EUROGAUGE

TANK CONTENTS GAUGES, LEVEL CONTROLLERS, PRESSURE GAUGES

MTF 500

Direct Mounting Tank Contents Gauge, float operated, for domestic oil storage tanks, etc., calibrated to requirements, screwed 1½" B.S.P.

EG 161 POPULAR

Semi-Permanent Pneumatic Tank Contents Gauge for all applications, Distant Reading up to 150 feet. Calibrated to requirements.

MTF 2000

Superior quality Direct Mounting Tank Contents Gauge for tanks up to 8 feet deep, calibrated to requirements, screwed 1½" and 2" B.S.P.

EG 85

Remote Reading Pneumatic Tank Contents Gauge for the smaller oil-fired installation, Simple push-button operation. Individually calibrated for tanks up to 8 feet in depth.

TFA

Whistle type Tank Filling Alarm of robust construction, 1¼", 1½", 2" and 2½" B.S.P. threads available.

EG 160 PERMANENT

Permanent Reading Tank Contents Gauge for the larger storage tank installations, Remote reading up to 500 feet and tank depths in excess of 20 feet. Calibrated to requirements. Internal or external airbell transmitters available.

EG 100

High quality Combined Altitude/Temperature Gauge with pocket, Temperature Range 70°F—250°F. Altitude Range up to 120 feet.

EFT 2

Electronic Tank Contents Gauge for the larger installation, Capacitance type. Available with probes up to 10 feet in length.

INSULATION

ROCKSIL – CAPOSITE

★ ROCKSIL Sectional Pipe Covering

Rocksil Sectional Pipe Covering is long rock wool fibres bonded with resin, preformed in two halves to fit a wide range of pipe sizes. It is used for Thermal insulation of steel and copper pipe lines. Supplied in 3 foot lengths in $\frac{1}{2}$ " to 3" thickness.

★ ROCKSIL – Building Insulation Products

The Rocksil range includes : Building Mats, Quilts, Timberfil, Building Slab, Duct Slab, Ductwrap and Acoustic Insulation.

★ CAPOSITE Moulded Pipe Covering

Caposite Moulded Pipe Covering is long fibred amosite bonded and reinforced to form robust pipe sections. Caposite provides thermal insulation of pipe lines and has a limiting temperature of 1250°F (677°C). The lower temperature limit is 70°F. Standard sizes are 3 foot lengths and thickness is 1" to 4" x $\frac{1}{2}$ " Increments to suit all pipe sizes.

Also available : Caposil 1400 and H.T.I. calcium silicate moulded blocks
● Capothane Polyurethane Rigid Slabs and Sectional Pipe Coverings ● Rocksil K Resin Bonded Slabs.

If there is a
multi-storied building,
telephone exchange
hospital, university, school,
factory or launderette
in your town,
there is almost certainly
a Pullen Pump
working in it

TYPE TB
a strong silent type

Could the facts be plainer?
It's taken for granted that when a pump
has the "Pullen" label it automatically
means it gives a lifetime of highly
efficient service - with minimum maintenance -
even under the most arduous conditions.
Have you checked the Pullen Pump invasion of your town?

Write for "Pullen Pumps" - a fully illustrated booklet about us and what we make.

Take a new look at the Osma range... from the new look Osma-Chemidus group

The OSMA range of plastic pipes & fittings takes in virtually the whole scope of building drainage and plumbing and saves you time and money right across the board. Backed by OSMA's many years' know-how in developing and marketing plastics, the range includes complete rainwater, soil, vent, waste, drain and overflow systems and has gained wide acceptance and appreciation in the building and plumbing industries.

Now the new link with CHEMIDUS means that their wide experience as major producers of heavy duty PVC pipe, ABS pipe and PVC corrugated sheeting, and the new large injection moulding division, strengthens our advanced research and production resources enabling us to ensure the supply and quality of our present range, as well as to keep up the flow of improvements and new products.

