Terroir
Pronunciation: /ter'wa:, terwar/
n. the complete natural environment in which a particular wine or food is produced.
adj. the characteristic taste and flavour imparted to a wine or food by the environment in which it originates, e.g. goût de terroir: taste of the land.

Wine is one of the most civilized things in the world and one of the most natural things of the world that has been brought to the greatest perfection, and it offers a greater range for enjoyment and appreciation than, possibly, any other purely sensory thing.
Ernest Hemingway (1899 – 1961)
Welcome to Aniar
Introduction

Our wine and drinks menu is written in relation to our food, with care and consideration to the specific terroir of which our food speaks. Because our food menu pays homage to the landscape of the west of Ireland, we have chosen wines and drinks we feel do justice to the specific place that is Galway. The lightness of our food lends itself to crisp expressive whites and spicy light to medium reds.

When choosing your beverage (we also serve local artisan beer, cider, whiskey, organic lemonade), be sure to ask our staff for advice if you are unsure of its pairing. We have included a brief but by no means comprehensive list below to help you choose your drink during each course. Furthermore, at the beginning of each section we have listed specific food matches that will no doubt assist you with your choice. We are now delighted to be able to offer a non-alcoholic pairing with our tasting menu. Please note vintages may vary. Enjoy!

Jp & Zsolt.

“Let me show you how this is done. First thing, hold the glass up and examine the wine against the light. You’re looking for color and clarity. Just, get a sense of it. OK? Uhh, thick? Thin? Watery? Syrupy? OK? Alright. Now, tip it. What you’re doing here is checking for color density as it thins out towards the rim. Uhh, that’s gonna tell you how old it is, among other things. It’s usually more important with reds. OK? Now, stick your nose in it. Don’t be shy, really get your nose in there. Mmm... a little citrus...”
