BUJO COMBATING FOOD WASTE

12 RESPONSIBLE CONSUMPTION AND PRODUCTION

Wasting food is a global issue that creates significant environmental, economic, social and ethical problems. Ireland, along with almost 200 other countries, has committed to achieving the United Nations Sustainable Development Goals, including:

“By 2030, halve per capita global food waste at the retail and consumer levels and reduce food losses along production and supply chains, including post-harvest losses.”

Through the collective efforts of BuJo's Culinary Director Gráinne O'Keefe, our supplier, waste management & energy partners, the Sustainable Restaurant Association and not least our amazing BuJo Crew we are delighted to be playing our part towards achieving this Sustainable Development Goal.