Available from leading merchants throughout Ireland or send for details to: Osma Plastics Limited, Department , Rigby Lane, Dawley Road, Hayes, Middlesex . Telephone: 01-573 7799

Osmathene Cold Water Storage Cisterns
Osma Large Diameter Systems
OsmaStone and OsmaBrick Panels
Osmarail Handrail Covering.

OUR DOWN-FIRING UPSTART!

The ody-1 is going to upset a lot of peoples' ideas. People who could see the advantages of a down-fired pressure boiler suitable for kitchen use, but thought there were too many problems.

We could see the problems and we've solved them. Result : a smaller and quieter oil-fired pressure jet boiler; small (only 34" high x 20" wide x 21" deep—over case) and quiet enough to be

suitable for kitchen installation.

But we didn't stop there; attractively priced — £106-10-0 (£98-15-0 uncased) —the ody-1 is versatile; not only can it be sited in either kitchens or boiler-houses but there are three different outputs — 60,000, 75,000 and 90,000 Btu/h —obtainable from **one** boiler shell, by a mere interchange of the burner.

Controls are accessible; installation is

easy; maintenance is easy. The casing is finished in attractive, long-lasting white enamel, and, of course, like all International Janitor products, it has been tested and re-tested before being put on the market.

Our down-firing upstart is going to be very popular with your customers.

for conditioned air
conditioned air
conditioned air

The Inductair is the quietest induction unit made. Extensive research has produced a range of nozzle plates which in addition to providing the required ratio of primary air to secondary air (up to 1-6) also permits noise levels as low as N.C. 24.

Made of durable 18 gauge sheet steel the Inductair offers many advantages. For high capacity secondary air heating or cooling, most models can be fitted with two heat exchangers both two rows deep. Filters can be incorporated to extract dust, etc. from the room air. The handing of all connections can be easily changed on site to facilitate installation.

Inductairs are available 23", 17" and 12" high for fitting below window sills or a horizontal model can be supplied for installation in a false ceiling.

Write today or 'phone now for detailed literature.

Valves and boiler mountings supplied by Hopkinsons

Safe and efficient operation of steam generating plant depends to a large extent on the reliability of the valves and boiler mountings chosen as original equipment.

The boilers illustrated in this advertisement are fitted with Hopkinsons valves and boiler mountings. Hopkinsons equipment was specified because good design and reliability—proved under arduous operating conditions throughout the world—makes 'Hopkinsons' the natural choice when only the best is good enough. You can't do better than specify Hopkinsons valves and boiler mountings as standard equipment.

NOW *Hamlet* BRINGS CENTRAL HEATING within the reach of all

- NOW** A central heating boiler that is foolproof. The *Hamlet* has no gimmicks, just one knob to control everything.
- NOW** A central heating boiler that is made to last. The *Hamlet* is made to last a lifetime serving 8 to 10 radiators.
- NOW** A central heating boiler that need not be hidden away. The *Hamlet* looks so good, it can take pride of place in kitchen or living room.
- NOW** A central heating boiler in a compact, sensible size. The *Hamlet* is only 26" x 20" x 14".
- NOW** A central heating boiler that can be installed anytime. The *Hamlet* is designed for installation in existing houses or as the house is being built.
- NOW** A central heating boiler that is sensibly priced. The *Hamlet* recommended retail price is £58. (plus taxes).
- NOW** A central heating boiler that is manufactured in Ireland. The *Hamlet* is one of the quality products of the Hammond Lane Group of Companies.
- NOW** A central heating boiler that heats 160 sq.ft. of radiator surface with domestic hot water or 210 sq.ft. of radiator surface without hot water.
AND THAT'S NOT ALL: the new Maid Stainless Steel Domestic Hot Water Cylinder (direct or indirect) is creating enormous interest.

The *Hamlet* and Stainless Steel Hot Water Cylinders are brought to you by the Hammond Lane Group; Manufacturers of 'Maid' Stainless Steel Sinks, 'Stylebeds', 'Elite', and 'Jubilee' oil burning Cookers, Galvanised Storage and expansion tanks and a host of other high quality products. ONE MILLION AND MORE

One million what? One million BTU/hr. that's what the Tempo Boiler can offer you! But before we tell you more, first some facts!

