Cathal Brugha St Extension Open

The long awaited and very impressive, nine-storey extension to DIT Cathal Brugha St was officially opened during the summer by then-Minister for Education, Niamh Bhreathnach, amid the gathering at Marlboro St.

Many dignitaries gathered for the cheese-and-wine reception in the new building, which has its main entrance directly opposite the Department of Environmental Health in the (training) bar, while the wine flowed in deluvian proportions in the new extension, and it will contain class rooms, science laboratories, staff areas and, most importantly, the training bar.

Sinead Pidgeon, DITSU President, said that while she welcomed degree awarding powers, 'The full effects for students won't be realised until the Institute receives its long-overdue status as a University.'

Dr. Brendan Goldsmith, as well as members of DIT Governing Body and staff throughout the DIT, gave a lifting speech regarding the remarkable headway made by the DIT in its short, yet successful, incarnation to date. He described the extension as "a symbol of the further development of the Institute since its establishment in 1993."

The School of Food Science and Environmental Health will be housed in the new extension, and it will contain class rooms, science laboratories, staff areas and, most importantly, the training bar.

It's September again, only this time you're in the DIT for at least the first time in your life. The downside is that you're here to educate yourself, learn the ins and outs of your particular craft, and try and round your personality and character some more.

The upside is that you can get a lot of the time, dodge a reasonable amount of lectures without being a twat about the whole thing, and participate in the largest students' union in the country. If in sport, drink, cinema, music, fruit, waft or whatever you want, it'll be in the DIT Examiner. If its not in it, write something about it, and send it in to the address above. Do not send money, drugs or animals through the post, as these items generally tend to settle during transit and invariably come out the other end in a right old mess.

You must remember that, above all, this is your newspaper, you control its destiny and what it will have to say for the coming year. Fill it. Mean Famhar ata ann aris agus tá tú in TBRAC don chéad uair, ar a laghad. An droch-scéal ná go bhfuil tú ansin le oideachas d'aithdhe, le foighnimh faoi na tréithe tábhachtí a bhainann le do thoil, agus chuán do charactar agus pearmantacht a mhíniúidh chuimhneacht. Great Paper

Dear Sir,

what the hell do you mean by refusing to publish argumentative and disparaging letters by disgruntled punters? You'd think all students were useless, literate, spurious plebs who write nothing to do all day but write venomous letters to newspaper editors. I've been writing to you each issue without fail, and have yet to see any of my work published.

This merely highlights the fact that your newspaper has lost touch with the greater student body and the issues which dictate their agendas.

Incredibly, that episode of Eastenders which depicted the Irish as a bunch of drunken malathas with no self-respect and serious personality problems hit the nail right on the head for me. In all my life I've never met such a bunch of detached semi-pro dipoos. And the roads are desperate. And another thing, if I wasn't so busy keeping tabs on the moral decline of student newspapers I'd be out there campaigning for some thing or other.

Yours,
Lando Calrissian,
Sky City.

Dear Sir,

will you publish my letter in the Examiner?

**Gaisce**

**THE NATIONAL CHALLENGE AWARD**

Gaisce is the most prestigious National Award in Ireland for young people who set and achieve a demanding challenge for themselves. It is open to young adults up to the age of 25. A wide range of youth organisations, sporting organisations, educational establishments and industry are involved.

The Gaisce programme is essentially about agreeing a challenge with a young person that she/he will endeavour to reach from an agreed time onwards. The challenge is relative to the person's ability. It sets out to develop the young person as an individual and also to introduce him/her to community involvement.

Gaisce is non-competitive, in that each young person who achieves their agreed challenge (for either bronze, silver or gold) will get their award. Bronze and Silver Awards are targetted at young people in one particular year of their secondary education. This is normally the year after the Junior Certificate or the transition year.

Gold Awards are targeted at young people who have left second level education and who have the time and the ability to take on a very demanding challenge.

This is achieved either at college or in employer bodies or indeed with young unemployed people. It takes about one year to complete the activities for a Bronze Award, one and half years for a Silver Award and two years for a Gold Award.

Awards are presented to young people who set and achieve a demanding challenge of themselves in each of the following four areas:

- **A community activity; e.g. lifesaving**
- **A personal skill; e.g. learning to play a musical instrument**
- **A physical activity; e.g. martial arts**
- **An adventurous; e.g. an adventurous expedition**

Gaisce is the National Challenge Award from the President of Ireland to the young people of Ireland. A similar type of Award operates in 66 countries worldwide and it is generally recognised as one of the world's most successful young programmes. The word Gaisce is an old Irish word meaning 'a deed of valour', 'a great achievement' or 'a proud moment'.

