This Conference Paper is brought to you for free and open access by the School of Civil and Structural Engineering (Former DIT) at ARROW@TU Dublin. It has been accepted for inclusion in Conference papers by an authorized administrator of ARROW@TU Dublin. For more information, please contact arrow.admin@tudublin.ie, aisling.coyne@tudublin.ie, vera.kilshaw@tudublin.ie.

UK and Ireland Engineering Education Research Network

Spring Colloquium

Building capacity and growing collaborations

Friday, May 3rd 2019, Grangegorman Campus, Technological University Dublin

Proceedings

Table of Contents

	Page
Session 1. Jane Andrews, Graeme Knowles, Robin Clark, University of Warwick, Roger Penlington, University of Northumbria: The great teacher training debate: how can colleagues be better prepared to teach in engineering?	3
Una Beagon and Brian Bowe, TU Dublin: Engineering skills requirements: a systematic literature review (2009-2016)	7
Maria Kyne, Limerick Institute of Technology: Incorporation of the programmatic review and accreditation process in engineering education	10
Roger Penlington, University of Northumbria: Mapping the engineering academic career path.	15
Grame Knowles, University of Warwick: The 'Brilliant Jerk' Test: Applying the principles of deliberately developmental organizations to develop the whole engineer	20
Keynote presentation Prof. Bill Williams (Associate editor of the Journal of Engineering Education and the European Journal of Engineering Education) Getting published: Interdisciplinarity and other challenges.	24
Session 2. Thomas Popham, Clare Lucas, University of Warwick: Data Science – What do all engineers need to know?	33
Alan Brown, University of Ulster: Effective active learning pedagogies in engineering: Just being active is not enough	38
Peter Johnson, Imperial College London: Case study of an authentic engineering problem solved as part of a first-year undergraduate laboratory session in fluid mechanics.	45
Stuart Grey , University of Strathclyde: Automated tools to bridge the gap between student comments and improved teaching.	48
Irina Neaga, University of Wales Trinity St David: Big Data in Higher Education: From the literature review to a conceptual framework	54
Session 3 Nathalie Al-Kakoun, Patricia Xavier , Swansea University: Integrating social development into engineering education	58
Gabrielle Orbeak White, Swansea University: Addressing the diversity problem in engineering: Re- Imagining the research paradigm in engineering education research	60
Jeffrey Buckley, Tomas Hyland, Lena Gumaelius, Niall Seery and Arnold Pears, Athlone Institute of Technology, KTH Royal Institute of Technology, Stockholm, Sweden and University of Limerick: Engineering education research methods to determine conceptions of engineers and of engineering	64
Ed Byrne, University College Cork: Engineering education directions and progress	68
Diana Adela Martin, Eddie Conlon, Brian Bowe, TU Dublin: Surveying the state of engineering ethics education	73

EERN Network Engineering Skills Requirements: A systematic literature review (2009-2016)

> Presenter: Una Beagon Supervisor: Prof. Brian Bowe

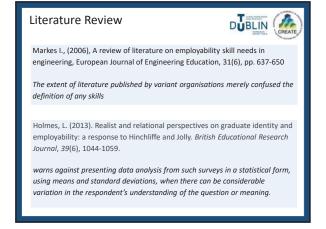

> > 3rd May 2019

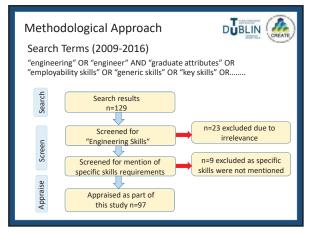

Outline

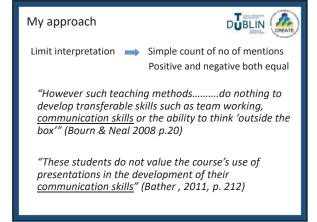

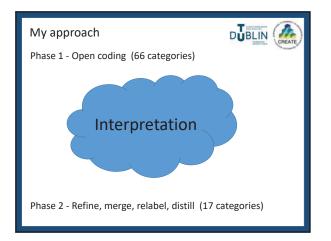

- 1) Aims of research
- 2) Methodological Approach
- 3) Results
- 4) Lessons learned

Aims of Research	
Better prepare students for the workplace	
Identify key skills requirements	

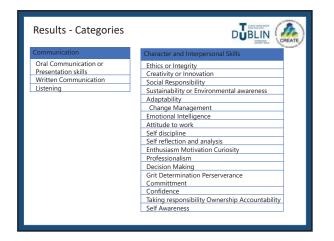

verall Results – 17 categories	categories		
Category	No of sources which mention this skill	No of times this skill is referenced	
Character and Interpersonal Skills	73	433	
Teamwork / Groupwork / Collaboration	71	249	
Communication	67	195	
Technical skills	53	189	
Problem solving	58	130	
Business Acumen	46	111	
Globalisation, Intercultural Skills	41	93	
Self-Directed Learning/Independence	39	84	
Project Management or Planning and Organisation	40	67	
Leadership	33	54	
Practical applications / Real life problems	21	37	
Critical thinking	25	36	
Research skills	24	31	
Foreign Language skills	11	19	
Risk Management	7	10	
General Knowledge	8	10	
Health and Safety	7	8	

Lessons Learned

- Keep a record of all steps in any research
- Interpretation is inevitable
- Descriptions are helpful
- Be wary of lists of skills!

Holmes, L. (2013). Realist and relational perspectives on graduate identity and employability: a response to Hinchliffe and Jolly. *British Educational Research Journal*, *39*(6), 1044-1059.

warns against presenting data analysis from such surveys in a statistical form, using means and standard deviations, when there can be considerable variation in the respondent's understanding of the question or meaning.