The Irish designed Tempo Boiler is made in Arklow by Weldryte Ltd. This means that Weldryte can offer on the spot advice and service. Gordon Brickenden personally supervises the testing of every boiler.

The Tempo Boilers are competitive in price compared with non-Irish made ones, even when we consider the fact that foreign made boilers can be imported "tariff free." Weldryte is therefore already geared to Free Trade conditions when it comes to £ s. d. There are hot water boilers available at the moment ranging from 150,000 to 1.6 million BTU/hr. Suitable for supermarkets, restaurants, schools, office blocks, factories, institutions, etc.

The Tempo boiler is reliable and economical, as many users throughout the country already know.

And did you know that Weldryte also makes the Tempo air-heater, equally effective in performance and just as competitive in price as the Tempo boilers?

Before importing your heating equipment why not drop us a line (or ring us) to find out something more about Tempo products?

TEMPO PRODUCTS, DESIGNED,

He's hot stuff

like all other members of the Brightside team. And that's no idle boast. Our team of experts are always at your service for

CENTRAL HEATING — PLUMBING
AIR CONDITIONING — REFRIGERATION

BRIGHTSIDE

ENGINEERING LTD. (IRE), Brightside House, 31 Upr. Mount St., Dublin, 2

WHEN ITS HOT WATER AND HEATING IT MUST BE HOVAL

**HOVAL BOILER
TKM : Super-
seding the Hoval
Boiler TKO.**

For oil firing
with provision
for solid fuel
burning.

Rating from
80,000 — 120,000
Bth/hr.

Combination
boiler for heat-
ing and hot
water.

33 gallon calorifier in stainless
steel, giving 88 gallons per hour
hot water.

**HOVAL BOILER
TG : For Gas
firing.**

Rating from
56,000 — 120,000
Bth/hr.

Combination
boiler for heat-
ing and hot
water.

18 and 33 gallon calorifiers in
stainless steel (giving 57 and 87
gallons per hour hot water).

Fully automatic with built-in
controls, variable head pump,
mixing valve and burner for all
gases.

**HOVAL BOILER
TKU : Super-
seding the small
range of the
Hoval Boiler
TKS.**

For oil / solid
fuel or gas firing

Rating from
160,000 — 240,000
Bth/hr.

Combination
boiler for heat-
ing and hot
water.

Wide selection of stainless steel
calorifier sizes (40-80 gallons),
giving 100 to 176 gallons per hour
hot water.

**HOVAL BOILER
TKS : For oil/
solid fuel or gas
firing.**

Rating from
230,000 to 2 million
Bth/hr.

Combination
boiler for heat-
ing and hot
water.

Wide selection
of calorifier sizes
(30 - 450 gallon)
Up to 520,000
Bth/hr. All

calorifiers are in stainless steel,
above in galvanized steel. Copper
calorifiers are available for the
entire range.

Boilers with ratings from 230,000
to 520,000 Bth/hr. are available
with heat exchange element for
swimming pool heating.

**HOVAL BOILER
TKO-R : Super-
seding the Hoval
Boilers TKD 130
to 200.**

For oil or gas
firing.

Rating from
380,000 — 800,000
Bth/hr.

Combination
high output
boiler for heat-
ing and hot
water and high
output boiler for
heating only.

Wide selection of calorifier sizes
(100-220 gallons), either in stain-
less steel as standard or in
copper. Stainless steel calorifier
outputs from 249 to 511 gallons
per hour.

**HOVAL BOILER
TKD-R : Super-
seding the Hoval
Boilers TKD 250
to 1250.**

For oil or gas
firing.

Rating from
900,000 - 22 mil-
lion Bth/hr.

Combination
high output
boiler for heat-
ing and hot
water (up to 5.3
million Bth/hr.)
and high output boiler for heat-
ing only (up to 22 million Bth/
hr).