Bronze and Silver Awards are presented annually by celebrities and dignitaries. Gold Awards are presented annually by the President of Ireland in Dublin Castle.

WHO'S GOT THE BIGGEST PEN?

For many months last year the Examiner is here for the specific purpose of giving you a place to voice your opinions and thoughts on all things sporting.

It doesn't even have to be sport in the narrow sense; if you think swimming as a sport, then go on! Send something in to the Examiner. Who knows? It might slip past our sub-editor's board and get printed?

Watch out for major events throughout the year in the more popular categories, and draw attention to the ones you feel are being hard done by. Only YOU can make the difference. Especially if you get your mates to help. Think of all the best companies just dying to sponsor sporting challenges and competitions. You'd be a fool to let this chance slip by. As large multinational sporting goods companies sometimes say, Do It, Just.

New GAA Officer for the DIT

Barry Downey, DIT's new GAA Development Officer

Welcome back to a new year that hopefully will prove as successful as our previous year in GAA.

This year brings with it a new face, that of DIT GAA Officer Barry Downey who takes over from previous officer Josephine Rogers.

Barry hails from Dublin and is a member of the St. Anne's (Bohernabreena) Club. Injury ended his playing days in 1991 and since then he has been making a name for himself in the world of coaching, working with the Dublin County Board for almost five years.

Barry's new role deals with all aspects of GAA and its sports. He is there to set up clubs administration, structures to assist clubs, teams and students. So, if you have any queries on clubs, games or training, then give Barry a call on ext. 3424 (ad prefix 402 if dialling from outside DIT) or mobile 088 270 58 72.

D.I.T. Sports Day

THE FA PREMIERSHIP

Here's a quick look at all the teams in the most exciting league in the world...with Del Godson

Arsenal
The Gunners have a real chance of collecting some silverware this season. Always hard to score against and with proven goal-scorers like Wright, Bergkamp and Marc Overmars, they should end the season with a trophy.

Aston Villa
Have made a poor start. Big signing Collymore, who, in my book is over-rated, will want to bag at least 20 goals for them to have any success. Reliable Younker and Draper will be their successes.

Barnsley
I think they will find it too tough in the Premiership. My guess is they will go down come May.

Blackburn Rovers
With Dahlin, Sutton and Flitcroft, they stand a good chance of battling for the title. Roy Hodgson is obviously a man well capable of winning in the big time. And if time is a drug, then Roy Hodgson is a giant manager injecting it into the FAH soccerbook.

Chelsea
Another team with a serious chance of adding to last years FA Cup with more silverware. Zola, LeBoeuf, De Matteo, Hughes, Vialli & Co. have shown that on their day they're a match for anyone.

Coventry City
Dion Dublin is their greatest threat up front with McAllister holding things in midfield. They've escaped relegation once too many times for me.

Crystal Palace
I can see Lombardo making an impact at Palace, however, they will need some more world class players stand any chance of staying up.

Derby County
Like last season Derby will be hard to beat. Asanovic; and Sturridge should cause defensive problems.

Everton
I think they've a long way to go to the successful days of the eighties. They need more consistency up front.

Leeds United
I'm afraid it's another mid-table year for the boys at Elland Road. Hasselbaink and Bowyer will score some goals but Leeds are always hard to score against so they will finish around eighth or ninth.

Leicester City
They have already beaten Liverpool at Anfield, but with European games added to their season I can't see them doing much else. Key players are Heskey, Clarke and Irizzat.

Liverpool
Following their recent disappointing seasons, Liverpool have bought Ince, Leonardson, Murphy, Karl Heinz-Ridle and along with Fowler and new whiz kid Michael Owen I will be very surprised if they are not crowned champions. They have played some of the best football in recent years and with their new signings aboard they will have the strength and character to go all the way.

Manchester United
They won the title last year without being outstanding. Sharpe/ham should make a great difference up front. They will miss Cantona a lot, although with Beckham and Keane they will be a force to be reckoned with. I would say that their biggest hope of a trophy is the European Cup, which I'm confident that they will win.

Newcastle United
Haven't a hope of winning the league without Shearer. Only joking! Under King Kenny anything is possible. Liverpool's biggest challenger for the title. I think Ian Rush will score a lot more for the toon army than he did for Leeds last Season.

Sheffield Wednesday
Always a surprise, well for a bit of each season anyway. Paolo Di Canio should make a difference up front. A good bet for either the Coca-Cola cup or the FA Cup.

