (vii) Bookbinding
   (viii) Motor Car Engineering
   (ix) Painting and Decorating
   (x) Plasterers' Work
   (xi) Plumbing
   (xii) Fitters' Work
   (xiii) Turners' Work
   (xiv) Metal Fabrication
   (xv) Sheet Metalwork

2. Professional Institutions
   (i) Construction Surveyors' Institute
   (ii) The Engineering Council
   (iii) Institution of Engineers of Ireland
   (iv) Institution of Mechanical Engineers
   (v) Institution of Production Engineers
   (vi) Institution of Structural Engineers
   (vii) Chartered Institute of Building Services
   (viii) Institution of Industrial Managers
   (ix) The Institute of Building
   (x) Royal Institution of Chartered Surveyors
   (xi) Royal Institute of the Architects of Ireland
   (xii) Institution of Road Transport Engineers

3. Other Bodies
   (i) British Federation of Master Printers
   (ii) City & Guilds of London Institute
   (iii) Department of Communications (Licences in Aeronautical Engineering)
   (iv) Institute of Clerks of Works in Ireland
   (v) Institute of the Motor Industry
   (vi) National Association of Paper Merchants