Wide selection of calorifier sizes
(110-660 gallons) in either stain-
less steel, galvanized steel or
copper. Stainless steel calorifier
outputs from 300-1,400 gallons
per hour.

**HOVAL COMBINATION
BOILERS TAKE UP LESS
SPACE — DEMAND LESS
LABOUR FOR INSTALLA-
TION AND COST LESS TO
RUN THAN ANY OTHER
SYSTEM.**

CLYDE FUEL SYSTEMS (IRELAND) LTD.

Ireland's Largest Oil Burner Organisation

**6, MOUNT ST. CRESCENT,
DUBLIN, 2.**

Beat these

Beat this for price

The Ygnette Mk II
10 models of hot water boiler
from 4 to 5 million Btu with the
trimmings cut to bring the price
down.

Beat this for appearance and function

The '606'
17 models of hot water boiler
from 4 to 16 million Btu with all
the best features of previous
Allen Ygnis boilers and a crisp
new appearance.

Beat this for steam

14 models of steam boiler from
400 to 12,000 lb/hr, and working
pressures up to 150 psi.

If we can't solve your feed-water problem...

start worrying!

Fortunately Feedwater Specialists Company provide a complete service which will solve every water treatment problem. Each year millions of £'s are wasted in Industry due to inefficient boilers and cooling systems. We are Industrial Water Treatment Consultants, and supply all types of water treatment plants and feeding equipment, together with the appropriate chemicals. Fuel Additives are very much part of our business.

The service of our Laboratories and Chemical Engineering Department are available for guidance and for prepared schemes for any relevant problem.

Consult the Specialists—FEEDWATER!

EUROPAIR

FIBREGLASS DUCT SYSTEM

The lightweight duct, thermally insulated and sound attenuated, fabricated in one operation and easy to install.

DESIGN CRITERIA

VCRF — 3,400 FPM; VRF — 2,400 FPM; Pressure — 2" W.G.
Temp. Limit — 250°F; Thermal Control — "K".22 AF 75°F Meen;
Noise absorption — .75 - .85 (1"). Will not support or promote
bacterial or fungus growth. Safety — No flame spread.

EUROPAIR (IRELAND) LTD.

EUROPAIR HOUSE, ARDEE ROAD, RATHMINES, DUBLIN 6. Tel. 975747/8/9.

NEW SYSTEMS & CONTROLS from Germany

WILO

PUMPS

• 3 YEAR
GUARANTEE

FILLTROL

Diaphragm type expansion tank with automatic system fill valve :

- FILLTROL fills the heating system automatically to the required minimum pressure.
- FILLTROL prevents pressure falling to below minimum.
- FILLTROL is easy to service.

FOR ONE
PIPE
HEATING SYSTEM

FOUR WAY RADIATOR MIXING VALVE

TAIFUN

Fully Automatic Oil Burner
Type T11

Range 60-360,000 Btu/hr. Air control on pressure and on intake side, to suit high or low resistant boilers. 100% Efficiency — 100% Reliable. Space Saving, suits all types of boilers. Makes three attempts to ignite before locking-out.

CONTROLLED HEATING SERVICES LTD., 66 Francis Street, Dublin 8.

CENTRAL HEATING

You'll be living with the system you pick for a long time, so you may as well pick the right one to begin with. You'll find it in Brooks Thomas — the house for central heating.

Instantaneous HOT WATER from steam — without storage

Cox Steam and Water Mixers deliver from 50 to 24,000 gallons per hour.

They operate with the highest efficiency at all pressures. Silent, efficient, compact and easy to install, replacing bulky and costly calorifiers.

MODELS :

- ★ (1) BABY COX (1/2") for wash-basins, sinks, etc.
- ★ (2) JUNIOR COX 1-5 (3/4"-2") for process work, vats and general purposes.
- ★ (3) SENIOR COX (2 1/2"-8") for large volumes of hot water for process hot water supplies.