Southampton
They've made a bad start to the season. They always seem to survive by the skin of their teeth but not this year I fear.

Tottenham Hotspur
In definitely Gerry Francis' last season in charge if they cannot collect some silverware. A man who of all time has proven to be a great person. David Ginola should keep Francis in a job at least till next year.

West Ham United
Last year they barely survived, this year will be different. John Hartson & Paul Elliot just can't stop scoring. Well capable of a place in Europe next season.

Wimbledon
Unlike last season's great start, I can't see Wimbledon doing much this season. Finney is a great manager though his resources are limited and so is his squad.

ALBUMS

David Holmes 'Let's Get Killed' is by all accounts tales of New York. This album was born in the summer of 1996, when David travelled from his home in Belfast to America to explore Hell's Kitchen and the mayhem it offers. He went to Central Park to watch the skaters wheel by. Certain tunes became interlinked with his New York escapades. 'Rodney Years' is a tribute to all the big guns of the beats circuit since the Sugar Hill Gang, right through to the untouchable DJ Shadow clearly likes giving his tunes titles which sound like Swedish sentences, as Stem / Long Stem ** Transmission 2 proves conclusively. This is the Guinness one.

Portishead

To be released on the 29th September 1997.
Well about time! If you have never heard of these former Mercury Award winners, honestly don't think you know where the hell you have been for the last few years! The debut album, 'Dummy', was a refreshingly different album released, with 'Portishead' following in the same vein. The story of Portishead is like that of many other bands: Barrow and Gibbons met on an Enterprise Allowance Scheme induction course. The wonders of the dole! The most amazing thing about this album is the way songs lodge in the memory. They ridiculed the 'difficult second album' syndrome, but it took three years to cement their second riveting trip-hop collection. There are moments of sheer terror here, echoes and shadows. 'Humming' is pure cine-funk, 'Cowboys' is already for me the great lost single of '97, the list of moments is endless. Portishead have realised that life is harsh but they are harsher! For all those who know their stuff, you would be a fool not to drown in them again.

Some geezer in the Guardian mentioned the wool' genius' when treating the Shadow's latest disk to a listen. Some might agree, and even though I don't, it's still a ground-breaking record. The Number Song, the third track on Extraducing is a blast of progressive hip-hop giving plenty of BPM and a particularly juicy tom break in the middle. A delightful horns breakdown shares the limelight with the bass heavy piano background to round this one off.

What does your Soul Look Like (Pt 4), the fifth on the disk, is very good. From here, your soul looks very content indeed. This song has absolutely no intention of leaving the couch for any reason. The mesmeric bass doesn't change throughout, but with the jazz-style crash going on behind it, it makes for a very relaxing number. Could verge dangerously towards the boring, though.

The Driven are in conversation with the SONIC BIONIC interview.

Where did you go? When the Bluetones came to town.

Three quarters of the Bluetones spoke to Chaos about recording their new album (while attached to Tequila drops), old A-Ha records and the sound of gun-shooters. The Bluetones are guitarist Adam Devlin, drummer Eds Chesters, and brothers Mark (vocals) and Scott (bass) Morris.

The four are one and they have no leader. They exist as a musical entity for about five years now, and to this day continue to exhibit human traits and characteristics, despite being "in a band".

Eds and Scott are walking in their Oxford gym dressing room, preparing to giggle later in the evening. Apparently the band are rock, particularly the sound's blues.

Is there anything you wanted or expected to hear from this new album while recording it?

"Just for ourselves, we can hear how we've grown as a group. There were certain things we expected from it such as the sound of this record, compared to the last one." More produced?

"Not necessarily. We've got more control over the sounds now than we used to have," explains Scott. "We have more of an idea about the sounds we wanted to hear." "We kind of know how to do it. A bit, like," adds Eds, taping a beer. "It took them weeks in all kosked but the tank of clenches songs." They feel under no obligation to record company expectations or any other bosses. They control their own destiny best of all or least.

"The only people we feel responsible to are ourselves and our friends," Mark points out.

"We're notoriuos for being a band in the studio, which did.

They once did a cover of Tupsu: Sugar's California Love, one of the funniest West Coast monsters ever written, and they also got to keep the fat-filled blues of the Marblehead Johnsons: The Big Performance, a gem of a video comparable to Primus' Wiwina's Big Brown Beaver in the Claptrap department.

What else motivates them? Politics.

"EH. No... try all those interesting fans.

Eds once had a listen to the Scandinavian and was pleased. His thoughts?

"Get into acting, Morten."