**NO TIME LAG - NO STORAGE - NO STEAM TRAPS
 NO LOSS OF CONDENSATION - NO MOVING
 PARTS TO GO WRONG**

COX WATER HEATERS

ELECTRICITY SUPPLY BOARD

IMPORTANT NOTICE TO BUILDING AND CIVIL ENGINEERING CONTRACTORS

The attention of building and civil engineering contractors and all others concerned is drawn to the danger of fatal accidents when carrying out work in the proximity of E.S.B. overhead lines and underground cables.

OVERHEAD LINES

The use of cranes, excavators, hoists, drilling rigs and scaffolding near live overhead lines involves the risk of electrocution. Take no risks; ensure that your employees are fully informed of the danger and that they take effective measures to maintain a safe working distance. If, however, it is essential to use such equipment near overhead lines, the nearest E.S.B. office should be asked to make arrangements to enable the work to be carried out safely. There will be no unreasonable delay in making the lines safe and in general this will be done at no cost to the contractor.

UNDERGROUND CABLES

Serious danger to life exists where any excavation work as for foundations for buildings or trenches for pipe-lines is carried out near E.S.B. underground cables. The nearest E.S.B. office will, on request, advise on the location of cables and will make any necessary arrangements to enable the work to proceed in safety.

PRICE YOURSELF IN WITH A . . .

FULLY INSULATED AND APPROVED ICL CHIMNEY

- * Saves building the traditional brick chimney for solid fuel, oil or gas appliances.
- * Can be speedily erected and installed by the Heating Engineer.
- * Range of adaptors to fit all standard flue pipes and appliances.
- * Free design service.

The ICL Chimney, developed and manufactured for use on Oil, Solid Fuel or Gas appliances, can be erected within 30 minutes by two men at any stage of the house construction. It requires no special skills, or foundation, as it is available in a variety of lengths, to suit any installation and weighs only 5 lbs. per foot. Comprising an EN 58E stainless steel liner, a cartridge of fibrous mineral wool, and a heavily galvanised outer casing with patented stainless steel male and female end caps, ICL is the first British prefabricated metal chimney to be fully approved. Supplied complete with all necessary fittings and adaptors.

AGREEMENT CERTIFICATE 68/6.

Stillite can take the echo out of 2,000 voices

think what it could do for you!

Acoustic correction in a building as massive and unusual as Liverpool's Metropolitan Cathedral of Christ the King presents enormous problems. To achieve a desired reverberation time of 0.5 seconds, the entire conical roof was lined internally with some 3,000 hollow wooden panels—lined with Stillite 2" thick Semi Rigid Slabs. This resulted in the right degree of absorption whilst retaining the aesthetic appeal of the construction.

Stillite mineral wool was chosen because it not only reduced reverberation time to an acceptable level but provided a high degree of thermal insulation and fire protection for the roof structure. However large or small the job may be, Stillite is ideal. Its fine fibre structure gives better pound-for-pound insulation value than any other material, offering consistently lower costs over the full 22-product range, representative grades of which are non-combustible in accordance with BS476: Part 1: 1953.

There is ample production capacity to meet planned delivery schedules. Our technical department will advise you in choosing the right Stillite material on any type of heat or sound insulation problem.

Vennerette - the large capacity time switch

The compact and adaptable Vennerette handles loads of up to 6kW giving two switching periods in each 24-hour cycle. Setting, with the new Easiset dial, is simplicity itself. Separate clock connections and a manual by-pass switch are fitted as standard. *All this costs only £5. 9s. 6d.*

A solar dial model, for exterior lighting; and a selective model, which cancels the programme automatically on preset days, are also available.

Display material available.

New Facility A new version of the Vennerette with facility for fitting mineral insulated cable glands or conduit has recently been introduced.

LOW COST · EASY TO INSTALL

You must show the product

said our Guv'nor

But performance, we argued, was the main thing about Worthington-Simpson gear pumps. They will handle liquids up to 9000 seconds Redwood No. 1. The herringbone gears, which will not trap liquid, give low power consumption and smooth flow. Motors can be drip proof or totally enclosed fan-cooled. Capacities are up to 46 G.P.M. and pressures up to 150 p.s.i.

These pumps are particularly suitable for building into other equipment. With this in mind, they are available in four sizes of flange mounting units, with double suction and discharge ports giving 28 different piping arrangements. The pumps are also available foot mounted for direct coupling, or with pump and motor combined.

But you must show the pumps, he said.

So here is a Worthington-Simpson rotary gear pump, type G.A. foot mounted.

Bulletin WS-5185 gives full details.

Worthington - Simpson Ltd

Harris heat is moving forward ...

- Improved deliveries — no delays
- Largest range — A heater for every application
- Harris Heaters — All built to the famous thoroughbred tradition

- Manufactured in Northern Ireland
- Move forward with us — Heat with Harris

**...That's what it says -
but only you can make
it certain**

The installation's your job. They want a dependable supply of piping hot water - it's up to you to recommend the right heater. Heatrae is a name they'll know - a name they'll trust - and they'll like the wide choice of Electric Water Heaters Heatrae make.

From five gallons to fifty gallons - wall or floor mounting - 'Off-Peak' or normal tariff - Heatrae cater for every need.

You know it's wise to recommend Heatrae, so send now for the latest literature

THE GREAT NAME IN WATER HEATING

Please write for full details to:

Powerized Sewer and Pipe Cleaning Service

●

MAINTENANCE

Can be extended by industry and local authority to cover the hitherto neglected and very important parts of their operation, supply and removal of fluids.

PREVENTION

Problems of decreased flow, whether drains, sewers or watermains, can be prevented and the danger of costly emergencies removed.

SERVICE

Our units are unique in design, and our operators are experienced and take pride in their work.

Mechanical Cleaning of every type of Industrial Pipeline by Pressure Scraping . . . Power Winching . . . Water Jetting.

**Our Mobile
Cleaning Units are
available for :-**

- ★ INTERCOOLER
- ★ WASTE LINES
- ★ SUMP PITS
- ★ BOILERS
- ★ CULVERTS
- ★ EFFLUENT DRAINS
- ★ GAS MAINS
- ★ COMPRESSORS

INSULEX

A POLYURETHANE FLEXIBLE FOAM PIPE INSULATION

INSULEX is a soft foam plastic material comprising of 5% polyurethane foam plastic and 95% air. It is constructed of a large number of air cells with diameter less than 0.5mm.

It is not attacked by air, gases, grease, oil, or mild acids and chemicals, nor cannot be damaged by most solvents.

INSULEX has a melting point between 180° and 220°C. and can safely be used on hot water pipe-lines, usual central heating lines, and low pressure steam lines.

INSULEX has a smooth water-proof surface which stands low temperatures and can be used on pipes for cold water and on refrigeration pipework. It is also an acoustic insulator.

Thermal conductivity of 0.22 B.T.U.'s/inch thickness/square/foot/hour. %F at a mean Temperature of 70°F.

Water absorption (24 hours)—0.59% by volume. Air transmission—0.73 cubic ft./inch/hour/sq. ft. at 10" Hg. static pressure. Fire rating—self extinguishing.

INSULEX Tapes available in 1", 1½" and 2" widths.

Choose a
BIRAL PUMP
for your heating system

Simple installation — glandless rotors — robust bearings — low electricity consumption — silent in operation — no maintenance — high efficiency. Heating pumps : Type Z (high heads), Type P (low heads), Type Regula (variable head for small bore systems). Domestic hot water pump, Type G.

You can expect full reliability and unpretentiousness

Submersible Mo-Pump for Sump Drainage

(as illustrated)

Designed for sump applications in cellars, boiler houses, lift wells and other premises below sewer level or as a portable pump for de-watering of ducts and pools.

- Suppliers of Pumps to the Heating Trade and Industry.
- Flow Meters and Controls to Public Bodies and Industry.
- Butterfly Valves, Steel Valves and other specialised equipment

you can collect your TERRAIN PVC systems from Unidare on your way to the site.

And you'll probably meet some of your friends in the trade there!

The early opening of the trade counter at Unidare enables you to get the materials you need to get on with the job without delay. We're always pretty busy, even at 8.31 a.m.—not surprising when we sell such products as 'Terrain'!

After the success of 'TERRAIN' Rainwater and Soil and Waste Systems, in such projects as the New Dail Eireann buildings and Ballymun, architects and builders have a very high opinion of 'Terrain'. And rightly so. It is the most comprehensive system of PVC fittings available today. The 'Terrain' Rainwater system has been specially designed to cope with the problems a builder is most likely to come across in roof drainage. It is a highly efficient twelve unit system of roof drainage, with plain ended pipe and true half round gutter. The gauge of pipe and gutter ensures a rigid, stable and durable system.

The 'Terrain' Soil and Waste system incorporates simple adhesive plus reliable Expansion Joints which slip together in moments, on the site. Prefabricated stacks can be obtained, thus reducing 'on site' work to a minimum. This is supported by an advisory service through a Technical Department which will interpret standard sanitation schemes in 'Terrain' PVC Soil and Waste. With 'Terrain' Rainwater and Soil and Waste systems the Architect and Builder can be assured of a constant high standard and immediate supplies.

UNIDARE LTD.,
FINGLAS, DUBLIN 11. TEL. 771801.
OR FROM YOUR LOCAL STOCKIST.

NOW! A COMPLETE CLEANING SERVICE TO INDUSTRY

HIGH PRESSURE WATER WASHING

Anything from Boilers, Heat Exchange Plants, Pipes and Drains to Bridges and Cranes can be thoroughly cleaned.

CHEMICAL CLEANING — Expertly undertaken by us . . . we are the N.I. Agents for Atlas McAlpine Ltd.

TANK CLEANING — Ensure round - the - year efficiency by having your Oil Tanks, Septic Tanks, etc., regularly cleaned by our Vacuum Tanker !

ANYWHERE — ANYTIME — CONTACT

RESERVED FOR PIPE USERS

You can't improve on this for pipe cleaning but when it comes to pipe-threading, reaming and cutting you need the revolutionary RIDGID 535 from Hendrons. This is the ultra-modern, power-driven equipment which is speeding up pipe-work throughout America and now — thanks to Hendrons — in Ireland as well. It's only one of the great family of efficient RIDGID tools, wrenches, cutters, threaders and benders in the latest catalogue issued by Hendrons.

Introducing the new Scanflow copper connection valve

'You asked for it, so we produced it'—The new Scanflow copper connection valve. Available in $\frac{1}{2}$ " and $\frac{3}{4}$ " chrome or brass, wheelhead or lockshield, straight or angle. The Scanflow 'C' complimenting the existing and highly successful range of Scanflow full flow radiator valves, has the following features:

- * Copper connection only.
- * Increased tail-end connection length.
- * Longer internal reach for tube connection into the valve body.
- * Attractive white wheelhead and lockshield caps.

Plus all the advantages of the well proven Scanflow design—

- * Double gland sealing.
- * Non-rising spindle.
- * Internal hexagon in tail-end union.
- * Back seating when fully open.
- * Tapered thread to B.S. 21.
- * Individually tested to 300 p.s.i.

Get to know more about the Scanflow 'C', designed and engineered in the traditional Scanflow quality—a point proved by the sale of two million in two years!

SCANLINE LIMITED

ADDITIONS:

Readers are advised to watch the July and future IPHE issues for details of further changes and amendments.

For new schemes or conversions

the **Flush Panel** makes the most of your space

The major design feature of the 'Flush Panel' is its projection of only 4 $\frac{1}{2}$ ". This means that complete with toilet pan, the total projection need be no more than 23 $\frac{1}{2}$ ". This gives real scope for design and economy of space.

The 'Flush Panel' has other important features too—including 'O' ring flush pipe connection, the 'Acquasave' Mk. 2 ball valve, and the unique 'Presto' top press flushing action. It is fixed direct to the wall with just 4 screws, and in the case of conversions, its slimmness means that the existing soil pipe can be used.

The 'Flush Panel' outdates other cisterns in design and application. Write for full technical details.
